*Retail Superstars* George Whalin, 2009-05-28 How small, one-of-a-kind businesses can break through among giants Megachains like Walmart, Starbucks, Home Depot, and The Gap attract Americans to thousands of outlets by offering a large selection of goods and services. But this doesn't mean that independent stores can't compete with the big guys-

and win. Retail expert George Whalin identifies and explores twenty-five highly popular and profitable independent stores from around the country. Unlike the mom-and-pops of yesteryear, these businesses embrace technology and innovation, generate word of mouth, and turn their size into an advantage. They include: ? ABC Carpet and Home in New York City ? Powell's City of Books in Portland, Oregon ? The Junkman's Daughter in Atlanta ? Jungle Jim's International Market in Fairfield, Ohio Readers will be inspired by how these independent stores are thriving and take away lessons they can apply to their own businesses.

**The Daily Stoic** Ryan Holiday, Stephen Hanselman, 2016-10-18 The beloved classic daily devotional of Stoic meditations—the only authorized print edition in the US and complete with a ribbon marker—with more than two million copies sold! Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. The Daily Stoic offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you

need to live well.

**Patterns of Residential Care** Roy D. King,Norma V. Raynes,Jack Tizard,2023-10-27  
Originally published in 1971, this title describes a series of studies dealing with the upbringing of children in residential institutions. Most work has been carried out in institutions for children with learning disabilities, although units caring for able but deprived children and children with physical disabilities have also been examined. The investigations have been concerned with the detailed nature of different institutional environments - that is, the routine patterns of daily life in hospital wards, hostels and cottages of children's homes - rather than with the effects of specific child-rearing practices upon the intellectual, emotional and social development of the children. The more precise delineation of 'the environment' is an essential step towards the evaluation of residential services and the interpretation of their effects upon those who use them, yet this is an area which had received little systematic attention from social scientists at the time. This book is a re-issue originally published in 1971. The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re-publication.

**Fashioning Models** Joanne Entwistle, Elizabeth Wissinger, 2013-08-01 The fashion model's hold on popular consciousness is undeniable. How did models emerge as such powerful icons in modern consumer culture? This volume brings together cutting-edge articles on fashion models, examining modelling through race, class and gender, as well as its structure as an aesthetic marketplace within the global fashion economy. Essays include treatments of the history of fashion modelling, exploring how concerns about racial purity and the idealization of light skinned black women shaped the practice of modelling in its early years. Other essays examine how models have come to define femininity through consumer culture. While modelling's global nature is addressed throughout, chapters deal specifically with model markets in Australia and Tokyo, where nationalist concerns colour what is considered a pretty face. It also considers how models glamorize consumption through everyday activities, and neoliberal labour forms via reality TV. With commentaries from industry professionals who experienced the cultural juggernaut of the supermodels, the final essay situates their impact within the rise of brand culture and the globalization of fashion markets since 1990. Accessible and highly engaging, *Fashioning Models* is essential reading for students and scholars of fashion and related disciplines.

*Ypsilanti* James Thomas Mann,2002-09-25 In the latter half of the 19th century, the city of Ypsilanti went through a rapid transition from a small farming community to a center of education and business. By 1900, Ypsilanti was nationally known for three things: the Michigan Central Gardens, the mineral wells, and underwear. The gardens were designed by famed landscape gardener John Laidlaw, who studied gardening in his native Scotland before coming to the United States. Beginning in the 1880s, people came from miles away to bathe in Ypsilanti's mineral waters, which were said to cure just about anything. And for many years, Ypsilanti was the home of the Underwear Factory, where the finest full body union suits were made. Dr. Helen McAndrew was the first woman doctor in Ypsilanti, opening her practice in 1854. She and her husband were active in the Underground Railroad, which Ypsilanti played a very active role in. Ypsilanti is also the

home of Eastern Michigan University, founded in 1848, becoming the first normal school west of the Alleghenies.
