Andrew Johnson Glenna R. Schroeder-Lein,Richard Zuczek,2001-06-22 This A-Z encyclopedia provides carefully selected entries covering the people, events, and concepts relevant to Andrew Johnson's life. Andrew Johnson was—and is—an American paradox. He never attended school, yet fought for public education. He was a Southern slaveholder who opposed secession and enforced emancipation. Born into poverty, he became the 17th president of the United States—and the first U.S. president to be impeached. This new volume thoroughly examines the troubled career of our most unpopular president—not to resuscitate his reputation, but because his personal contradictions reflected those of his country: a democratic nation conceived in liberty, yet existing half slave and half free; an economy of yeoman farmers and independent artisans being swept into industrialization and a market system; a country fond of tradition, but caught up in social, economic, and political revolution.

Social Impact of Wine Marketing Mojca Ramšak,2022-01-24 This book is inspired by the term “digiwine,” a neologism referring to the production and/or marketing of wine through the use of new technologies and robotics such as vineyard information systems, sensor units, weather stations, drones, robotic harvesters, social media videos, digital labels, and wine apps. The alcohol industry is using these technologies to develop digital strategies and online tools for more efficient sales of wine. This book analyzes the use of digital alcohol marketing, the reasons for it, the role of regulation, and its social impact. In particular, malignant forms of alcohol marketing to youth are precisely described through exact case descriptions from the global milieu. The author questions whether the loopholes in the legislation or inefficiency of self-regulation have negative consequences that can no longer be prevented by public health care programs. When and how did the alcohol industry become so deeply interwoven in our lives that we mindlessly advertise and parade in its shadow on social media and that we increasingly buy alcohol digitally for fun, in innovative packaging, and with strange ingredients combinations? Dr. Mojca Ramšak’s book peels back the layers of the alcohol industry’s most obvious yet overlooked marketing tactics. It also reveals the sluggishness of preventive and curative efforts, as well as legal or self-regulatory measures, at keeping up with the alcohol industry’s use of technology. - Nadja Furlan Štante, Principal Research Associate and Professor of Religious Studies, Science and Research Centre of Koper, Slovenia.

The Forty-Three Presidents Nero James Pruitt,2015-08-06 Harry Truman may have only slightly overstated the matter when he said, The presidents made the highlights of American history, and when you tell about them, youve got it. We can, in fact, learn a tremendous amount about the world in which we live by studying the forty-three presidents, including what they said to and about each other. Nero James Pruitt tackles the task, explaining why we should care that Sen. John Quincy Adams played chess with Secretary of State James Madison in 1803; why future war heroes and presidents Gerald Ford and John F. Kennedy supported the isolationist America First committee in the 1940s; and why diplomats John Adams and Thomas Jefferson could bond in a way that modern diplomats cannot. He also shares fascinating facts and stories, such as the humorous tale of President James K. Polk hanging a portrait of Andrew Jackson in his office. Polk wrote to his friend, The contrast between your appearance then and now is very great. Gain a deeper appreciation of what makes the United States so special by studying the fascinating connections between The Forty-Three Presidents.

Andrew Johnson Annette Gordon-Reed,2011-01-18 A portrait of America's seventeenth president describes Andrew Johnson's failed efforts to bring about reconciliation following the Civil War, the antagonism of congressional leaders who sought his impeachment, and his legacy for the present.

Andrew Johnson Garry Boulard,2021-04-05 Few presidents have been as eviscerated in history as Andrew Johnson, who suddenly on a rainy morning in April of 1865 became the nation’s new chief executive upon the assassination of Abraham Lincoln. A man who rose from dire poverty through a sheer primal force of will, Johnson was elected to every level of government—always taking his case to the people—in a remarkable, if often chaotic career that included service as a state legislator, member of Congress, Governor of Tennessee, U.S. Senator, vice-president, and finally the presidency itself. During the Civil War, Johnson bravely stood up to Confederates, his life repeatedly threatened serving at Lincoln’s pleasure as the Military Governor of Tennessee and pushing for an

end to slavery. Yet he is the same man who, upon succeeding Lincoln, could not see his way clear to securing the full Constitutional rights for ex-slaves. Because of his endless fights and many confrontations, Johnson's presidency has since been roundly condemned as one of the most disastrous in U.S. history. Johnson, notes Page Smith in his seminal *People's History* series, put on full display "a reckless and demonic spirit that drove him to excess, to violence, harsh words and actions." "He was thrust into a role that required tact, flexibility, and sensitivity to the nuance of public opinion—qualities that Lincoln possessed in abundance, but that Johnson lacked," asserts historian Eric Foner, "He was an angry man," notes David Stewart, a chronicler of Johnson's impeachment trial, "and he was rigid, and these were qualities that served him terribly as president." Yet, for all of the scholarly indictments of the 17th President, indictments supported by a recent Siena College Research Institute historians' survey placing him at the bottom in overall performance, Andrew Johnson challenges us as a singularly American story of triumph, defeat, and renewal, a man who overcame the challenges of poverty, class, and alienation to reach the highest peaks of power in the country. That drive was ironically most tellingly on display after Johnson left the White House, denied even the opportunity of a party nomination for another term in office. From the ashes of that loss, Johnson methodically rose again, winning election to the U.S. Senate and improbably returning to national prominence. Andrew Johnson's renaissance, coming 6 years after an unprecedented effort to impeach and remove him from the presidency, represents one of the greatest comebacks in American political history and serves as a testament to a man who could never be totally defeated.

Vessels of Rage James Graham, Based on over 20 years' prodigious research, Graham takes the reader on a compelling tour of human history & links alcohol addiction with the destructive behavior of a range of public figures, including tyrants, murderers, politicians & writers. Eliza Johnson Jean Choate, 2004 Eliza was the daughter of Sarah Phillips and John McCardle, a shoemaker. Fortunately she had received a good basic education which she shared with her new husband. He already knew his letters and could read a bit, so she taught him writing and arithmetic. With their limited means, her skill at keeping a house and bringing up a family -- five children in all -- had much to do with Andrew Johnson's success. He rose rapidly, serving in the state and national legislatures and as governor. Like him, when the Civil War came, people of east Tennessee remained loyal to the Union; Lincoln sent him to Nashville as military governor in 1862. Rebel forces caught Eliza at home with part of the family. Quite aside from the tragedy of Lincoln's death, she found little pleasure in her husband's position as President. At the White House she settled into a second-floor room that became the centre of activities for a large family: her two sons, her widowed daughter Mary Stover and her children; her older daughter Martha with her husband, Senator David T Patterson, and their children. As a schoolgirl Martha had often been the Polks' guest at the mansion; now she took up its social duties. She was a competent, unpretentious, and gracious hostess even during the impeachment crisis. At the end of Johnson's term, Eliza returned with relief to her home in Tennessee, restored from wartime vandalism. She lived to see the legislature of her state vindicate her husband's career by electing him to the Senate in 1875, and survived him by nearly six months, dying at the Patterson's home in 1876.

The Murder of Andrew Johnson Burt Solomon, 2023-10-03 The next John Hay historical thriller from award-winning political journalist Burt Solomon, this time focused on one of America's most controversial presidents: Andrew Johnson. Andrew Johnson was called The Great Commoner, appealing to the masses, loathing the establishment and anyone he deemed elitist. Once Johnson made an enemy, you became his enemy for life. He saw insults where none were intended and personal loyalty meant everything...and his devoted fans would follow him into the depths of Hell. He was also the first U.S. president to be impeached. Time however waits for no man and even the Famous (or Infamous) must leave this world eventually. But when a man has as many enemies as the Devil, what death could really be a natural one? From political opponents to most of his own family, the suspects are endless, and the truth not really wanted. John Hay, lawyer, sometimes governmental bureaucrat, and now journeyman investigative reporter, is set on finding that truth. And it may wind up killing him. Dinner with the President Alex Prud'homme, 2024-02-20 A wonderfully entertaining, often surprising history of presidential taste, from the grim meals eaten by Washington and his starving troops at Valley Forge to Trump's fast-food burgers and Biden's ice cream—what they ate, why they ate it, and what it tells us about the state of the nation—from the coauthor of Julia Child's bestselling memoir *My Life in France* [A] beautifully written book about how the presidential palate has helped shape America. . . . Fascinating.—Stanley Tucci Some of the most significant moments in American

history have occurred over meals, as U.S. presidents broke bread with friends or foes: Thomas Jefferson’s nation-building receptions in the new capital, Washington, D.C.; Ulysses S. Grant’s state dinner for the king of Hawaii; Teddy Roosevelt’s groundbreaking supper with Booker T. Washington; Richard Nixon’s practiced use of chopsticks to pry open China; Jimmy Carter’s cakes and pies that fueled a détente between Israel and Egypt at Camp David. Here Alex Prud’homme invites readers into the White House kitchen to reveal the sometimes curious tastes of twenty-six of America’s most influential presidents and the ways their choices affected food policy around the world. And the White House menu grew over time—from simple eggs and black coffee for Abraham Lincoln during the Civil War to jelly beans and enchiladas for Ronald Reagan and arugula for Barack Obama. What our leaders say about food touches on everything from our nation’s shifting diet and local politics to global trade, war, class, gender, race, and so much more. Prud’homme also details overlooked figures, like George Washington’s enslaved chef, Hercules Posey, whose meals burnished the president’s reputation before the cook narrowly escaped to freedom, and pioneering First Ladies, such as Dolley Madison and Jackie Kennedy. As he weaves these stories together, Prud’homme shows that food is not just fuel when it is served to the most powerful people in the world. It is a tool of communication, a lever of power and persuasion, and a symbol of the nation. Included are ten authentic recipes for favorite presidential dishes, such as: *Martha Washington’s Preserved Cherries, *Abraham Lincoln’s Gingerbread Men, *William H. Taft’s Billy Bi Mussel Soup, *Franklin D. Roosevelt’s Reverse Martini, *Lady Bird Johnson’s Pedernales River Chili
