Anaphylaxis: The Essential Guide: An Action Plan For Living With Life-Threatening Allergies Ruth Holroyd,2022-01-05 Anaphylaxis has the potential to hijack your everyday life but it is possible to create a positive path forward. Anaphylaxis can be terrifying. It can make people severely ill and in rare cases it can be fatal. Symptoms can include difficulty breathing and swallowing, rashes, vomiting, collapse and loss of consciousness. Every person's allergic reaction is different and the symptoms can also be different depending on which allergen they come into contact with. They might only suffer a mild reaction at first, but the reactions may become severe over time. Ruth Holroyd, who is severely allergic to nuts, dairy and other foods, has a lifetime of experience of anaphylaxis. Through research and her first-hand experience she has compiled a self-help guide for people living with the condition, their family and their friends. In *Anaphylaxis: The Essential Guide*, you will discover information, help and support to face this frightening condition with confidence. Ruth shows you how to: Get a diagnosis swiftly and how to come to terms with it Recognise the other factors that can affect the severity of a reaction, including exercise and medication Put together an Anaphylaxis Action Plan with day-to-day tips and strategies for staying safe at home and at work, eating out, holidays and dating Assess possible treatments, therapies and resources Cope with the psychological impact of living with anaphylaxis and severe allergies Take action when you're feeling depressed or anxious, or experiencing panic attacks Create a positive and resilient mindset, and reframe the condition to feel less excluded and more in control

Good Strategy Bad Strategy Richard Rumelt,2011-07-19 *Good Strategy/Bad Strategy* clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action-oriented strategy for the real world. Developing and implementing a strategy is the central task of a leader. A good strategy is a specific and coherent response to—and approach for—overcoming the obstacles to progress. A good strategy works by harnessing and applying power where it will have the greatest effect. Yet, Rumelt shows that there has been a growing and unfortunate tendency to equate Mom-and-apple-pie values, fluffy packages of buzzwords, motivational slogans, and financial goals with “strategy.” In *Good Strategy/Bad Strategy*, he debunks these elements of “bad strategy” and awakens an understanding of the power of a “good strategy.” He introduces nine sources of power—ranging from using leverage to effectively focusing on growth—that are eye-opening yet pragmatic tools that can easily be put to work on Monday morning, and uses fascinating examples from business, nonprofit, and military affairs to bring its original and pragmatic ideas to life. The detailed examples range from Apple to General Motors, from the two Iraq wars to Afghanistan, from a small local market to Wal-Mart, from Nvidia to Silicon Graphics, from the Getty Trust to the Los Angeles Unified School District, from Cisco Systems to Paccar, and from Global Crossing to the 2007–08 financial crisis. Reflecting an astonishing grasp and integration of economics, finance, technology, history, and the brilliance and foibles of the human character, *Good Strategy/Bad Strategy* stems from Rumelt’s decades of digging beyond the superficial to address hard questions with honesty and integrity.

Training Manual for Organic Agriculture I. Gomez,L. Thivant,2017-09-01 The production of this manual is a joint activity between the Climate, Energy and Tenure Division (NRC) and the Technologies and practices for smallholder farmers (TECA) Team from the Research and Extension Division (DDNR) of FAO Headquarters in Rome, Italy. The realization of this manual has been possible thanks to the hard review, compilation and edition work of Nadia Scialabba, Natural Resources officer (NRC) and Ilka Gomez and Lisa Thivant, members of the TECA Team. Special thanks are due to the International Federation of Organic Agriculture Movements (IFOAM), the Research Institute of Organic Agriculture (FiBL) and the International Institute for Rural Reconstruction (IIRR) for their valuable documents and publications on organic farming for smallholder farmers.

The Effortless Experience Matthew Dixon,Nick Toman,Rick DeLisi,2013-09-12 Everyone knows that the best way to create customer loyalty is with service so good, so over the top, that it surprises and delights. But what if everyone is wrong? In their acclaimed bestseller *The Challenger Sale*, Matthew Dixon and his colleagues at CEB busted many longstanding myths about sales. Now they’ve turned their research and analysis to a new vital business subject—customer loyalty—with a new book that turns the conventional wisdom on its head. The idea that companies must delight customers by exceeding service expectations is so entrenched that managers rarely even question it. They devote untold time, energy, and resources to trying to dazzle people and inspire their undying loyalty. Yet CEB’s careful research over five years and tens of thousands of respondents proves that the “dazzle factor” is wildly overrated—it simply doesn’t predict repeat sales, share of wallet, or positive word-of-mouth. The reality: Loyalty is driven by how well a company delivers on its basic promises and solves day-to-day problems, not on how spectacular its service experience might be. Most customers don’t want to be “wowed”; they want an effortless experience. And they are far more likely to punish you for bad service than to reward you for good service. If you put on your customer hat rather than your manager or marketer hat, this makes a lot of sense. What do you really want from your cable company, a free month of HBO when it screws up or a fast, painless restoration of your connection? What about your bank—do you want free cookies and a cheerful smile, even a personal relationship with your teller? Or just a quick in-and-out transaction and an easy way to get a refund when it accidentally overcharges on fees? *The Effortless Experience* takes readers on a fascinating journey deep inside the customer

experience to reveal what really makes customers loyal—and disloyal. The authors lay out the four key pillars of a low-effort customer experience, along the way delivering robust data, shocking insights and profiles of companies that are already using the principles revealed by CEB's research, with great results. And they include many tools and templates you can start applying right away to improve service, reduce costs, decrease customer churn, and ultimately generate the elusive loyalty that the "dazzle factor" fails to deliver. The rewards are there for the taking, and the pathway to achieving them is now clearly marked.

You Are Awesome Neil Pasricha, 2019-11-05 #1 international bestseller Publishers Weekly bestseller The Globe and Mail (Toronto) The Toronto Star bestseller The Vancouver Sun bestseller From Neil Pasricha—New York Times, million-copy bestselling author of The Book of Awesome series and The Happiness Equation, thought leader for the next generation, and one of the most popular TED speakers in the world—comes a revelatory and inspiring book that will change the way we view failure and help us build resilience. We are lucky. For most of us, famine, plague, economic depression, and other life-threatening catastrophes are the stuff of history books. We're living in an era with the highest-ever rates of longevity, education, and wealth. Cars drive us home as our phones entertain us before we arrive to food delivered to the front door. We have it all! But there's just one side effect. We no longer have the tools to handle failure...or even perceived failure. When we fall, we lie on the sidewalk crying. When we spill, we splatter. When we crack, we shatter. We are turning into an army of porcelain dolls. A rude email from the boss means calling in sick. Only two likes on our post means we don't have friends. Cell phones show us we're never good enough. Yesterday's butterflies are tomorrow's panic attacks. Record numbers of students have clinical anxiety. And what about depression, loneliness, and suicide? All rising! What do we desperately need to learn? RESILIENCE. And we need to learn it fast. Read You Are Awesome to learn: • The single word that keeps your options open after failure • What every commencement speech gets wrong • 3 ways to dramatically accelerate your ability to learn and adapt • The 2-minute morning practice that helps eliminate worry • Why you need an Untouchable Day (and how to get one) • and much, much more... Because the truth is, you really are awesome.

The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Sustainable Market Farming Pam Dawling, 2013-02-01 Growing for 100 - the complete year-round guide for the small-scale market grower. Across North America, an agricultural renaissance is unfolding. A growing number of market gardeners are emerging to feed our appetite for organic, regional produce. But most of the available resources on food production are aimed at the backyard or hobby gardener who wants to supplement their family's diet with a few homegrown fruits and vegetables. Targeted at serious growers in every climate zone, *Sustainable Market Farming* is a comprehensive manual for small-scale farmers raising organic crops sustainably on a few acres. Informed by the author's extensive experience growing a wide variety of fresh, organic vegetables and fruit to feed the approximately one hundred members of Twin Oaks Community in central Virginia, this practical guide provides: Detailed profiles of a full range of crops, addressing sowing, cultivation, rotation, succession, common pests and diseases, and harvest and storage Information about new, efficient techniques, season extension, and disease resistant varieties Farm-specific business skills to help ensure a successful, profitable enterprise Whether you are a beginning market grower or an established enterprise seeking to improve your skills, *Sustainable Market Farming* is an invaluable resource and a timely book for the maturing local agriculture movement.

Dark Ecology Timothy Morton, 2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.
