Sticky Creativity Bo Christensen, Kim Halskov, Clemens N. Klokmoose, 2019-11-01 Sticky Creativity: Post-It® Note Cognition, Computers, and Design presents the interesting history of sticky notes and how they have become the most commonly used design material in brainstorming, business model generation, and design thinking. The book brings together researchers from psychology, computer science and design in order to understand why and how sticky notes are used, why they work well, and whether sticky notes are replaceable or improvable by a digital counterpart. The book covers psychology, computers and design respectively. From a psychological perspective, cognitive and socio-cognitive theories are used to explain the functions sticky notes serve in idea generation and creative collaboration. Following sections present the findings from three very different computerized instantiations of sticky notes and discuss the challenges and opportunities that arise when trying to digitize sticky notes. Highlights the benefits of sticky notes in idea generation and creative collaboration Explores the use of sticky notes in a variety of creative, design professional and educational settings Includes research perspectives from cognitive psychology, computer science and design studies

Essential Guides for Early Career Teachers: Using Cognitive Science in the Classroom Kelly Richens, 2021-11-03 Linked to the Early Career Framework, this book provides an understanding of cognitive load theory and its application to teaching for all those training or new to the job. Cognitive science is fast becoming the cornerstone for understanding how students learn and is revolutionising the way we teach pupils at both primary and secondary levels. The techniques informed by cognitive science are evidence-based and proven to work, providing clear benefits for both the early career teacher and your pupils. This book outlines the principles of cognitive load theory and metacognition so that you can feel in control of your own learning and understand how to harness the learning of your students. It provides concise explanations and practical strategies that you can use in the classroom, enabling you to confidently plan and teach lessons with a reflective, metacognitive approach underpinned by key cognitive science principles.

HCI International 2020 - Late Breaking Papers: User Experience Design and Case Studies Constantine Stephanidis, Aaron Marcus, Elizabeth Rosenzweig, Pei-Luen Patrick Rau, Abbas Moallem, Matthias Rauterberg, 2020-10-02 This book constitutes late breaking papers from the 22nd International Conference on Human-Computer Interaction, HCII 2020, which was held in July 2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic. From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as “Late Breaking Work” (papers and posters). These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems. The 54 late breaking papers presented in this volume were organized in two topical sections named: User Experience Design and Evaluation Methods and Tools; Design Case Studies; User Experience Case Studies.

Ditch That Textbook Matt Miller, 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

A Better Library Checkout Amber Lovett, 2019-01-01 How could a smarter library checkout system make life easier for the kids and librarian in your school? Great inventors use a process called design thinking to help them identify problems, big and small, and create solutions for them. This book introduces readers to design thinking and asks them to look at their library's checkout system (the pros and cons of it) in a specific way to figure out how to improve it. Design thinking fosters innovation, creativity, and even empathy--essential learning for students. Book includes table of contents, glossary of key words, index, author biography, sidebars, infographics, and instructions.
