**The Rise of the Early Christian Intellectual** Lewis Ayres,H. Clifton Ward,2020-05-05 The study of the growth of early Christian intellectual life is of perennial interest to scholars. This volume advances discussion by exploring ways in which Christian writers in the second century did not so much draw on Hellenistic intellectual traditions and models, as they were inevitably embedded in those traditions. The volume contains papers from a seminar in Rome in 2016 that explored the nature and activity of the emergent Christian intellectual between the late first century and the early third century. The papers show that Hellenistic scholarly cultures were the milieu within which Christian modes of thinking developed. At the same time the essays show how Christian thinkers made use of the cultures of which they were part in distinctive ways, adapting existing traditions because of Christian beliefs and needs. The figures studied include Papias from the early part of the second-century, Tatian, Irenaeus, and Clement of Alexandria from the later second century. One paper on Eusebius of Caesarea explores the Christian adaptation of Hellenistic scholarly methods of commentary. Christian figures are studied in the light of debates within Classics and Jewish studies.

Strom Thurmond's America Joseph Crespino,2012-09-04 Do not forget that ‘skill and integrity’ are the keys to success. This was the last piece of advice on a list Will Thurmond gave his son Strom in 1923. The younger Thurmond would keep the words in mind throughout his long and colorful career as one of the South's last race-baiting demagogues and as a national power broker who, along with Barry Goldwater and Ronald Reagan, was a major figure in modern conservative politics. But as the historian Joseph Crespino demonstrates in *Strom Thurmond's America*, the late South Carolina senator followed only part of his father's counsel. Political skill was the key to Thurmond's many successes; a consummate opportunist, he had less use for integrity. He was a thoroughgoing racist—he is best remembered today for his twenty-four-hour filibuster in opposition to the Civil Rights Act of 1957—but he fathered an illegitimate black daughter whose existence he did not publicly acknowledge during his lifetime. A onetime Democrat and labor supporter, he switched parties in 1964 and helped to dismantle New Deal protections for working Americans. If Thurmond was a great hypocrite, though, he was also an innovator who saw the future of conservative politics before just about anyone else. As early as the 1950s, he began to forge alliances with Christian Right activists, and he eagerly took up the causes of big business, military spending, and anticommunism. Crespino's adroit, lucid portrait reveals that Thurmond was, in fact, both a segregationist and a Sunbelt conservative. The implications of this insight are vast. Thurmond was not a curiosity from a bygone era, but rather one of the first conservative Republicans we would recognize as such today. *Strom Thurmond's America* is about how he made his brand of politics central to American life.
