Genre in a Changing World Charles Bazerman, Adair Bonini, 2009-09-16 Genre studies and genre approaches to literacy instruction continue to develop in many regions and from a widening variety of approaches. Genre has provided a key to understanding the varying literacy cultures of regions, disciplines, professions, and educational settings. *GENRE IN A CHANGING WORLD* provides a wide-ranging sampler of the remarkable variety of current work. The twenty-four chapters in this volume, reflecting the work of scholars in Europe, Australasia, and North and South America, were selected from the over 400 presentations at SIGET IV (the Fourth International Symposium on Genre Studies) held on the campus of UNISUL in Tubarão, Santa Catarina, Brazil in August 2007—the largest gathering on genre to that date. The chapters also represent a wide variety of approaches, including rhetoric, Systemic Functional Linguistics, media and critical cultural studies, sociology, phenomenology, enunciation theory, the Geneva school of educational sequences, cognitive psychology, relevance theory, sociocultural psychology, activity theory, Gestalt psychology, and schema theory. Sections are devoted to theoretical issues, studies of genres in the professions, studies of genre and media, teaching and learning genre, and writing across the curriculum. The broad selection of material in this volume displays the full range of contemporary genre studies and sets the ground for a next generation of work.

Wiring The Writing Center Eric Hobson, 1998-09 Published in 1998, *Wiring the Writing Center* was one of the first few books to address the theory and application of electronics in the college writing center. Two Sides of a Barricade Christian Scholl, 2012-01-01 *Two Sides of a Barricade* argues that to construct global democracy, conflict and dissent must be taken seriously. Christian Scholl explores the political significance of the confrontations within four sites of interaction: bodies, space, communication, and law. Each site of struggle provides a different entry point to understand the influence of protester and police tactics on each other. At the same time, the four sites of struggle allow a comprehensive analysis of how the contestation of global hegemonic forces during summit protests trigger a preemptive shift in social control through increased deployment of biopolitical forms of power.

Cinema of Confinement Thomas J. Connelly, 2019-02-15 In this book, Thomas J. Connelly draws on a number of key psychoanalytic concepts from the works of Jacques Lacan, Slavoj Žižek, Joan Copjec, Michel Chion, and Todd McGowan to identify and describe a genre of cinema characterized by spatial confinement. Examining classic films such as Alfred Hitchcock's *Rope* and Stanley Kubrick's *The Shining*, as well as current films such as *Room*, *Green Room*, and *10 Cloverfield Lane*, Connelly shows that the source of enjoyment of confined spaces lies in the viewer's relationship to excess. *Cinema of Confinement* offers rich insights into the appeal of constricted filmic spaces at a time when one can easily traverse spatial boundaries within the virtual reality of cyberspace.

Words in Revolution Anna M. Lawton, Herbert Eagle, 2005 In her extensive Introduction, Lawton has highlighted the historical development of the movement and has related futurism both to the Russian national scene and to avant-garde movements worldwide.

Idiomatic Creativity Andreas Langlotz, 2006-04-15 This book revisits the theoretical and psycholinguistic controversies centred around the intriguing nature of idioms and proposes a more systematic cognitive-linguistic model of their grammatical status and use. Whenever speakers vary idioms in actual discourse, they open a linguistic window into idiomatic creativity – the complex cognitive processing and representation of these heterogeneous linguistic constructions. Idiomatic creativity therefore raises two challenging questions: What are the cognitive mechanisms that underlie and shape idiom-representation? How do these mechanisms define the scope and limits of systematic idiom-variation in actual discourse? The book approaches these problems by means of a comprehensive cognitive-linguistic architecture of meaning and language and analyses them on the basis of corpus-data from the British National Corpus (BNC). Therefore, *Idiomatic Creativity* should be of great interest to cognitive linguists, phraseologists, corpus linguists, advanced students of linguistics, and all readers who are interested in the fascinating interplay of language and cognitive processing. Afrofuturism Ytasha L. Womack, 2013-10-01 2014 Locus Awards Finalist, Nonfiction Category In this hip, accessible primer to the music, literature, and art of Afrofuturism, author Ytasha Womack introduces readers to the burgeoning community of artists creating Afrofuturist works, the innovators from the past, and the wide range of subjects they explore. From the sci-fi literature of Samuel Delany, Octavia Butler, and N. K. Jemisin to the musical cosmos of Sun Ra, George Clinton, and the Black Eyed Peas' will.i.am, to the visual and multimedia artists inspired by African Dogon myths and Egyptian deities, the book's topics range from the alien experience of blacks in America to the wake up cry that peppers sci-fi literature, sermons, and activism. With a twofold aim to

entertain and enlighten, Afrofuturists strive to break down racial, ethnic, and social limitations to empower and free individuals to be themselves.

Anarchist Pedagogies Robert H. Haworth, 2012-08-01 Education is a challenging subject for anarchists. Many are critical about working within a state-run education system that is embedded in hierarchical, standardized, and authoritarian structures. Numerous individuals and collectives envision the creation of counterpublics or alternative educational sites as possible forms of resistance, while other anarchists see themselves as “saboteurs” within the public arena—believing that there is a need to contest dominant forms of power and educational practices from multiple fronts. Of course, if anarchists agree that there are no blueprints for education, the question remains, in what dynamic and creative ways can we construct nonhierarchical, anti-authoritarian, mutual, and voluntary educational spaces? Contributors to this edited volume engage readers in important and challenging issues in the area of anarchism and education. From Francisco Ferrer’s modern schools in Spain and the Work People’s College in the United States, to contemporary actions in developing “free skools” in the U.K. and Canada, to direct-action education such as learning to work as a “street medic” in the protests against neoliberalism, the contributors illustrate the importance of developing complex connections between educational theories and collective actions. Anarchists, activists, and critical educators should take these educational experiences seriously as they offer invaluable examples for potential teaching and learning environments outside of authoritarian and capitalist structures. Major themes in the volume include: learning from historical anarchist experiments in education, ways that contemporary anarchists create dynamic and situated learning spaces, and finally, critically reflecting on theoretical frameworks and educational practices. Contributors include: David Gabbard, Jeffery Shantz, Isabelle Fremeaux & John Jordan, Abraham P. DeLeon, Elsa Noterman, Andre Pusey, Matthew Weinstein, Alex Khasnabish, and many others.

Narrative Strategies in Television Series G. Allrath,M. Gymnich,2005-08-10 In the context of a systematic overview of the possibilities of applying narratological concepts to a study of TV series, ten case studies are explored in depth, demonstrating how series such as 24, Buffy, Twin Peaks, Star Trek, Blackadder, and Sex and the City make use of innovative audiovisual means of storytelling. Introducing Social Semiotics Theo Van Leeuwen,2005 Introducing Social Semiotics uses a wide variety of texts including photographs, adverts, magazine pages and film stills to explain how meaning is created through complex semiotic interactions. Practical exercises and examples as wide ranging as furniture arrangements in public places, advertising jingles, photojournalism and the rhythm of a rapper's speech provide readers with the knowledge and skills they need to be able to analyse and also produce successful multimodal texts and designs. The book traces the development of semiotic resources through particular channels such as the history of the Press and advertising; and explores how and why these resources change over time, for reasons such as advancing technology. Featuring a full glossary of terms, exercises, discussion points and suggestions for further reading, Introducing Social Semiotics makes concrete the complexities of meaning making and is essential reading for anyone interested in how communication works.

Cinephilia Marijke de Valck,Malte Hagener,2005 They obsess over the nuances of a Douglas Sirk or Ingmar Bergman film; they revel in books such as François Truffaut's Hitchcock; they happily subscribe to the Sundance Channel—they are the rare breed known as cinephiles. Though much has been made of the classic era of cinephilia from the 1950s to the 1970s, *Cinephilia* documents the latest generation of cinephiles and their use of new technologies. With the advent of home theaters, digital recording devices, online film communities, cinephiles today pursue their dedication to film outside of institutional settings. A radical new history of film culture, *Cinephilia* breaks new ground for students and scholars alike.

Doctor Faustus - Second Edition Christopher Marlowe,2007-02-12 Doctor Faustus is a classic; its imaginative boldness and vertiginous ironies have fascinated readers and playgoers alike. But the fact that this play exists in two early versions, printed in 1604 and 1616, has posed formidable problems for critics. How much of either version was written by Marlowe, and which is the more authentic? Is the play orthodox or radically interrogative? Michael Keefer's early work helped to establish the current consensus that the 1604 text was censored and revised; the Keefer edition, praised for its lucid introduction and scholarship, was the first to restore two displaced

scenes to their correct place. Most competing editions presume that the 1604 text was printed from authorial manuscript, and that the 1616 text is of little substantive value. But in 2006 Keefer's fresh analysis of the evidence showed that the 1604 quarto's Marlovian scenes were printed from a corrupted manuscript, and that the 1616 quarto (though indeed censored and revised) preserves some readings earlier than those of the 1604 text. This edition has been updated and revised. Keefer's critical introduction reconstructs the ideological contexts that shaped and deformed the play, and the text is accompanied by textual and explanatory notes and excerpts from sources.
