*Stella! Mother of Modern Acting* Sheana Ochoa, 2014-04-01 (Applause Books). Arthur Miller decided to become a playwright after seeing her perform with the Group Theater. Marlon Brando attributed his acting to her genius as a teacher. Theater critic Robert Brustein calls her the greatest acting teacher in America. At the turn of the 20th century by which time acting had hardly evolved since classical Greece Stella Adler became a child star of the Yiddish stage in New York, where she was being groomed to refine acting craft and eventually help pioneer its modern gold standard: method acting. Stella's emphasis on experiencing a role through the actions in the given circumstances of the work directs actors toward a deep sociological understanding of the imagined characters: their social class, geographic upbringing, biography, which enlarges the actor's creative choices. Always onstage, Stella's flamboyant personality disguised a deep sense of not belonging. Her unrealized dream of becoming a movie star chafed against an unflagging commitment to the transformative power of art. From her Depression-era plays with the Group Theatre to freedom fighting during WWII, Stella used her notoriety as a tool for change. For this book, Sheana Ochoa worked alongside Irene Gilbert, Stella's friend of 30 years, who provided Ochoa with a trove of Stella's personal and pedagogical materials, and Ochoa interviewed Stella's entire living family, including her daughter Ellen; her colleagues and friends, from Arthur Miller to Karl Malden; and her students from Robert De Niro to Mark Ruffalo. Unearthing countless unpublished letters and interviews, private audio recordings, Stella's extensive FBI file, class videos and private audio recordings, Ochoa's biography introduces one of the most under recognized, yet most influential luminaries of the 20th century.

*Stella's Stories from Around the Globe* Sheri Burke, 2022-01-31 Did you know.....? That means that if we seated 100 pilots on a plane then only 6 would be female and the remaining 94 would be male. Some countries are starting to close this gap. India has the highest number of female pilots at around 12% Meet Stella and Lizzy McFly: These two courageous females are about to take you on an adventure! Are you ready? This pilot and copilot team will teach you about airplanes and flight. Together you'll learn about radio communication, weather, and how to read some of the plane's instruments. You'll also get to experience some daring aerobatic stunts - an aileron roll and hammerhead. You'll learn a new alphabet - the radio alphabet; as well as the codes for some of the world's airports. There's even space for you to create your very own flight log. If you are interested in flight then this book is for you! Who knows.....maybe one day you'll become a pilot. Ready. Set. Let's go on another adventure!
