**The Entrepreneur's Secret to Creating Wealth** Chris Hurn, 2012 An often overlooked secret to creating wealth as a business owner has little to do with actually running the business. Marketing, customer service, quality products, and more are required to make a business successful...but when it comes to creating real and lasting wealth, decisions regarding this key secret will have the greatest impact. As both a small business lender and a small business owner himself, Chris Hurn has a bird's eye view of how businesses create wealth, as well as an in-the-trenches perspective on the tough decisions that must be made if a business is to go from good to great. In *The Entrepreneur's Secret to Creating Wealth*, Chris explains the myriad of factors and variables involved in this significant wealth-creation strategy. Plenty of books describe how entrepreneurs can create more ideas or have happier employees. But no other business book outlines in such detail -- or with such authority -- how to actually develop the wealth behind the business. **SPECIAL OFFER** When you buy two or more copies of this book (say, one for you and one you give to a friend), we'll donate the net proceeds of the sale to the National Federation of Independent Business (NFIB) Young Entrepreneur Foundation. **Wide 'N Deep #6** Ron G. Holland, 2015-02-03 Talk & Grow Rich has been helping to create millionaires since 1981. "I can categorically state that Ron Holland's book Talk & Grow Rich and his personal mentoring helped me tremendously. Ron held my hand until I got the first million in the bank and I am now a multi-millionaire with international homes around the world." - Andy Hunt, Clearsky Properties. Talk & Grow Rich will blow you away! This book was first published in 1981 and having passed the test of time, is now one of the greatest self-help classics of all time, selling all over the world in many different languages and formats. It was the first book to introduce Neuro Linguistic Programming (NLP), and the incredible works of Carlos Castaneda and meditation into the business and sales arena. Countless people claim they prefer Ron's book more than Napoleons Hill's incredible Think and Grow Rich, because it shows in great detail, in layman's terms, exactly what you have to do in order to make money and become wealthy. Think and Grow Rich and the Science of Getting Rich were written way back in the day, before they even discovered the brain had two separate hemispheres, that work in totally different ways in the way they process information. Talk & Grow Rich will show you how to cultivate peace of mind as well as how to sell anything to anyone. Its powerful techniques will teach you how to get people to lend you money, buy from you and also how to get into the other man's mind. It will show you how to develop a rapport with your prospect, at levels that have never been revealed before. It will show you how to generate wealth without capital, and why thinking may be the worst possible thing you can do. It will teach you how you can succeed even if you are shy, feel cumbersome about talking to people and feel like an absolute failure. You will discover how to tell what other people are thinking just by the position of their eyes and well as hundreds of ways of dealing with all the niggling and small things that stand between you and wealth. You will learn how to generate so many fool proof success ideas (Ron calls these Eureka's!) that you will need to carry pen and paper around to capture them. Once you have your million dollar idea, Ron will show you in great detail how to turn that idea in money. Talk & Grow Rich is so powerful you will want to read it over and over again until it becomes a very part of you. You will discover why the subconscious mind is literally the foundation of everything we do and why it doesn't matter if the prospect says, 'NO'. Ron G Holland has been written up as; 'Jedi Master of Wealth Creation', 'Leading Motivational Speaker', 'The Juggernaut', 'The Equalizer', 'Top Biz Guru', and the 'Entrepreneur's Entrepreneur'. Ron is one of the world's leading exponents on the subject of thinking and non-thinking and has given numerous business seminars and presentations and has been interviewed on TV, radio and press across four continents. Ron is a hired brain and a professional problem solver and has an enviable track record in helping create millionaires. There are many testimonials in the book from people he has helped achieve that status. In this revealing book, Ron introduces his incredible formula for solving problems and creating million dollar success ideas which he calls Silence, Stillness and Solitude (\$.\$.\$) and also talks about why in the East they say, 'By going out of our minds once a day - we come to our senses.' All his contact details are in the book and he will be pleased to hear from you. Ron works as a business mentor in all business sectors globally and he is actively seeking out those who want to become millionaires.

The 7 Immutable Laws of Fast Wealth Building: How to Get Rich with Speed by Applying the Laws of Fast Wealth Building and Its Principles to Your Life  
Omar Johnson, 2014-09-17 Many people aspire to build wealth but a great deal of them will fall short of this much desired goal. In most cases, it's not because of a lack of drive or ambition but simply because people lack the true knowledge of not only how to build wealth but how to build it fast. They are constantly bombarded by the senseless propaganda spread by the get rich slowly gurus who advocate that in order to build wealth you have to: Save money from a paycheck Pay yourself first Clip coupons Be frugal Live below your means Do what you love to do and the money will follow The shocking reality is that you can't build wealth this way because these tenets have absolutely nothing to do with wealth building. And if you believe that they do then you have been brainwashed to believe that income from a job equals wealth. It doesn't! You also have been brainwashed to believe that saving money from your paycheck and putting it into a bank that pays less than 1% interest and living below your means will allow you to create and build wealth. It won't! However, what will allow you to build wealth and allow you to build it fast is knowing and understanding the actual laws of wealth building and its associated principles then applying them. In his book entitled The 7 Immutable Laws of Fast Wealth Building author and serial entrepreneur Omar Johnson gives you the information that is necessary for you to put together your plan for wealth creation, wealth multiplication, and wealth preservation, the three cornerstones of fast wealth building.
