National Geographic Stunning Photographs Annie Griffiths, 2014 Capturing the moment in which a firecracker explodes into a burst of electric energy or the last rays of the sun as it stretches across a red-rock valley, certain special photos offer an unrivalled conduit to the world around us.

Pilgrim at Tinker Creek Annie Dillard, 2009-10-13 Winner of the Pulitzer Prize “The book is a form of meditation, written with headlong urgency, about seeing. . . . There is an ambition about her book that I like. . . . It is the ambition to feel.” — Eudora Welty, New York Times Book Review *Pilgrim at Tinker Creek* is the story of a dramatic year in Virginia's Roanoke Valley, where Annie Dillard set out to chronicle incidents of beauty tangled in a rapture with violence. Dillard's personal narrative highlights one year's exploration on foot in the Virginia region through which Tinker Creek runs. In the summer, she stalks muskrats in the creek and contemplates wave mechanics; in the fall, she watches a monarch butterfly migration and dreams of Arctic caribou. She tries to con a coot; she collects pond water and examines it under a microscope. She unties a snake skin, witnesses a flood, and plays King of the Meadow with a field of grasshoppers. The result is an exhilarating tale of nature and its seasons.

Shift Jeremiah Desmarais, 2017-06-09 Insurance agents and financial advisors are being taught outdated marketing and sales strategies to grow their businesses. Cold calling, seminars, online leads, networking groups and display ads are showing less returns. At the same time, according to Google, every 5 seconds someone is searching for a financial or insurance product to meet their needs, yet most agents are unaware of how to reach this growing market. Shift is a compilation of exclusive, rarely-before-seen techniques, strategies and best practices used right now to increase sales exponentially using digital marketing. These are not taught in magazines, books or courses today simply because most people won't share them. Jeremiah has used these concepts to train over 100,000 agents in over 51 countries including the US, Canada, Japan, Switzerland, the Caribbean and South Africa. Using his years of success stories and behind-the-scenes access to the frontlines of what's working now, Jeremiah has been part of teams that have generated over two million leads in the insurance space, leading to over \$300,000,000 in commissions paid out. He has documented the most inspiring, entertaining and duplicatable techniques his teams and front line advisors are using TODAY to SHIFT industry thinking to solve these problems.

The Art of Steampunk Art Donovan, 2011-08-01 As presented by Oxford University's Museum of the History of Science, Steampunk is rooted in the aesthetics of Victorian technology. Yet it is not a

nostalgic recreation of a vanished past: its devices are both imaginative and contemporary. The Steampunk exhibition, curated by Art Donovan, revealed the many possible responses to Steampunk's characteristics preoccupation with the historical and the contemporary, the mechanical and the fanciful. In imagining a Victorian future that has not come to pass, Steampunk artists cast an oblique light on the present. But their unrealized futures are more celebration than commentary. Steampunk revels in the ingenuity and absurdity of the mechanisms produced and the unqualified pleasure in creation. It is only fitting that the world's first museum exhibition of genuine Steampunk art premiered at the Oxford University Museum of the History of Science, which houses the world's greatest collection of important scientific artifacts and devices. The popular Steampunk exhibition ran from October 2009 to February 2010, featured the work of 18 international Steampunk artists, and drew more than 70,000 visitors to the museum.
