Inside the Fortress a Soldier's Life in the Green Zone American Book Publishing Group, Steve Valley, 2009-11

A Mighty Fortress Steven Ozment, 2005-01-18 The word German was being used by the Romans as early as the mid-first century B.C. to describe tribes in the eastern Rhine valley. Nearly two thousand years later, the richness and complexity of German history have faded beneath the long shadow of the country's darkest hour in World War II. Now, award-winning historian Steven Ozment, whom *The New Yorker* has hailed as a splendidly readable scholar, gives us the fullest portrait possible in this sweeping, original, and provocative history of the German people, from antiquity to the present, holding a mirror up to an entire civilization -- one that has been alternately Western Europe's most successful and most perilous.

Fortress Eugene Mullen, 2003-08 Steve E. Larson learns the harsh reality of war, finding himself relieving the past as a youthful American soldier flying combat mission from England in the summer of 1943. As the heated battle over the skies of Germany's Fortress Europe, take their toll on Steve, he finds comfort in the arms of English women. With each mission, life becomes more meaningful. He meets two women that are different as night and day. Captain Ann Toille, hardened by the war and as cold as ice, and Cindy Graham a local working girl that he can escape to and enjoy the pleasures of the world. Fate steps in and he gets shot down over Germany. Left with only the clothes on his back he tries to make it back to England before getting captured. He finds out that there is more to this war and to life, then what he is living. He gets befriended on the way by Carolyn only to leave her hanging on death's doorstep. Returning to England feeling low in heart, he turns to Cindy only to regret being with her. Fate steps in again as he meets Ann. Can Ann's love nourish him back even though it is not her love that he desires?

The Zombies have also turned the village blacksmith into a Zombie, leaving Steve without a place to get swords. To protect himself and the few villagers that remain, Steve goes on a quest to mine for forty diamonds, which are the most powerful mineral in the Overworld. Facing treacherous mining conditions, a thunderstorm, and attacks from hostile mobs, these four friends' question if it's better to be a single player than a multiplayer, as they try to watch out for each other and chase Steve's dream

at the same time. Will Steve find the diamonds? Will his friends help or hinder the search? Should he trust his new treasure hunter friends? And will Steve get back in time to save the villagers?

Defense of Japan 1945 Steven J. Zaloga, 2010-10-19 In 1945, with her fleet destroyed and her armies beaten, the only thing that stood between Japan and an Allied invasion was the numerous coastal defence positions that surrounded the islands. This is the first book to take a detailed look at the Japanese home island fortifications that were constructed during 1941-45. Utilizing diagrams, specially commissioned artwork, and sources previously unavailable in English, Steven Zaloga examines these defences in the context of a possible Allied invasion, constructing various arguments for one of the greatest 'what if' scenarios of World War II, and helping to explain why the Americans decided to go ahead with a nuclear option.

Encyclopedia of Journalists on Film Richard R. Ness, 2020-01-15 From All the President's Men to Zodiac, some of the most compelling films of the last century have featured depictions of journalists in action. While print journalism struggles to survive, the emergence of news from social media outlets continues to expand, allowing the world to be kept informed on a second-by-second basis. Despite attacks on journalists—both verbal and physical—a free press remains a crucial bastion for civilized society. And just as the daily news reflects the current state of affairs, films about journalism represent how reporting has evolved over the last few centuries. In *Encyclopedia of Journalists on Film*, Richard R. Ness provides a comprehensive examination of the fourth estate in cinema—from newspaper reporters to today's cyber journalists. In this volume, Ness provides in-depth descriptions and analyses of more than five hundred significant films, from the silent era to the present, including international productions and made-for-television movies. The entries focus on the image of the press on screen and ethical issues or concerns raised about the practices of the profession. Collectively, the entries demonstrate that there is a recognizable genre of journalism films with definable plot patterns and iconography. Each entry features: Major credits including directors, writers, and producers List of characters and the actors who portray them Running time Plot synopsis Analysis of the role of journalism Many of the entries feature critical reviews as well as cogent selections of dialogue. Films discussed here include comedies such as *His Girl Friday* (1940), nail-biting thrillers like *Foreign Correspondent* (1940) and *The Parallax View* (1974), social

commentaries like *Network* (1976) and *The China Syndrome* (1979), dramas like *Citizen Kane* (1941) and *The Post* (2017), and of course, Academy Award winners *All the President's Men* (1976) and *Spotlight* (2015). A definitive study of a film genre, *Encyclopedia of Journalists on Film* will be of interest to film scholars, researchers, journalists, and students of popular culture.

Christianity and Contemporary Politics Luke Bretherton, 2011-09-13 Congratulations to Luke Bretherton on winning the 2013 Michael Ramsey Prize for Theological Writing for Christianity and Contemporary Politics! Relations between religious and political spheres continue to stir passionate debates on both sides of the Atlantic. Through a combination of theological reflection and empirical case studies, Bretherton succeeds in offering timely and invaluable insights into these crucial issues facing 21st century societies. Explores the relationship between Christianity and contemporary politics through case studies of faith-based organizations, Christian political activism and welfare provision in the West; these case studies assess initiatives including community organizing, fair trade, and the sanctuary movement Offers an insightful, informative account of how Christians can engage politically in a multi-faith, liberal democracy Integrates debates in political theology with inter-disciplinary analysis of policy and practice regarding religious social, political and economic engagement in the USA, UK, and continental Europe Reveals how Christians can help prevent the subversion of the church – and even of politics itself – by legal, bureaucratic, and market mechanisms, rather than advocating withdrawal or assimilation Engages with the intricacies of contemporary politics whilst integrating systematic and historical theological reflection on political and economic life

Reinventing English Evangelicalism, 1966-2001 Robert E. Warner, 2007-12-01 This provocative book offers a revisionist history of the transdenominational initiatives of English evangelicals from 1965 to 2000. Warner provides an

authoritative theological analysis and a constructive sociological critique. Pillars in the History of Biblical Interpretation, Volume 2 Stanley E. Porter, Sean A. Adams, 2016-11-03 This two-volume set is part of a growing body of literature concerned with the history of biblical interpretation. The ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the Enlightenment, identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed. Volume 1 contains fourteen essays on twenty-two interpreters who were principally active before 1980, and volume 2 has nineteen essays on twenty-seven of those who were active primarily after this date. Each chapter provides a brief biography of one or more scholars, as well as a detailed description of their major contributions to the field. This is followed by an (often new) application of the scholar's theory. By focusing on the individual scholars and their work, the book recognizes that interpretive approaches arise out of certain circumstances, and that scholars are influenced by, and have influences upon, both other interpreters and the times in which they live. This set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed.
