Summer on Sunshine Bay Debbie Mason, 2023-05-23 Welcome to Sunshine Bay, where the joys of summer last all year round. Lila Rosetti Sinclair returns to Sunshine Bay a bundle of nerves. After being gone for years, sharing the news that she's engaged—to a man her mother has never met—is going to be difficult to navigate. But when her fiancé David surprises her with an engagement party at Windemere, the upscale inn his parents recently purchased and that just may put her family's restaurant, La Dolce Vita, out of business, Lila's got a whole new set of problems. Eva Rosetti is so ecstatic to finally have her daughter home that she pushes aside her misgivings about having to come face-to-face with Lila's father again. That is until he sweeps into town and feelings Eva thought far behind her resurface.... With a family business to save and a wedding to plan, Eva and Lila's reunion is more than either bargained for, but with a little luck and a whole lot of support from friends and family, it may just turn out to be the best summer of their lives.

Love's Fresh Start Alone since her husband died, Sylvia yearns to rediscover life's joys. Convinced exercise will help, she reluctantly ventures out to the local park. There in the shrubbery, she discovers Angel, a skinny feral cat that needs someone to care. Life hit Jack with a double whammy: A heart attack forced him to stop work early and his wife left just as he was getting back on his feet. Now his life is empty and his future uncertain until he meets Sylvia in the park trying to befriend a cat. Can these lonely souls find each other? Or are they destined to be alone? Come Home to Love Susan McNeil has decisions to make. Should she stay with her husband Richard - the man she built her life with, but no longer trusts? Or should she step out on her own and do all the things she's always wanted to do? And what should she do about the attractive, newly divorced Sid Jones, who wants to rekindle their former love? The same Sid Jones who makes her heart beat a little faster whenever he's around. Richard regrets the secrets he's been keeping from Susan, and now he's stuck in Mexico with his brother. When he learns Susan is spending time with Sid, he knows he must get home and make things right or lose her forever. But how? And is he too late? Will Susan choose life without him? Or will Richard come home to love?

Race, Place and the Seaside Daniel Burdsey, 2016-08-18 This is the first academic monograph to focus exclusively on issues of race, ethnicity, whiteness and multiculturalism at the English seaside. The book calls for acknowledgement of the racialised nature of this environment, and proposes that its distinctive spaces, places, traditions and narratives should be included within broader analyses of race in contemporary Britain. Introducing the concept of 'coastal liquidity' to explain shifting ethno-racial demographics, migratory politics and spatial dynamics at the edge of the sea, along with the relative im/mobilities of the minority ethnic communities who move and reside there, the author provides a relational exploration of seaside experiences: both as a locus of racialised categorisation, exclusion and subjugation, and one of resistance, conviviality and intercultural exchange. Combining theoretical insight and empirical fieldwork, the book disrupts dominant thinking that fixes ontologically minority ethnic bodies to urban spaces, and overcomes their erasure and silencing from the seaside landscapes of the popular imagination.

The Sunshine Skyway Bridge: Spanning Tampa Bay Nevin D. Sitler, Richard N. Sitler, 2013-02-26 Of the more than 5,200 bridges in the state of Florida, the Sunshine Skyway Bridge, spanning scenic Tampa Bay, is by far the most famous. But the award-winning bridge that residents and tourists cross on a daily basis isn't the first to hold the Skyway name. Numerous versions of the current bridge have stretched across lower Tampa Bay, and each has its own remarkable history. Nevin and Ric Sitler detail the suspension cables, concrete, nuts and bolts and political battles that combined to produce the fantastic history of the Skyway bridges and other historic Tampa Bay crossings. Join this father-and-son team on their journey across the historic bay.

Chasing Swells Nikki Chartier, 2020-05-21 Summertime visits with her dad is Kaia Anderson's favorite part of the year. With the recent retirement of long-time tour surfer Neil Harper, her surf-coach dad has been frothing for the next surf star to call upon him. Unfortunately, this new surf star has overlapped with Kaia's plans, which have been relocated to St. Catalina Island - a remote tropical paradise with choppy cell service, little Wi-Fi, and no connection to the California summer she'd dreamed of. If it can be damaged, Dominic Richardson has probably had his hand on it. His reputation, his family's name, and his longstanding friendship with the Great White Surf crew have all been ruined. Surfing the best swells on the planet with a stellar coach in his corner, Dominic's slowly revamped his surf career and his family's reputation. The only thing he's missing is his former surf crew, the West Coast Hooligans. Kaia is over Dominic before she even meets him. She doesn't appreciate a spoiled, rich kid uprooting her summer, but Dominic doesn't play into Kaia's agenda to prove she's right about him. He's determined to be on his very best behavior and prove to everyone that he's not the guy in the tabloids - and he might just make Kaia believe in him too. *** Follow Dominic on his road to redemption and meet his surf coach's daughter in this enemies-to-lovers romance! In spite of a few challenges along the way, life for the gang at the bistro seems to be nothing but blue sky and smooth sailing, until an unexpected visitor arrives on the scene and puts a wrench in things.

Grizzlies, Gales and Giant Salmon Pat Ardley, 2018-03-03 At age nineteen, Pat Ardley packed up her belongings and left Winnipeg for Vancouver, looking for adventure. Little did she know that she'd spend the next forty years in the wilderness, thirty of which would be spent with a man known as George "Hurricane" Ardley. Pat met George soon after arriving in Vancouver, and not long after that the two of them set out for Addenbroke Island to work as junior lighthouse keepers. The journey up to the little island in the Fitz Hugh Sound, 483 km north of Vancouver, took four rolling days by Coast Guard ship—and a huge leap in lifestyle. There, the couple fell in love with the wilderness lifestyle and each other. They learned to grow their own produce, keep chickens, can clams and salmon, build their own furniture, and in the evenings they read aloud to each other for entertainment. But, of course, it wasn't always easy. Pat's fear of the ocean made for a constant struggle in her marine environment, and being the partner of an adrenalin junky (he didn't earn the nickname "Hurricane" for nothing!) sometimes made for a wild ride. Soon Pat and George were starting their own remote fishing lodge in Rivers Inlet, not so far from where the adventure began on Addenbroke Island. Financed by their wilderness odd jobs, the lodge came together slowly but surely through the couple's hard work. George proudly added a nursery to the float lodge when their family grew, and they made sure the little ones knew not to step out the door without wearing a life jacket. Life was full of both challenges and rewards, and dealt plenty of disasters and close calls (including grizzly encounters) but the lodge business supported the family, and gained a steady clientele who were enticed back year after year by the warm welcome, beautiful setting and plentiful salmon, giant halibut and ling cod. After running the lodge together for twenty-seven years, George passed away from cancer. Despite all the advice she received to the contrary, Pat decided to run the business on her own with the assistance of her two children. Through resolve and strength in adversity, Pat outgrew the shadow of Hurricane Ardley and earned an intimidating nickname of her own: Don't-Mess-with-Me Ardley. Reminiscent of British Columbia classics like *Fishing with John*, *I Heard the Owl Call My Name* and the evocative wilderness writings of Chris Czajkowski, this memoir is a touching tribute to coastal life.

Reverse Wine Snob Jon Thorsen, 2015-06-16 Most rational people don't pay \$40 for \$20 items. And yet with wine, it happens all the time. Wine can be an expensive hobby. Founder of the popular site *ReverseWineSnob.com*, Jon Thorsen is an unapologetic frugal wine consumer. He flips wine snobbery on its head by pushing a \$20 or less mantra. *Reverse Wine Snob* is designed to help wine drinkers stop wasting money and get the most satisfaction out of their drinking dollars. It reveals Thorsen's Ten Tenets of Reverse Wine Snobbery—ten beliefs that eliminate myths about wine—as well as a unique rating system that includes the cost of the bottle so that there is satisfaction in both taste and price. In Jon's unique system, the more expensive a wine, the better it must taste. *Reverse Wine Snob* explains: The number one rule all wine drinkers should follow, no matter what the wine snobs say. How to shop for wine at stores like the nation's #1 wine retailer Costco and Trader Joe's. The regions and varieties of wine that give the best value. Why the price of a wine has nothing to do with its taste. Why the distribution system in the US is broken which costs you money and limits your

wine choices. Tons of Jon's very favorite wine picks. Jon dapples in every kind of wine from \$10 kitchen sink blends to the \$20 "Saturday Night Splurge," so delicious it's worth twice the price. Reverse Wine Snob brings plain old common sense to the wine industry and encourages wine lovers to explore the world of inexpensive quality wine. Headland-bay Beaches: Static Equilibrium Concept For Shoreline Management
Rong-chung John Hsu, Jung Lyul Lee, Antonio Henrique Da Fontoura Klein, Mauricio Gonzalez, Raul Medina, 2021-06-22 Headland-bay beaches (HBBs) are ubiquitous in coastal environment. They exist around the world naturally or artificially as byproduct of engineering project. Though in various shapes, sizes and stability, a HBB in static equilibrium not only is a delight for visitors, but also offers hope for better beach protection, restoration, recreation, and shoreline management. With an empirical parabolic model now available, the stability of an existing HBB can be verified, the future bay shape downdrift of a harbor can be predefined, and a stable HBB can be designed. Although a plethora of books are available for coastal and ocean engineering and geomorphology, only a countable few have covered engineering applications of HBBs. On the contrary, this book with focus on the HBBs in static equilibrium aims to offer a comprehensive volume with knowledge and applications for coastal scientists, engineers, managers, students, and the general public interested in HBBs. Useful software tools for HBBs (MEPBAY, MeePaSoL, and SMC) are introduced in the book to aid in applications. The authors have set out to make this book the first unique publication on HBBs, by bringing together the old coastal geomorphic knowledge and new concepts for static bay beaches. This book also provides numerous examples using the static bay beach concept to assist coastal scientists and engineers on planning and pre-design of a stable HBB, and for experimentalists, consultants, and numerical modelers to alleviate the burden of comparing planning options and conducting laborious physical experiments on coastal sedimentation problems.

Growing Community Forests Ryan Bullock, Gayle Broad, Lynn Palmer, M.A. (Peggy) Smith, 2017-10-13 Canada is experiencing an unparalleled crisis involving forests and communities across the country. While municipalities, policy makers, and industry leaders acknowledge common challenges such as an overdependence on US markets, rising energy costs, and lack of diversification, no common set of solutions has been developed and implemented. Ongoing and at times contentious public debate has revealed an appetite and need for a fundamental rethinking of the relationships that link our communities, governments, industrial partners, and forests towards a more sustainable future. The creation of community forests is one path that promises to build resilience in forest communities and ecosystems. This model

provides local control over common forest lands in order to activate resource development opportunities, benefits, and social responsibilities.

Implementing community forestry in practice has proven to be a complex task, however: there are no road maps or well-developed and widely-tested models for community forestry in Canada. But in settings where community forests have taken hold, there is a rich and growing body of experience to draw on. The contributors to *Growing Community Forests* include leading researchers, practitioners, Indigenous representatives, government representatives, local advocates, and students who are actively engaged in sharing experiences, resources, and tools of significance to forest resource communities, policy makers, and industry.

Fishing Guide to South of Sydney Gary Brown, 2010 New South Wales is a great mainland state for fishing and the percentage of people who live along this coast and don't fish is very small. *Fishing Guide to South of Sydney* contains the latest and most up-to-date information about this very popular area. Gary Brown reveals all of the fishing secrets of the coast from Stanwell Park Beach north of Wollongong to Batemans Bay. For about 470 hot fishing spots, Gary tells you what fish you can find there, the best time (of day and tide) and place to fish, along with the right method, bait and/or lure to use for these fish. 32 detailed, colour maps show exactly where each spot is, the local landmarks, access points and boat ramps. Now there is no excuse why anyone cannot catch fish in this section of coastline.
