Indigenous Storywork Jo-Ann Archibald, 2008-06-01 Jo-ann Archibald worked closely with Coast Salish Elders and storytellers, who shared both traditional and personal life-experience stories, in order to develop ways of bringing storytelling into educational contexts. *Indigenous Storywork* is the result of this research and it demonstrates how stories have the power to educate and heal the heart, mind, body, and spirit. It builds on the seven principles of respect, responsibility, reciprocity, reverence, holism,

interrelatedness, and synergy that form a framework for understanding the characteristics of stories, appreciating the process of storytelling, establishing a receptive learning context, and engaging in holistic meaning-making.

Stories at Work Indranil Chakraborty, 2018 Is there a way to send out impactful messages that people remember for days? Is there a way to influence people without pushing data and analysis on them? Is there an effective way to drive change in an organization? Yes, through stories. Storytelling in business is different from telling stories to friends in a bar. It needs to be based on facts. *Stories at Work* will teach you how to wrap your stories in context and deliver them in a way that grabs your audience's attention. The special tools, techniques and structures in this book will help you bring the power of stories into your day-to-day business communication. They will enable you to connect, engage and inspire, and ensure that everything you share has a lasting impression on your listeners.

Story Works Guide to Writing Point of View Alida Winternheimer, 2017-06-07 Point of view is the most important element of story craft for any writer to understand. A story's point of view is the first thing a reader encounters, whether aware of it or not, and it defines the story. That means the wise writer will learn to control her story's point of view from word one. Fortunately for wise writers everywhere, author, writing coach, and renowned editor Alida Winternheimer takes a hands-on approach to this behemoth of story craft. In *The Story Works Guide to Writing Point of View*, she breaks the whole into manageable parts and delves deep, providing loads of examples that make the abstract concrete and the intangible tangible. In each chapter, Alida provides you with exercises designed to guide you to mastery. You'll come away from reading this book with an understanding of point

of view and how it functions in any story, but most importantly, how it functions in your stories. Those of you who agonize over point of view decisions have in front of you the definitive guide to point of view you've always wanted. Not only will Alida teach you how to improve your handle on first and third person and every variation between, but you'll also find that her lessons take some of the fear and pain out of the writing process by helping you understand why to make certain choices, how to avoid common pitfalls in point of view, and how to use your strengths to your advantage. For the other type of writer, those driven by instincts, Alida will educate and inform you. You don't know what you don't know, after all. Here's your master class. A great freedom comes from knowing your options. Even if you continue crafting stories based on your instincts, you'll now do so with a well of wisdom at your fingertips. - M.G. Herron, Author of The Auriga Project

How Story Works Lani Diane Rich,2021-12-16 How Story
Works is a writing encyclopedia, a road map, and a pep talk
all rolled into one--the rare 'How To' that feels like you're
having a fun chat with an enthusiastic expert who can't wait
to read what you've created. If you have a story inside of
you, this book can help you get it out of there and into the
world where it belongs. --Josh Siegal, writer and producer,
30 Rock, The Good Place, Saved By The Bell Almost two
decades ago, Lani Diane Rich signed a two-book deal with
Warner Books and panicked. She'd written one story, but
had no idea how she wrote it. Right then, she started on a
quest to learn everything about stories. Now, 12 novels and
thousands of hours analyzing stories later, she's ready to
teach you not only how story works, but how to make it
work for you. Whether you're writing novels, films, comics
or video games, this theory will teach you what you need to
know about craft so that you can get out of your own way
and let your magic shine. Lani's assistance was
instrumental in turning my manuscript into an actual book
that you can hold in your hands. She won't just make you a
better writer, she'll inspire to you to work hard, love your
creations, and be proud to take them out into the world. --

Recovering Black Storytelling in Qualitative Research
S.R. Toliver,2021-11-19 This research-based book
foregrounds Black narrative traditions and honors

alternative methods of data collection, analysis, and representation. Toliver presents a semi-fictionalized narrative in an alternative science fiction setting, refusing white-centric qualitative methods and honoring the ways of the griots who were the scholars of their African nations. By utilizing Black storytelling, Afrofuturism, and womanism as an onto-epistemological tool, this book asks readers to elevate Black imaginations, uplift Black dreams, and consider how Afrofuturity is qualitative futurity. By centering Black girls, the book considers the ethical responsibility of researchers to focus upon the words of our participants, not only as a means to better understand our historic and current world, but to better situate inquiry for what the future world and future research could look like. Ultimately, this book decenters traditional, white-centered qualitative methods and utilizes Afrofuturism as an onto-epistemological tool and ethical premise. It asks researchers to consider how we move forward in data collection, data analysis, and data representation by centering how Black girls reclaim and recover the past, counter negative and elevate positive realities that exist in the present, and create new possibilities for the future. The semi-fictionalized narrative of the book highlights the intricate methodological and theoretical work that undergirds the story. It will be an important text for both new and seasoned researchers interested in social justice. Informed and anti-racist researchers will find *Endarkened storywork* a useful tool for educational, cultural, and social critiques now and in the future.

[Pies from Nowhere: How Georgia Gilmore Sustained the](#)

Montgomery Bus Boycott Dee Romito, 2018-11-06 This stunning picture book looks into the life of Georgia Gilmore, a hidden figure of history who played a critical role in the civil rights movement and used her passion for baking to help the Montgomery Bus Boycott achieve its goal. Georgia decided to help the best way she knew how. She worked together with a group of women and together they purchased the supplies they needed-bread, lettuce, and chickens. And off they went to cook. The women brought food to the mass meetings that followed at the church. They sold sandwiches. They sold dinners in their neighborhoods. As the boycotters walked and walked, Georgia cooked and cooked. Georgia Gilmore was a cook at the National Lunch Company in Montgomery, Alabama. When the bus boycotts broke out in Montgomery after Rosa Parks was arrested, Georgia knew just what to do. She organized a group of women who cooked and baked to fund-raise for gas and cars to help sustain the boycott. Called the Club from Nowhere, Georgia was the only person who knew who baked and bought the food, and she said the money came from nowhere to anyone who asked. When Martin Luther King Jr. was arrested for his role in the boycott, Georgia testified on his behalf, and her home became a meeting place for civil rights leaders. This picture book highlights a hidden figure of the civil rights movement who fueled the bus boycotts and demonstrated that one person can make a real change in her community and beyond. It also includes one of her delicious recipes for kids to try with the help of their parents!

Greetings from Nowhere Barbara O'Connor, 2008-03-18 Aggie isn't expecting visitors at the Sleepy Time Motel in the Great Smoky Mountains. Since her husband died, she is all alone with her cat, Ugly, and keeping up with the bills and repairs has become next to impossible. The pool is

empty, the garden is overgrown, and not a soul has come to stay in nearly three months. When she reluctantly places a For Sale ad in the newspaper, Aggie doesn't know that Kirby and his mom will need a room when their car breaks down on the way to Kirby's new reform school. Or that Loretta and her parents will arrive in her dad's plumbing company van on a trip meant to honor the memory of Loretta's birth mother. Or that Clyde Dover will answer the For Sale ad in such a hurry and move in with his daughter, Willow, looking for a brand-new life to replace the one that was fractured when Willow's mom left. Perhaps the biggest surprise of all is that Aggie and her guests find just the friends they need at the shabby motel in the middle of nowhere. From an author long recognized for her true Southern voice and heartfelt characters, *Greetings from Nowhere*, with its four intertwining stories, brings Barbara O'Connor's work to a new level of sophistication. This title has Common Core connections.

Native Advertising Lisa Lynch, 2018-06-12 Native Advertising examines the emerging practices and norms around native advertising in US and European news

organizations. Over the past five years native advertising has rapidly become a significant revenue stream for both digital news “upstarts” and legacy newspapers and magazines. This book helps scholars and students of journalism and advertising to understand the news industry’s investment in native advertising, and consider the effects this investment might have on how news is produced, consumed, and understood. It is argued that although they have deep roots in earlier forms of advertising, native ads with a political or advocacy bent have the potential to shift the relationship between news outlets and audiences in new ways, particularly in an era when trust in the media has reached a historic low point. Beyond this, such advertisements have the potential to shift how media systems function in relation to state power, by changing the relationship between commercial and non-commercial speech. Drawing on real-world examples of native ads and including an in-depth case study contributed by Ava Sirrah, *Native Advertising* provides an important assessment of the potential consequences of native advertising becoming an even more prominent fixture in the 21st-century news feed.

Decolonizing Research Jo-ann Archibald Q’um Q’um Xiiem, Jenny Bol Jun Lee-Morgan, Jason De Santolo, 2019-05-15 From Oceania to North America, indigenous peoples have created storytelling traditions of incredible depth and diversity. The term 'indigenous storywork' has come to encompass the sheer breadth of ways in which indigenous storytelling serves as a historical record, as a form of teaching and learning, and as an expression of indigenous culture and identity. But such traditions have too often been relegated to the realm of myth and legend, recorded as fragmented distortions, or erased altogether. *Decolonizing Research* brings together

indigenous researchers and activists from Canada, Australia and New Zealand to assert the unique value of indigenous storywork as a focus of research, and to develop methodologies that rectify the colonial attitudes inherent in much past and current scholarship. By bringing together their own indigenous perspectives, and by treating indigenous storywork on its own terms, the contributors illuminate valuable new avenues for research, and show how such reworked scholarship can contribute to the movement for indigenous rights and self-determination.
