collectively projects an appearance, a national style. Such styles are made of many layers. The deepest layer is composed of the immutable and the traditional. Nearer the surface floats fashion, changeable but sometimes more abiding. And frothing on the surface is fad. By definition a fad is novel and appears from outside. Fads must have instant appeal and do not have a long shelf life. In Japan, an assortment of islands, the outside is often the quality that defines the inside. Japan has a history of chasing fads and fashion. Since the 19th century, foreign products have been welcomed in, from the cult for squeaky shoes in the mid-19th century to the current fad for virtual reality girlfriends. Japan's mandate was that, having been opened late, it had to hurry to catch up. Fads provide both a social distraction and a sense of cohesion, indicating not only foreign importation but also native adaptation. The Image Factory is both an investigation into fads, fashions and style such as US Army surplus uniforms, pachinko, mutating hair colors and an appreciation of their inherent meanings. The Japanese have seized upon fads and fashion as an arm of enterprise to a much greater extent than elsewhere in the world. Ephemerality has been put to work, the transient has become industrialized, and the results are highly conspicuous.

The book covers a range of subcultures including Lolita, Gyaruru, Agejo and Mori Girl.

The Cutting Edge Louise Mitchell,2005 The story of Japanese fashion is both brief and extraordinary and has challenged Western notions of fashion and aesthetics. This title examines this story through the work of 19 designers, some well known and others who are little known outside of Japanese fashion and art circles.

Fresh Fruits ,2005-06 Presented in an identical format to Phaidon's previous Fruits, published in 2001, Fruits Too is a collection of Tokyo teenage street fashion portraits selected from Japan's premier street fanzine of the same title. Published every month by Shoichi Aoki, who is also the sole photographer for the magazine, Fruits was established in 1994 as a project to document the growing explosion in street fashion within the suburbs of Tokyo. Over the last decade the magazine has grown to cult status and is now avidly followed by thousands of Japanese teenagers who also use the magazine as an opportunity to check out the latest styles and trends. The average age of those kids featured in the magazine is between 12 and 18 years old. Most of the clothes that they wear are a combination of high fashion - Vivienne Westwood is a keen favourite - and homemade ensembles which when combined together create a novel if not hysterical combination. This latest publication of the best of Fruits will follow the original Phaidon publication by including translations of the various Japanese captions that were originally attached to the photographs that list the name, age and clothing of each person photographed.

Japanese Street Style Pat Lyttle,2012-04-10 Japanese Street Style by Pat Lyttle is the first book to showcase innovative and cutting-edge fashions from Tokyo, one of the strongest and fastest-growing style capitals in the world. Tapping into Japan's rich culture, its fashion scene is an exciting blend of traditional dress and innovative modernity. The book features stunning one-of-a-kind photographs of all the major fashion tribes, from Gothic Lolita and Harajuku to Dolly Kei, Ganguro, and Kigurumi to the popularity of the furry tail. Inspiring and thought-provoking, Japanese Street Style provides an unprecedented look at an enormously influential current trend in the fashion world—Galliano, Dior, Vivienne Westwood, Paul Smith, and Alexander McQueen have all looked to Tokyo for inspiration from its rich visual culture, fine textiles, and craftsmanship techniques. This first-look guide to contemporary Japanese fashion is a must-read for anyone interested in fashion, trends, and culture.
