**Strategic Environmental Assessment** Barry Sadler, Barry Dalal-Clayton, 2012 This unique sourcebook provides a global, state-of-the-art review of the rapidly evolving field of strategic environmental assessment (SEA) that is intended to serve as a baseline for the work of an OECD Task Team on SEA and a UNEP initiative on integrated planning and assessment. It describes trends in application and experience in different contexts worldwide, providing in-depth coverage of the status of SEA systems, and practice in developed, transitional and developing countries by a range of development agencies. The book draws on a large body of published and unpublished material, and contributions from a wide range of individual experts, organizations and agencies. It provides an unparalleled and invaluable understanding of the emerging scope and potential of SEA and describes how, when and where it is being used. The sourcebook includes a probing review of concepts, terminology, approaches and tools of SEA, and a comparative analysis of the different types of existing SEA systems. The volume also contains many case examples illustrating SEA practice in different countries and contexts, a full set of references and a number of appendices containing source materials.

**Regional Development Agencies** Nicola Bellini, Mike Danson, Henrik Halkier, 2012 Across Europe, regional development agencies (RDAs) have become a central feature of regional policy, both as innovative policy-makers and as the implementers of programmes and initiatives originating from the national or European level. Since the first generation of RDAs were established in the 1970s and 1980s, major changes have swept through the policy arena: - globalisation has increased competitive pressure and moved the position of regions in the international division of labour to the forefront of regional strategy-making - the digital revolution and the EU Lisbon agenda have highlighted the importance of production and access to knowledge as key factors in regional competitiveness - regional policy has become part of a wider system of multi-level governance so that their geographical horizon has expanded in terms of sponsors and collaborators - issues of governance and accountability of RDAs have been one of the drivers to devolution of powers to governments and bodies below the level of the nation state, raising questions over their status and distance from political control. The aim of this book is to develop a profile of the next generation of RDAs that will identify key issues and trends regarding: policy aims, strategy-making and the new role of knowledge; the organisation of policy delivery, with emphasis on interactive knowledge brokerage; the organisational shift towards smaller and more flexible RDAs; and the political governance of regional policy. By drawing on a combination of conceptual reflection, surveys, comparative research, and systematic use of critical case studies, the book provides a new point of reference by identifying key features of the current, and, indeed next, generation of regionally-based economic development organisations--

*Strategic Environmental Assessment and Land Use Planning* Michael Short, Mark Baker, Jeremy Carter, Stephen Jay, Carys Jones, 2013-06-17 'A wonderfully international and up-to-date perspective on strategic environmental assessment of land use plans by leading experts in the field. Strategic Environmental Assessment and Land Use Planning covers not only how much such SEAs are carried out and in what context, but whether they are effective and why. It provides invaluable insights for practitioners and researchers in this rapidly evolving field' Riki Therivel, author of Strategic Environmental Assessment in Action Strategic Environmental Assessment and Land Use Planning provides an authoritative, international evaluation of the SEA of land use plans. The editors place the SEA of land use plans in context, and uniquely qualified contributors then evaluate systems in Canada, Denmark, Germany, Hong Kong, Hungary, Ireland, The Netherlands, New Zealand, Portugal, South Africa, Sweden, the United Kingdom, the United States and the World Bank. These chapters provide a description of the context in each country, a case study of the use of SEA in land use planning and an evaluation of each SEA system against a set of generic criteria specially designed to analyse different aspects of SEA. The contributors critically review each SEA system, SEA process and SEA outcome, and conclude by summarizing their findings. The editors draw the various national perspectives together in a final chapter and derive widely applicable conclusions about SEA and land use planning. This book is a core text for all students in environmental assessment, land use planning, environmental science, environmental management, development studies, geography, landscape design and law and engineering. It is also essential reading for all governments and environmental regulators, academics, researchers and environmental and planning consultants worldwide who are involved in SEA research, practice and training.

**Lunch with Lucy** Sherry Stewart Deutschmann, 2020-03-10 Transformational Leadership Through Empathy When entrepreneur Sherry Deutschmann first decided to start a business, she knew she wanted to build something totally different. In her first book, Lunch with Lucy, Sherry tells the story of the creation of that company, LetterLogic, and how she turned it into a \$40-million company by putting employees first—even ahead of customers and shareholders. Putting her people first took many forms, with an extremely generous profit sharing plan and fair living wages among them. But the centerpiece and heart of LetterLogic's culture was the employee-centric practice Sherry designed called "Lunch with Lucy"—a practice that removed the hierarchical dynamics found in most organizations. On any given Wednesday, any employee could invite "Lucy" (Sherry's midday moniker) out to lunch, at a place of their choice, with the bill picked up by Sherry. At these events, Sherry wasn't the CEO. She was "Lucy," a co-worker. By making herself 100% available, "Lucy" created a judgment-free environment where she could learn about a team member's dreams, ambitions, and challenges—and gain their insight into what she was doing right or wrong as a leader. She credits this approach with the success of her company. Lunch with Lucy's interior, refreshingly laid out like courses on a menu, invites us to see how a leader's choices directly impact employee morale, engagement, and commitment—and in this author's case, ultimately led to a healthy and hearty bottom line. Sherry's voice is new, and her honesty, humor, and humility shine through this story of a woman building a successful business through empathetic leadership and uncommon, commonsense business practices, one lunch at a time. Sit down at the table and learn about a business model that is truly transformational.

**The Upside** Adrian J. Slywotzky, Karl Weber, 2007-05-15 Today, when your fortunes can literally change overnight, the new strategic imperative is making your moment of maximum risk your moment of maximum opportunity. In *The Upside*, Adrian Slywotzky provides bold and original ideas for growth breakthroughs as well as the practical tools to use Monday morning, such as •How to change the odds for your next major initiative and create potential industry breakthroughs, as Toyota did with its expanding universe of Prius vehicles. •Shape and exploit risk, don't be shaped by it. Become a knowledge-intensive business and continually increase the knowledge gap between yourself and rivals, as Coach and Tsutaya of Japan have convincingly done. •A category killer can't kill what's not in its category. When basketball legend Bill Russell faced a taller, stronger Wilt Chamberlain, he led the Celtics to victory by inventing a different game. The same thinking lets Target prosper in a Wal-Mart world—and can help you outcompete the “unbeatable” rival in your own industry. •When you come to a fork in the road—take it! Only a fraction of companies survive when industries experience technological or strategic transitions. To be a survivor, learn the secret that enabled Microsoft to weather the advent of the Internet—the art of the double bet. •Stuck in a business box? Find the bigger box—and then the biggest. When growth stagnates, capture more of your customer's dollars through demand innovation and big-box thinking, as companies from Continental AG and Ikea to Procter & Gamble have done. •Your competitors can also be your greatest enablers of profit. Stop competing yourself to death! The key is knowing when to compete and when to collaborate, as Apple has shown with its revolutionary approach to the music business. In the 1980s conventional wisdom was that you could have high quality or low cost, but not both—until Japanese makers of cars and electronics showed otherwise. Now, high quality and low cost are required just to enter the marketplace. Today, we face a similar paradox when it comes to risk and reward. Rather than shrink from the high risk so integral to the tumultuous global economy, Adrian Slywotzky shows how it can be your greatest source of growth and future reward.

**Strategic Growth for Leaders** Deborah Froese, 2024-06-18

**The Infinite Game** Simon Sinek, 2019-10-15 From the New York Times bestselling author of *Start With Why* and *Leaders Eat Last*, a bold framework for leadership in today's ever-changing world. How do we win a game that has no end? Finite games, like football or chess, have known players, fixed rules and a clear endpoint. The winners and losers are easily identified. Infinite games, games with no finish line, like business or politics, or life itself, have players who come and go. The rules of an infinite game are changeable while infinite games have no defined endpoint. There are no winners or losers—only ahead and behind. The question is, how do we play to succeed in the game we're in? In this revelatory new book, Simon Sinek offers a framework for leading with an infinite mindset. On one hand, none of us can resist the fleeting thrills of a promotion earned or a tournament won, yet these rewards fade quickly. In pursuit of a Just Cause, we will commit to a vision of a future world so appealing that we will build it week after week, month after month, year after year. Although we do not know the exact form this world will take, working toward it gives our work and our life meaning. Leaders who embrace an infinite mindset build stronger, more innovative, more inspiring organizations. Ultimately, they are the ones who lead us into the future.

Dr. Fallon explores the impediments that keep leaders and individuals from changing the world, or even just changing themselves. She believes that science-based approaches and great vision, openness, and empathy allow us to move past the reactive responses that leave us stuck, unable to innovate and make change. *Goodbye, Status Quo* blends lessons from Dr. Fallon's own entrepreneurial experiences and scientific observations to give readers informative and actionable advice on the topics of entrepreneurship, innovation, and making change.

**Boom** Craig Hall,Linden Gross,2019-05-14 For decades, the United States has been experiencing a shocking decline in the number of new business startups...and it has gotten worse since the Great Recession. While new business formation in Silicon Valley, New York, and Boston is booming, entrepreneurship in most of the country—particularly rural regions—is declining. Things are even worse for women and people of color. This is of paramount importance to the United States because startups account for all new net job growth, champion innovation and strengthen our middle class. From the perspective of an entrepreneur with more than fifty years of experience in diverse industries—from software, to real estate, to winemaking—author Craig Hall provides his expert evaluation on the challenges facing entrepreneurs today. After careful analysis defining the current environment for startups, Hall optimistically concludes with specific strategies for go-getters to successfully bridge the opportunity gap. We can, and must, reverse these trends in order to level the playing field for entrepreneurs to safeguard the future of the American Dream.

**World Changers** John A. Byrne,2011-12-08 What if you could sit down with some of the world's most influential entrepreneurs and gain their knowledge and insights on how to create a game changing business? Imagine having the chance to listen to a John Mackey (Whole Foods) or a Fred Smith (FedEx) on the most important things they've learned from their experiences. Or having the benefit of the self-reflection of Howard Schultz of Starbucks, who had to come back to the company he originally built to reinvent it and himself? Of course it's not possible to deliver these rock star entrepreneurs to your dinner table. But John A. Byrne offers the next best thing: he spoke with many who have changed the face of business. In World Changers he captures the most important lessons they've learned, the biggest challenges they've tackled, and the most valuable advice they can offer others who have an entrepreneurial dream. You'll learn the inspiring stories of how these world changers discovered their disruptive ideas, then made them a reality; overcame a variety of obstacles; and created sustainable enterprises. You'll get the firsthand accounts of how: Bernie Marcus and Arthur Blank got the confidence to start The Home Depot after being fired from their jobs. Reed Hastings turned a forty-dollar video late fee into a disruptive upstart called Netflix. Herb Kohler, the reluctant prince of porcelain, came back to the family business and made it number one in its industry again. Narayana Murthy, after one fateful train ride and wrongful incarceration, converted from communist to capitalist and cofounded one of the most successful entrepreneurial ventures in India. World Changers is an inspiration for those who want to create something meaningful on their own. It serves as both a celebration of entrepreneurial achievement as well as a practical handbook for everyone who dreams of starting his or her own world-changing business.
