Career Movies Jack Boozer, 2010-01-01 Achieving the American Dream became inextricably linked with career/business success after World War II, as an increasingly consumerist America learned to define the dream through possessions and status. Not surprisingly, Hollywood films in the postwar years reflected the country's preoccupation with work and career success, offering both dramatic and comedic visions of the career quest and its effects on personal fulfillment, family relations, women's roles, and the creation (or destruction) of just and caring communities. In this book, Jack Boozer argues that the career/business film achieved such variety and prominence in the years between 1945 and 2001 that it should be considered a legitimate film genre. Analyzing numerous well-known films from the entire period, he defines the genre as one in which a protagonist strives for career success that often proves to be either elusive despite hard work, or unfulfilling despite material rewards and status. Boozer also explores several distinct subgenres of the career movie—the corporate executive films of the 1950s; the career struggles of (single, married, and/or parenting) women; the entrepreneurial film as it is also embodied in texts about immigrants and racial and ethnic minorities and business-oriented femmes fatales; the explosion of promotionalism and the corporatization of employment; and, finally, the blurring of work and private life in the brave new world of the televirtuality film.

Predicting Movie Success at the Box Office Barrie Gunter, 2018-02-20 This book explores the different factors that can influence a new movie's prospects at the box office. Looking at factors such as the production budget, distribution model, genre, stars and audience reactions of films, Gunter asks how such aspects may reduce the uncertainties of success so common in the movie industry. The reader is taken on a journey through filmmaking factors that, research suggests, impact box office performance. While box office revenues represent only part of a movie's earning potential, Gunter highlights how theatrical performances remain central to what the movie business is about. The chapters illustrate how ticket sales are largely influenced by the production budget but also cultural differences and new movie platforms.

Oscar Buzz and the Influence of Word of Mouth on Movie Success Owen Egan, 2020-03-27 This book explores why word of mouth is the most important determinant of a movie's success. Beginning with a discussion of the enduring appeal of movies, and why the box office has survived the disruption of television and will likely survive the disruption of streaming services, Owen Egan goes on to discuss the unpredictable nature of movies and ways to mitigate their risk. His astute analysis sheds light on the role of film festivals, film critics, Oscar campaigns, and word of mouth in influencing a film's success. Egan concludes with a summary of why word of mouth is the most influential among all the variables that affect a film's outcome. Expertly synthesizing quantitative analyses of box office data with illuminating insights from industry experts, this concise and engaging book presents findings with important implications for scholars, industry insiders and marketing professionals alike.

The American Success Myth on Film J. Levinson, 2012-05-15 In examining the enduring appeal that rags-to-riches stories exert on our collective imagination, this book highlights the central role that

films have played in the ongoing cultural discourse about success and work in America.

Sweet Smell of Success Ernest Lehman, 2000-03-31 The screenwriter behind *North by Northwest* and *Who's Afraid of Virginia Woolf?* skewers show business in these fifteen tales. In *Sweet Smell of Success*, the main novelette of this collection, Lehman scathingly depicts the dark side of success through the twisted relationship of Sid Wallace, an ambitious publicist, and Harvey Hunsucker, a powerful and vindictive gossip columnist, fashioned after Walter Winchell. As scandals are manufactured and reputations ruined for sport, the story spirals downward toward one last, savage act of revenge. As brutally honest as Nathanael West's *The Day of the Locust*, *Sweet Smell of Success* is one of the most enduring and provocative stories in the literature of show business. In *The Comedian*, one of America's most beloved funny men is about to become a television superstar, but a large banana peel awaits him. Meanwhile, the remaining stories dissect the entertainment industry in a way that only Lehman could do . . . Both *Sweet Smell of Success* and *The Comedian* were adapted for film. *Sweet Smell of Success* was a 1957 film starring Burt Lancaster and Tony Curtis, while *The Comedian* was a TV movie starring Mickey Rooney and Edmund O'Brien. "Sweet Smell of Success is a corrosive valentine to New York, embracing its energy and its clashing ambitions." —Sam Kashner, *Vanity Fair* "Siddown. Listen to these. They are not Lindy's cheesecake or long on kisses and schmaltz. But if you like prose pale as a shark's belly, they do just fine." —Kirkus Reviews

Movies and the Reagan Presidency Chris Jordan, 2003-06-30 The 1980s were unique in both American history and the history of American cinema. It was a time when a United States president—a former B-movie actor and Cold War industry activist—served as a catalyst for the coalescence of trends in Hollywood's political structure, mode of production, and film content. Ronald Reagan championed a success ethos that recognized economic and moral self-governance as the basis of a democratic society. His agenda of tax reform and industry deregulation simultaneously promoted the absorption of Hollywood's major studios into tightly diversified media conglomerates, and concentrations of ownership promoted the production and release of movies with maximum revenue potential. Indeed, the most commercially successful movies of the decade put forth the ideologies of WASP America, nuclear family self-sufficiency, and conspicuous consumption. Three

genres in particular—the biracial buddy movie, the MTV music-video movie, and the yuppie movie—provide case studies of how Reagan-era cinema addressed issues of race, gender, and class in ways very much in tune with Reaganomics and the President's cultural policies. Author Chris Jordan provides a complete overview of both the influence of Reagan's presidency on the film industry and on the films themselves. Exploring 80s genres and movies with both a sociocultural and aesthetic eye, this book will be invaluable to historians, cinema scholars, and film buffs.

Success in the Cinema MoneyMaking Movies John Howard Reid, 2006-06-01 Basically, there are three measures of success in the cinema. First off are pictures like *The Crowd* and *Applause* that achieve rave reviews and even go on to win awards, but don't recover their negative costs. Then there are the movies the critics hate, but the public enjoys. All three versions of *Back Street*, for instance. Finally come the pictures everyone loves, like *From Here To Eternity* or *Sunset Boulevard*. In the annals of success in Hollywood's Golden Age, one name stands out above all others: Cecil B. DeMille. His famous pictures reviewed here include both versions of *The Buccaneer*, *The Crusades*, *Sign of the Cross*, *The Story of Dr Wassell* and *Union Pacific*. But the book also notes a DeMille B movie that tied up a fair amount of money but proved so unpopular it was released in some territories as a support. The book also covers some of Hollywood's other disastrous failures, including the M-G-M movie that cost over \$4 million to make and returned virtually nothing.

The Reality Of Hollywood Benjamin Schnau, 2021-03-27 I want to share my story with you as I know that many people are out there who have the same dream and desire to become an established successful actor or actress in Hollywood. For all these people out there I want to make clear that this journey you might want to take by leaving your hometown, city, or even country won't be easy, even more challenging the longer you live here. This book is the reality of Hollywood, the truth of what I experienced, and most importantly a way of how you can go about it. For every person, the way might be different but the things I lived will happen to all of you in one way or another. This book is not written by someone who is just at the very top of the mountain looking down praising that working hard and being persistent gets you there. Although this book will take these attributes which are important but will break them down into single pieces of what needs to be done for a completely new person in Los Angeles starting from scratch and climbing up the ladder to get where they want to be. It doesn't matter where you are from, how you look, or what language you speak. I believe there is a place for everyone in Hollywood, you just have to play your cards right and be true to yourself at all times.

Business Lessons from the Movies: Movies: Forrest Gump, Pursuit of Happyness, Groundhog Day, Up in the Air, Jerry Maguire, the Walk, Money Ball. Shah Mohammed M, 2019-03-26 Forrest Gump movie states that a person's true potential is unknown. With years of passion, toil and training, we can grow our abilities and accomplish things which we would not have imagined. Chris Gardener in the movie 'Pursuit Of Happyness' shows that solving life's harder problems would need longer time than what most people would imagine. He shows how to be determined, consistently committed to our goals. He demonstrates how 'deliberate mindful effort' would take anyone higher up in life. One of the common factors for everyone's success is Presence of Other People. A self-centred person often fails to notice the presence of other people around him. Most of us are not aware of how we are self-centered at certain times. Phil Connors in the 'Groundhog Day' movie shows us how to avoid being self-centred. Be it your personal life, any profession, any business, Scientific research has shown that road to success or happiness is how you deal with other people. In the 'Groundhog Day' movie, Phil Connors teaches us valuable lessons on 'How To Influence People' for your own success. The 'Up In The Air' movie clearly states that without an in-depth understanding of users, it would be impossible to come out with a relevant and meaningful solution to the consumers. The movie also shows how we can easily prototype and test some of our ideas without spending much money and time. And the highlight of the movie is that it shows the secret to convince people and change their minds. 'Jerry Maguire' is about building personal relationships with your consumer by spending time with them, observing them, and understanding their hidden needs & desires. Our businesses would grow by helping, educating our consumers to help themselves. If you care about your people, they would care

about your product or service. One of the lessons from 'The Walk' movie is 'How to enjoy your work'. Pleasure is defined as a feeling of contentment or satisfaction in meeting the expectations we have in our mind. Enjoyment comes only when you go beyond set expectations. Philippe Petit, in the movie, shows us how to stretch our expectations every day so that we could sustain enjoyment in the work. Cognitive biases affect everything-It affects our life, interaction with others, our emotions, new ideas, new product development, customer service, acquisition, succession planning, hiring. These biases are hidden traps residing within us and we unknowingly, unconsciously fall into them. The 'Money ball' movie shows how we can overcome some of those traps.
