Making News in India Somnath Batabyal, 2014-03-14

Post-liberalisation India has witnessed a dramatic growth of the television industry as well as on-screen images of the glitz and glamour of a vibrant, 'shining' India. Through a detailed ethnographic study of Star News and Star Ananda involving interviews, observations and content analysis, this book explores the milieu of 24-hour private news channels in India today. It offers insightful glimpses into the workings of one of the mightiest news corporations in the world and its ability to manufacture everyday reality for its audiences. Based on fieldwork in Mumbai and Kolkata, this study not only provides a detailed description of the television newsroom, its rituals and rhythms, but ventures beyond it to investigate how editorial and corporate strategies converge increasingly in an industry driven by profit. Through analysing how TRPs work to produce a non-inclusive idea of the 'audience' and examining hundreds of hours of news content, the book

explores how news channels construct a vision of nationhood and of a successful and vibrant economy that caters primarily to the needs of the resurgent Indian middle class. While it will be of particular interest to media and cultural studies scholars and students, and to journalists and media professionals in general, this lively, engaging book also aims to give the general reader the wherewithal to analyse and critique the continuous barrage of 24-hour news television today.

The History and Politics of Star Wars Chris

Kempshall,2022-08-11 This book provides the first detailed and comprehensive examination of all the materials making up the Star Wars franchise relating to the portrayal and representation of real-world history and politics. Drawing on a variety of sources, including films, published interviews with directors and actors, novels, comics, and computer games, this volume explores the ways in which historical and contemporary events have been repurposed within Star Wars. It focuses on key themes such as fascism and the Galactic Empire, the failures of democracy, the portrayal of warfare, the morality of the Jedi, and the representations of sex, gender, and race. Through these themes, this study highlights the impacts of the fall of the Soviet Union, the War on Terror, and the failures of the United Nations upon the 'galaxy far, far away'. By analysing and understanding these events and their portrayal within Star Wars, it shows how the most popular media franchise in existence aims to speak about wider contemporary events and issues. The History and Politics of Star Wars is useful for upper-level undergraduates, postgraduates, and scholars of a variety of disciplines such as transmedia studies, science fiction, cultural studies, and world history and politics in the twentieth and twenty-first centuries.

New Constellations Pamela Robertson

Wojcik,2012-01-01 American culture changed radically over the course of the 1960s, and the culture of Hollywood

was no exception. The film industry began the decade confidently churning out epic spectacles and lavish musicals, but became flummoxed as new aesthetics and modes of production emerged, and low-budget youth pictures like *Easy Rider* became commercial hits. New *Constellations: Movie Stars of the 1960s* tells the story of the final glory days of the studio system and changing conceptions of stardom, considering such Hollywood icons as Elizabeth Taylor and Paul Newman alongside such hallmarks of youth culture as Mia Farrow and Dustin Hoffman. Others, like Sidney Poitier and Peter Sellers, took advantage of the developing independent and international film markets to craft truly groundbreaking screen personae. And some were simply “famous for being famous,” with celebrities like Zsa Zsa Gabor and Edie Sedgwick paving the way for today’s reality stars.
