Nasdaq Mark Ingebretsen,2002 Early in 2000, the Nasdaq stock market surpassed 5,000, the highest level in its 30-year history. Experts yelled, Buy! Pundits predicted the Nasdaq's value would surpass that of the Dow Jones. Blue chips were dead. Tech was in. And everybody seemed to be making money. Then, the bottom fell out. Since then, the Nasdaq has taken investors on a rollercoaster ride full of exuberant peaks and heartbreaking valleys, floundering around lows that haven't been seen in years. Wealth was accumulated, and then it vanished. Companies sprang up, then folded. Lives and livelihoods were changed forever. But it wasn't the first time. The full history of the Nasdaq teems with boom-and-bust stories. What started as a Depression-era organization designed to combat stock market fraud - and struggled for decades as the black sheep of Wall Street - is now vying with the venerated New York Stock Exchange as the global icon of corporate wealth and success. Today, it faces new challenges in a murky and unpredictable economy.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Black Tuesday Charles River Charles River Editors,2017-01-26 *Includes pictures *Includes accounts of the stock market crash written by newspapers and other contemporaries *Includes a bibliography for further reading *Includes a table of contents The Roaring Twenties were an age of optimism. New technology was being invented, and novel products were making their way to the store shelves. Americans believed that a new era, driven by technology, was upon them, and this optimism extended to financial markets. Investments especially soared in the bond market, where investors lent money to companies, and the stock market, where investors bought partial ownership of companies. During the 1920s, financiers believed that the economy would continue to boom, as it had been since the end of World War I. As a result, investors and financiers increasingly accepted lower and lower returns on money they lent. In the stock market, the result was much the same: stocks skyrocketed throughout the 1920s, led by new technology stocks, such as Radio Corporation of America, or RCA, which made radios and owned broadcasters. However, the rampant purchasing and rise in prices meant that stock prices soon bore little relationship to the underlying value of the businesses, because the prices were bid up by investors. Prior to 1920, few middle class Americans owned shares in the stock market, but as the prices of stocks grew, the enthusiasm for purchasing stocks grew as well. More middle class Americans purchased stocks in the 1920s than ever before. As stock prices rose throughout the 1920s, some economists believed that stock prices would never fall back to where they had been before World War I. Economist Irving Fisher famously said Stock prices have reached what looks like a permanently high plateau. Some speculators even sought to capitalize on rising stock prices by borrowing money to buy stocks. Buying stocks with borrowed money had previously seemed very risky, because if the stock market declined, the speculator would be required to post additional collateral to back the loan. But with share prices continuously rising, buying with borrowed money seemed like a good way to make larger profits. However, during the fall of 1929, the stock market was becoming increasingly unstable. Prices would rise and fall rapidly, and some investors were becoming more cautious. Then, on October 24, 1929, the stock market lost 11% of its value right at the opening of the stock market. Panic ensued, but several prominent investment bankers were able to restore confidence by buying stocks well above the market rate. Investors were still extremely nervous, however, and when word of the panic spread over the weekend, investors flooded their brokers with sell orders for Monday morning. On Monday, October 28, the market fell almost 13%, earning it the moniker Black Monday. The market fared no better the next day, falling nearly another 12% during what became known as Black Tuesday. This time, efforts by wealthy investors, including members of the Rockefeller family and General Motors founder William C. Durant to restore confidence failed. Durant believed he could single-handedly restore confidence to the market by committing his whole fortune to buying stocks; instead, his business failed. Black Tuesday was a catastrophe the country wasn't ready for, and in fact, the market would not return to its 1929 peak until the 1950s. Black Tuesday is best remembered for investors and consumers making a run on banks that could not service everyone, and banks failed often during the Great Depression, due to bad loans and a lack of public confidence that produced further bank runs. The Federal Reserve was reluctant to backstop banks and protect them against bank runs, so banks were unable to borrow enough money to cover depositors' demands. When banks failed, depositors who couldn't get their money out of the bank were wiped out.

The History of the Stock Exchanges of the U.S. During the Years 1860-1865 Arthur Lloyd McLean,1923

THE NEW YORK STOCK EXCHANGE IN THE CRISIS OF 1914 [Reprint] H. G. S. NOBLE,2014-04-05 History repeats itself. Stock Exchange Crash. The year 1914 has no precedent in Stock Exchange history. At the present time (1915), when the great events that have come to pass are still close to us, even their details are vivid in our minds and we need no one to rehearse them. Time, however, is quick to dim even acute memories, and Wall Street, of all places, is the land of forgetfulness. The new happenings of all the World crowd upon each other so fast in the financial district that even the greatest and most far-reaching of them are soon driven out of sight. This being the case, it has seemed to the writer of these pages that some record should be kept among the brokerage fraternity of what was so great an epoch in their history, and that this record could best be written down by one who happened to be very favorably placed to know the story in its entirety. Of course the archives of the Exchange will always contain the minutes of Committees and other documentary material embodying the story of the past, but this dry chronicle is never likely to see the light except when unearthed by law courts or legislative committees. It seems worth while, therefore, to disentangle the essential thread of the tale of 1914 from the mass of unreadable detail in the minute books, and put it in a shape where those who are interested may look it over.
