How I Killed Pluto and Why It Had It Coming Mike

Brown,2012-01-24 The solar system most of us grew up with included nine planets, with Mercury closest to the sun and Pluto at the outer edge. Then, in 2005, astronomer Mike Brown made the discovery of a lifetime: a tenth planet, Eris, slightly bigger than Pluto. But instead of adding one more planet to our solar system, Brown's find ignited a firestorm of controversy that culminated in the demotion of Pluto from real planet to the newly coined category of "dwarf" planet. Suddenly Brown was receiving hate mail from schoolchildren and being bombarded by TV reporters—all because of the discovery he had spent years searching for and a lifetime dreaming about. A heartfelt and personal journey filled with both humor and drama, *How I Killed Pluto and Why It Had It Coming* is the book for anyone, young or old, who has ever imagined exploring the universe—and who among us hasn't?

Early Therapeutic, Social and Vocational Problems in the Rehabilitation of Persons with Spinal Cord Injuries Marian Weiss,2013-06-29 Dr. Marian Weiss' textbook reviewing the etiology, pathophysiology, philosophy and conservative vs. surgical management of spinal and spinal cord injury is a significant contribution to the world literature. The remarks which follow are intended to serve the reader as a surgeon's 'thumb nail' sketch of the text's contents, along with brief comments on areas of agreement or mild variance of the opinions expressed. Dr. Weiss' statement that the average surgical team often becomes

more emotionally involved with the good or doubtful prognosis case at the expense of the victim with a hopeless prognosis, is totally valid. The percentage number of surgical spinal cases are insignificant when compared with the number of surgical admissions. As a result, little appropriate knowledge is amassed by the average surgeon to allow for competence or confidence in the management of the spinal injured patient's total problems. The opinion is correct that spinal trauma should be managed in Spinal Injury Centers where access to the entire array of specialists required by quadriplegic or paraplegic victims is available. Such comprehensive programs are most appropriately affiliated with University Medical Centers.
