Modernizing VATs in Africa Sijbren Cnossen,2019-07-12 Most African countries are in dire need of more tax revenue. In 28 out of 45 countries with a value-added tax (VAT), total tax revenue as a percentage of GDP is around 15% or less, falling short of what is necessary to finance basic human and economic development. Far from being revenue-raising instruments, current African VATs are riddled with exemptions, exclusions, and zero rates on domestic goods and services that depress revenue, are highly distortionary, and greatly complicate the administration of VAT. Modernizing VATs in Africa enables policymakers, professionals, and students to analyse African tax systems to ascertain how they can be modernized. It explains the case for VAT base-broadening over rate-increasing, arguing that exemptions and zero rates mainly accrue benefits for higher-income groups. Even more persuasively, it demonstrates that the net result of fiscal systems can be equalizing if the revenue of broad-based VATs is used to finance in-kind transfers, such as healthcare and education. VAT

modernization should be used to enable governments to finance development; Modernizing VATs in Africa puts a compelling case forward for how and why this can be achieved.

I Can't Sugar Coat It! Raven Hobbs, 2018-06-16 There are many perspectives about life, so I will like to tell my perspective. When we are born we have no clue of who we really are. We don't know our names, parents, our purpose or do we? We are taught to think otherwise. We are taught by our parents, and others around us what we are. We are taught how to act, talk, and what truth is. We listen to others while ignoring our own voice within. We start to see through the eyes of other people's perspectives. We are strayed away from our own thoughts and opinions. How do we take something that someone tells us as truth without question? If the truth is subjective how can they be right? Why do people feel the need to judge when we decide to follow your own truth? If we were to continue to follow what people tell us as truth will we miss out on the real purpose of why God put us here? Who is God? Do people really know who God really is? Or are we following someone else's truth about God? How about we start all over? How about we wipe our minds clean away from other people's

thoughts and pretend that we are newborn's to the world. Start asking yourself some questions and see what feels like your "Right Answer" to "You." This is your key to your own happy life besides of what other people will think. Live Your Own Truth! Here is Mine!

The Case Against Sugar Gary Taubes, 2016-12-27 From the best-selling author of *Why We Get Fat*, a groundbreaking, eye-opening exposé that makes the convincing case that sugar is the tobacco of the new millennium: backed by powerful lobbies, entrenched in our lives, and making us very sick. Among Americans, diabetes is more prevalent today than ever; obesity is at epidemic proportions; nearly 10% of children are thought to have nonalcoholic fatty liver disease. And sugar is at the root of these, and other, critical society-wide, health-related problems. With his signature command of both science and straight talk, Gary Taubes delves into Americans' history with sugar: its uses as a preservative, as an additive in cigarettes, the contemporary overuse of high-fructose corn syrup. He

explains what research has shown about our addiction to sweets. He clarifies the arguments against sugar, corrects misconceptions about the relationship between sugar and weight loss; and provides the perspective necessary to make informed decisions about sugar as individuals and as a society.

JJ Virgin's Sugar Impact Diet J.J. Virgin, 2014-11-04 From New York Times bestselling author of **THE VIRGIN DIET** comes a groundbreaking program that will revolutionize the way readers think about sugar and help you drop fat fast--up to 10 pounds in just two weeks! **NEW YORK TIMES BESTSELLER** If you're eating healthy, but just can't seem to lose weight, you're not alone. Sugar is the single biggest needle mover when it comes to your health and the number on the scale, but sugar hides in places you'd never expect: whole foods, diet foods, packaged foods, dressings . . . even sugar substitutes. And it's not enough to cut out or cut back on sugar--you have to cut out the right kinds of sugar. In this groundbreaking book, New York Times bestselling author JJ Virgin explains the powerful concept of Sugar Impact: how different sugars react differently in the body. High Sugar Impact foods cause weight gain, energy crashes, and inflammation. Low Sugar Impact foods fuel your

body for prolonged energy and promote fat burning. This eye-opening book pinpoints the most damaging sugars that we eat every day-without even realizing it-in common foods like skim milk, diet soda, whole-grain bread, and healthy sweeteners like agave. By swapping High Sugar Impact foods for Low Sugar Impact foods, you will shed fat fast--up to 10 pounds in 2 weeks!--and transform your body and your health for good. Best of all, you don't need to eliminate sugar completely or count calories. Prepare to: Lose the bloat Target belly fat Rev your metabolism Cut cravings Become a fat burner, not a sugar burner Lose fat fast-and forever!
