Quick Stop Raymond Romain,2013-08-23 side-show n. 1. A small show offered in addition to the main attraction, as at a circus. 2. A diversion or spectacle that is incidental to a larger set of circumstances or a bigger issue of concern American Sideshow is a series of stories that follows the misadventures of an unlikely band of Carnies in post 9/11 America; an era that combines aspects of Pearl Harbor, Vietnam, the Great Depression, and the kind of paranoia and government control that would make J. Edgar Hoover giggle with joy until he wet himself. If the situation wasn't complicated enough before the Carnies capered into the mix then it will be soon enough. So, Step right up and pay the man at the door! The show is about to begin, but if you hurry you can still get a good seat. Three Midgets, a Giant, and a Mime walk into a Mini-Mart...It sounds like a bad joke, but this fast paced adventure tale is totally serious; except when it's not. Join this bickering band of Carnies on their mini adventure between gigs to see what happens when moral ambiguity and ADHD meets opportunity and unchecked aggression...How can things possibly go wrong?

Say It and Solve It Karl James,2014-07-28 Karl’s knowledge makes his voice in this territory unique and hugely readable.” Dave Lewis, President, Personal Care, Unilever Why are the most important conversations the most difficult to handle? You know you have to have them, but still you put them off. And you want them to go well but you don’t know how to make sure they do. How do you prepare? What words should you use? How do you make your point without getting too nervous, tongue-tied or upset? And how are you going to solve the problem that needs addressing without upsetting someone? Say It and Solve it will coach you in the ten expert skills that peace negotiators, mediators and therapists use to take on even the most challenging situations and make every conversation count. You’ll discover: · Fascinating insights into how conversations really work: when to listen, when to talk and when to shut up! · How to avoid the most common mistakes that everyone makes. · The ten most powerful skills you need to tackle any conversation in any situation. · Expert guidance on handling tricky conversations in real-world, workplace situations. Stop putting off those tricky conversations and start talking (and listening) your way to solutions and success.

Stop Your Nailbiting! Permanently Gilbreth Brown,2004 Adult problem nail biting can be easily cured using the information and the technique in this book. Nail biting affects millions; this book offers well documented relief and freedom from the habit.

The Contest K.E. Ganshert,2022-09-29 An orphan with nothing but her brother. A prince with everything but his freedom. Only one can win ... In a world of haves and have nots, where petty crime is punishable by death and magic is forbidden, a deadly contest unfolds in secret. Twelve competitors are mysteriously invited. The winner gets one wish. For 17-year-old Briar Bishop, this means saving her brother from execution by guillotine, and she’s not going to let anything or anyone get in her way. Especially not Leo Davenbrook, the handsome High Prince, who has grown up with everything she never had and whose very presence threatens her chance at survival. She has no idea a darker battle wages, one that could lead to a fate far worse than the death of her brother.

The Graveyard Game Kage Baker,2007-04-01 Mendoza is a Preserver for The Dr. Zeus Company, living in the past to collect species for the future. But when she kills six people in California in 1863, The Company makes her disappear. Joseph, a senior Preserver, loves Mendoza as the daughter he never had. Drunk on chocolate and fueled by rage, he's determined to find her however long it takes. Being an indestructible, immortal cyborg gives him an unlimited well of patience. What begins as a rescue mission uncovers a conspiracy stretching across fifty centuries of recorded history. Behind it lie genocide, graveyards filled with Company agents, and the roots of the ominous Silence that falls across the world in 2355. Aspectual Inquiries Paula Kempchinsky,Roumyana Slabakova,2006-03-04 The study of the linguistic reflexes of aspect has been an active field of research in various sub-disciplines of linguistics, such as syntax, semantics (including discourse theory) and acquisition studies. However, communication and dissemination of results across these various subfields has often been indirect. The different angles brought together give us a comprehensive picture of the representation of aspect in the mind/brain of the speaker. The papers in this volume represent the results of a workshop on the syntax, semantics and acquisition of aspect held in 2002 whose purpose was to foment active cross-disciplinary communication. A number of the papers examine the syntactic representation of lexical or situation aspect, while others focus on the syntactic interaction of lexical aspect with grammatical aspect, and of grammatical aspect and tense. Other papers examine the role of aspect in discourse representations, while a third group of papers reports on results of empirical studies on the acquisition of aspect in both first and second language acquisition, and patterns of loss of morphosyntactic reflexes of aspect in language attrition.

Cesar's Way Cesar Millan,Melissa Jo Peltier,2007-09-18 Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on The Oprah Winfrey Show to his roster of celebrity clients to his reality television series, Cesar Millan is America’s most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In Cesar’s Way, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions. Cesar’s formula for a contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn: • What your dog really needs may not be what you’re giving him • Why a dog’s natural pack instincts are the key to your happy relationship • How to relate to your dog on a canine level • There are no “problem breeds,” just problem owners • How to choose a dog who’s right for you and your family • The difference between discipline and punishment • And much more! Filled with fascinating anecdotes about Cesar’s longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith, this is the

only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.

The Other End of the Leash Patricia McConnell, Ph.D.,2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!”

Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.
