The Hidden Wealth of Cities Jon Kher Kaw, Hyunji Lee, Sameh Wahba, 2020-02-13 In every city, the urban spaces that form the public realm—ranging from city streets, neighborhood squares, and parks to public facilities such as libraries and markets—account for about one-third of the city’s total land area, on average. Despite this significance, the potential for these public-space assets—typically owned and managed by local governments—to transform urban life and city functioning is often overlooked for many reasons: other pressing city priorities arising from rapid urbanization, poor urban planning, and financial constraints. The resulting degradation of public spaces into congested, vehicle-centric, and polluted places often becomes a liability, creating a downward spiral that leads to a continuous drain on public resources and exacerbating various city problems. In contrast, the cities that invest in the creation of human-centered, environmentally sustainable, economically vibrant, and socially inclusive places—in partnership with government entities, communities, and other private stakeholders—perform better. They implement smart and sustainable strategies across their public space asset life cycles to yield returns on investment far exceeding monetary costs, ultimately enhancing city livability, resilience, and competitiveness. *The Hidden Wealth of Cities: Creating, Financing, and Managing Public Spaces* discusses the complexities that surround the creation and management of successful public spaces and draws on the analyses and experiences from city case studies from around the globe. This book identifies—through the lens of asset management—a rich palette of creative and innovative strategies that every city can undertake to plan, finance, and manage both government-owned and privately owned public spaces.

Divercities Oosterlynck, Stijn, Verschraegen, Gert, 2020-01-15 How do people deal with diversity in deprived and mixed urban neighbourhoods? This edited collection provides a comparative international perspective on superdiversity in cities, with explicit attention given to social inequality and social exclusion on a neighbourhood level. Although public discourses on urban diversity are often negative, this book focuses on how residents actively and creatively come and live together through micro-level interactions. By deliberately taking an international perspective on the daily lives of residents, the book uncovers the ways in which national and local contexts shape living in diversity. The book will be a valuable resource for researchers and students of poverty, segregation and social mix, conviviality, the effects of international migration, urban and neighbourhood policies and governance, multiculturalism, social networks, social cohesion, social mobility, and super-diversity.

Upon a Sleepless Isle Andrew Fidel Fernando, 2019-06-27 Dense Green forests in Yala, white-sand coasts in Trincomalee, azure waters off the South Coast, Anuradhapura's ancient temples, and cricket. Civil war, political assassinations, internally displaced communities, industrial-scale corruption. All are Sri Lanka. As are smug bureaucrats, nosy neighbours, and stray dogs with serious axes to grind. Through the eyes of Andrew Fidel Fernando, cricket writer par excellence, both a local and a tourist in his home country, Sri Lanka comes alive as he hurtles down hills in Kandy, breathes in the history at the rock fortress of Sigiriya, grapples with the aftermath of war in Jaffna, and has himself evicted from restaurants near Galle. Weaving through all manner of villages, paddy fields, mountains, jungles and marshlands, and pausing for the pests at grimy guesthouses and the vacationers of luxury hotels, Fernando has the time for every genre of

person and wildlife in this chaotic, exquisite, frustrating, bewitching, tumultuous and intoxicating land. Hilariously witty yet wistfully sombre, *Upon a Sleepless Isle* is the story of a country and a people caught between long historical traditions and global capitalism, resulting in this ingenious paradise.

Evocative Objects Sherry Turkle, 2011-09-30 Autobiographical essays, framed by two interpretive essays by the editor, describe the power of an object to evoke emotion and provoke thought: reflections on a cello, a laptop computer, a 1964 Ford Falcon, an apple, a mummy in a museum, and other things-to-think-with. For Sherry Turkle, We think with the objects we love; we love the objects we think with. In *Evocative Objects*, Turkle collects writings by scientists, humanists, artists, and designers that trace the power of everyday things. These essays reveal objects as emotional and intellectual companions that anchor memory, sustain relationships, and provoke new ideas. These days, scholars show new interest in the importance of the concrete. This volume's special contribution is its focus on everyday riches: the simplest of objects—an apple, a datebook, a laptop computer—are shown to bring philosophy down to earth. The poet contends, No ideas but in things. The notion of evocative objects goes further: objects carry both ideas and passions. In our relations to things, thought and feeling are inseparable. Whether it's a student's beloved 1964 Ford Falcon (left behind for a station wagon and motherhood), or a cello that inspires a meditation on fatherhood, the intimate objects in this collection are used to reflect on larger themes—the role of objects in design and play, discipline and desire, history and exchange, mourning and memory, transition and passage, meditation and new vision. In the interest of enriching these connections, Turkle pairs each

autobiographical essay with a text from philosophy, history, literature, or theory, creating juxtapositions at once playful and profound. So we have Howard Gardner's keyboards and Lev Vygotsky's hobbyhorses; William Mitchell's Melbourne train and Roland Barthes' pleasures of text; Joseph Cevetello's glucometer and Donna Haraway's cyborgs. Each essay is framed by images that are themselves evocative. Essays by Turkle begin and end the collection, inviting us to look more closely at the everyday objects of our lives, the familiar objects that drive our routines, hold our affections, and open out our world in unexpected ways.

Jesus at the Door Scott McNamara,2020-09-29 As many as 96% of Christians are not leading anyone to Jesus. Which means that the vast majority of the wider church is, at best, simply sowing. The kingdom of God, however, requires both sowing and reaping. If we neglect reaping, we will not have a healthy harvest. Jesus at the Door offers a unique tool--an Equipping Card to use with anyone you know, anywhere--and practical, step-by-step instructions, helping readers witness to friends, family, even strangers on the street. This tried-and-tested method is framed around nine points and a picture, and takes about two minutes from introduction to salvation.

13 Things Mentally Strong People Don't Do Amy Morin,2014-12-23 Kick bad mental habits and toughen yourself up.—Inc. Master your mental strength—revolutionary new strategies that work for everyone from homemakers to soldiers and teachers to CEOs. Everyone knows that regular exercise and weight training lead to physical strength. But how do we strengthen ourselves mentally for the truly tough times? And what should we do when we face these challenges? Or as psychotherapist Amy Morin asks, what should we avoid when we encounter adversity? Through her years counseling others and her own experiences navigating personal loss, Morin realized it is often the habits we cannot break that are holding us back from true success and happiness. Indulging in self-pity, agonizing over things beyond our control, obsessing over past events, resenting the achievements of others, or expecting immediate positive results holds us back. This list of things mentally strong people don't do resonated so much with readers

that when it was picked up by Forbes.com it received ten million views. Now, for the first time, Morin expands upon the thirteen things from her viral post and shares her tried-and-true practices for increasing mental strength. Morin writes with searing honesty, incorporating anecdotes from her work as a college psychology instructor and psychotherapist as well as personal stories about how she bolstered her own mental strength when tragedy threatened to consume her. Increasing your mental strength can change your entire attitude. It takes practice and hard work, but with Morin's specific tips, exercises, and troubleshooting advice, it is possible to not only fortify your mental muscle but also drastically improve the quality of your life.

Chats with the Dead Shehan Karunatilaka, 2020-02-10 Who is Malinda Albert Kabalana? How did he die? Renegade war photographer Maali Almeida has to solve his own murder. Does that sound fun? It would be if there wasn't so much bloody red-tape to get through. Oh and it's not as though anyone alive actually seems to miss him, and it certainly doesn't help that his girlfriend is related to his boyfriend. Worst of all, it's all those goddamn memories of war, constantly interrupted by the overly chatty dead folks breezing through the afterlife. Besides, he's so busy solving his ethical dilemmas that there's barely any time to solve a murder-even if it's his own. A compulsively readable dark comedy of life-death and everything in between-**Chats with the Dead** searingly exposes the plight of a country caught in the aftermath of civil war. Its deliciously compelling absurdity holds you in thrall right from the very first page up to its startling denouement, constantly upending its own premise with its staggering humanity. Shehan Karunatilaka has delivered a classic whodunit with a brilliant twist.
