Don't Cross Your Eyes...They'll Get Stuck That Way! Dr. Aaron E. Carroll, MD, MS, Dr. Rachel C. Vreeman, MD, 2011-07-05 The ultimate myth-busting collection of quirky and curious facts about your body and health In 2009, Drs. Aaron E. Carroll and Rachel C. Vreeman explored a wide range of myths and misconceptions about our bodies and health in the media sensation, *Don't Swallow Your Gum!*, featured on The Dr. Oz Show, CNN, and in The New York Times, USA Today, and more. Now, they're delving into a whole new collection of myths based on the latest scientific research, including: • Eggs give you high cholesterol. • You should stretch before you exercise. • Kids in day care catch more colds. • Sit-ups or crunches will flatten your stomach. • A glass of warm milk will put you to sleep. With a perfect balance of authoritative research and breezy humor, *Don't Cross Your Eyes . . . They'll Get Stuck That Way!* exposes the truth behind all of the things you thought you knew about your health, your well-being, and how the body works.

Stuck Heidi J. Larson, 2020-07-01 Vaccine reluctance and refusal are no longer limited to the margins of society. Debates around vaccines' necessity -- along with questions around their side effects -- have gone mainstream, blending with geopolitical conflicts, political campaigns, celebrity causes, and natural lifestyles to win a growing number of hearts and minds. Today's anti-vaccine positions find audiences where they've never existed previously. *Stuck* examines how the issues surrounding vaccine hesitancy are, more than anything, about people feeling left out of the conversation. A new dialogue is long overdue, one that addresses the many types of vaccine hesitancy and the social factors that perpetuate them. To do this, *Stuck* provides a clear-eyed examination of the social vectors that transmit vaccine rumors, their manifestations around the globe, and how these individual threads are all connected.

*All You Need Is a Pencil: The Stuck in a Car, Plane, or Train Activity Book* Joe

Rhatigan, 2014-04-08 Vacation--no homework, no school, and no more teacher's dirty looks!

Unfortunately, it usually begins with the family sitting around somewhere or stuck in a plane, train, or car. BOR-IIIING! Fortunately, with these quizzes, puzzles, games, and doodles, the fun doesn't have to wait, even if you do. And you can do them anywhere—no electricity needed—with just a pencil. Fill in travel quotes, writing in the name of anyone who says one of the phrases on the page—like I have to go to the bathroom or I think we're lost. Play gomoku, a two-person game that's similar to tic-tac-toe. Plan the ultimate vacation—a week anywhere in the world. Draw creepy critters, try tongue-tripping-twisters, and unscramble anagrams. It's all so entertaining that no one will ask the dreaded question: Are we there yet?

**Hardware: how to Buy it for Foreign Markets. [With Illustrations.]** John Wilson Browne, 1877

Stuck Moving Peter Benson, 2023 AUTHOR'S NOTE: This book is unconventional. A self-conscious experiment in form that draws together two vernaculars: anthropological thought and the pop culture of my youth. It is a fraught exercise. I write as a White guy about angst and alienation in the privileged spaces of anthropology and higher education. I appreciate the irony. I hope nonetheless that my experiences with and critical perspectives on social conventions, the culture of liberalism, and ableism in academia might be useful. I seek to expand possibilities of anthropological representation while challenging epistemological, aesthetic, and professional norms in my discipline. It bothers me that anthropology can be so sanctimonious. I take aim at the ableist conceit that anthropologists are non-characters studying a messy world. Much of my life has been a mess. My

work has been undertaken amid struggles with pregnancy loss, bipolar disorder, and drug addiction. I have deep regrets about my participation in an exploitative field. I have deep regrets about many things. I have hurt people and been hurt by people. I hope my stories and reflections add to what others have already written about a more open, honest, and self-deprecating anthropology--

**Stuck** Victoria Grady, Patrick McCreesh, 2022-02-28 Our work life is changing. Every day new companies, technologies, and ideas emerge that impact how, where, and most importantly, why we work. Despite this exciting evolution, people remain the heart of change. People are tricky. People don't seem to evolve as fast as global trends. People get Stuck. Teams have people moving at different speeds with different levels of adoption in our evolving workplace. Some evolve and some don't. Teams get Stuck. Leaders, managers, and teammates struggle with this resistance and get frustrated. Frustrated people impact the performance of every organization. Organizations get Stuck. Why? The answer is deeply human and biological, rooted in the way our brain interacts with everything in the world, even work. When people feel they are losing something, they react by getting Stuck. Stuck connects over 20 years of research on our brain's reaction to the evolving workplace with real stories of people journeying through the challenge of being Stuck. The organizations, leaders, and managers who understand these concepts will evolve with the future. Those organizations will understand LOSS as a tool to achieve business WINs. This book addresses a critical concept that closes a gap in other popular business publications. Many books tell leaders and managers the process of how to change their organizations. However, many of these books lack a key mechanism for understanding human interactions. The mechanism is a biological function developed through evolution called attachment - the human need to connect to different tangible and intangible objects for support. Attachment is the reason that people connect with leaders and

corporate culture, but also what creates a deep sense of loss during even the smallest changes. *Stuck* offers a complete understanding of attachment and how it impacts individuals, relationships, and organizations. The root of the challenge is the human need to connect to different tangible and intangible objects for support. The basis of the need for support is grounded in our need for attachment. Those who learn to understand loss through attachment behavior and the attachments of others will succeed. In addition, this book provides original data-based evidence from assessments conducted with nearly 20,000 respondents and original stories from the application of attachment concepts in more than 150 organizations across all sectors around the globe. It shines a light on attachment and use it as a lens to better understand our workplace. *Stuck* is not an academic study. It is a practical guide for leading the brain through change. For the first time, the authors tell stories that demonstrate their research and offer a roadmap for how to leverage attachment research to drive business success. *Stuck* provides not only the deep lessons from the authors' research, but clear steps for readers to use the lessons of attachment in their own work. In this way, the book serves as a guide to those leaders, managers, and employees who are ready to be unStuck.

**Stuck** Margaret M. Chin, 2020-08-11 Winner, 2022 Max Weber Award for Distinguished Scholarship, given by the American Sociological Association's Section on Organizations, Occupations, and Work Winner, 2021 PROSE Award in the Business, Finance & Management

Category A behind-the-scenes examination of Asian Americans in the workplace In the classroom, Asian Americans, often singled out as so-called “model minorities,” are expected to be top of the class. Often they are, getting straight As and gaining admission to elite colleges and universities. But the corporate world is a different story. As Margaret M. Chin reveals in this important new book, many Asian Americans get stuck on the corporate ladder, never reaching the top. In *Stuck*, Chin shows that there is a “bamboo ceiling” in the workplace, describing a corporate world where racial and ethnic inequalities prevent upward mobility. Drawing on interviews with second-generation Asian Americans, she examines why they fail to advance as fast or as high as their colleagues, showing how they lose out on leadership positions, executive roles, and entry to the coveted boardroom suite over the course of their careers. An unfair lack of trust from their coworkers, absence of role models, sponsors and mentors, and for women, sexual harassment and prejudice especially born at the intersection of race and gender are only a few of the factors that hold Asian American professionals back. Ultimately, Chin sheds light on the experiences of Asian Americans in the workplace, providing insight into and a framework of who is and isn’t granted access into the upper echelons of American society, and why.

**Stuck in Place** Patrick Sharkey, 2013-05-15 In the 1960s, many believed that the civil rights movement's successes would foster a new era of racial equality in America. Four decades later, the degree of racial inequality has barely changed. To understand what went wrong, Patrick Sharkey argues that we have to understand what has happened to African American communities over the last several decades. In *Stuck in Place*, Sharkey describes how political decisions and social policies have led to severe disinvestment from black neighborhoods, persistent segregation, declining economic opportunities, and a growing link between African American communities and the criminal justice system. As a result, neighborhood inequality that existed in the 1970s has been passed down to the current generation of African Americans. Some of the most persistent forms of racial inequality, such as gaps in income and test scores, can only be explained by considering the

neighborhoods in which black and white families have lived over multiple generations. This multigenerational nature of neighborhood inequality also means that a new kind of urban policy is necessary for our nation's cities. Sharkey argues for urban policies that have the potential to create transformative and sustained changes in urban communities and the families that live within them, and he outlines a durable urban policy agenda to move in that direction.

Stuck in Neutral Cathie Jo Martin, 2000 According to conventional wisdom, big business wields enormous influence over America's political agenda and is responsible for the relatively limited scale of the country's social policies. In Stuck in Neutral, however, Cathie Jo Martin challenges that view, arguing that big business has limited involvement in social policy and in many instances desires broader social interventions. Combining hundreds of in-depth interviews with careful quantitative analysis, Martin shows that there is strong support among managers for government-sponsored

training, health, work, and family initiatives to enhance workers' skills and productivity. This support does not translate into political action, surprisingly, because big firms are not organized to intervene effectively. Every large company has its own staff to deal with government affairs, but overarching organizations for the most part lobby ineffectively for the collective interests of big business in the social realm. By contrast, small firms, which cannot afford to lobby the government directly, rely on representative associations to speak for them. The unified voice of small business comes through much more clearly in policy circles than the diverse messages presented by individual corporations, ensuring that the small-business agenda of limited social policy prevails. A vivid portrayal of the interplay between business and politics, *Stuck in Neutral* offers a fresh take on some of the most controversial issues of our day. It is a must read for anyone interested in the past, present, and future of the American welfare state and political economy.

**Stuck with Tourism** Matilde Córdoba Azcárate, 2020-10-20 Tourism has become one of the most powerful forces organizing the predatory geographies of late capitalism. It creates entangled futures of exploitation and dependence, extracting resources and labor, and eclipsing other ways of doing, living, and imagining life. And yet, tourism also creates jobs, encourages infrastructure development, and in many places inspires the only possibility of hope and well-being. *Stuck with Tourism* explores the ambivalent nature of tourism by drawing on ethnographic evidence from the Mexican Yucatán Peninsula, a region voraciously transformed by tourism development over the past forty years. Contrasting labor and lived experiences at the beach resorts of Cancún, protected natural enclaves along the Gulf coast, historical buildings of the colonial past, and maquilas for souvenir production in the Maya heartland, this book explores the moral, political, ecological, and everyday dilemmas that emerge when, as Yucatán's inhabitants put it, people get stuck in tourism's

grip.
