Steven Daniel Miller

Greg Noll Drew Kampion, 2007 One of the greatest surfers of all time, Greg Noll has built a considerable reputation as master of surfboard making, or shaping. Today, collectors and surfers alike prize his unique brand of board. Recently featured in the award-winning documentary feature, *Riding Giants*, Da Bull, in his iconic black-and-white striped trunks, was emblematic of big surf and fearless commitment. In addition to being a pioneer of big-wave surfing, surf movies, and surf magazines, by the mid-1960s, Noll was one of the largest surfboard manufacturers in the world. Now living in Crescent City, California, Noll still shapes twelve boards a year out of old-growth salvage woods-replicas of Duke Kahanamoku's olo and other exotica for collectors. *The Art of the Surfboard* combines the art of building extraordinary surfboards with fascinating surfing history and photography. It's a must-have for surfers and surfing history buffs of any age. *The Art of the Surfboard* includes: A biographical introduction to Greg Noll A concise history of the evolution of surfboards and construction techniques from ancient Hawaii to the modern era Descriptive step-by-step photo sequences with explanatory text on building balsa, foam, and classic wooden surfboards A chronological gallery of Greg Noll surfboards, vintage 1950 to 2005, featuring photographs, action shots, commentary from surfers and shapers, and from Greg himself on the boards and their eras Portraits of several important Greg Noll surfboard collectors and their collections, with accompanying bios

and information on the boards A guide to the various Greg Noll surfboard labels and the years each was used Illustrated throughout with action surf shots taken by some of surfing's master photographers

*The Surfboard* Ben Marcus, 2007-05-15 The history of the surfboard is one of innovation---innovation that has in turn shaped the sport of surfing. The Art of the Surfboard follows this history, from the first wave-riding redwood planks crafted by ancient Hawaiians to the vacuum-sealed, lightweight, plastic fantastic technological marvels of today. Beautifully illustrated with historical prints and engravings, as well as the latest surf photography and detailed closeups, this book documents the surfboards evolution as a perfect convergence of form and function.

Surfboard Shaping and Glassing Steven Daniel Miller, 2007-03 Surfboard Shaping and Glassing is the fast and easy way to master the art of designing and building modern, high-performance surfboards. This definitive guide provides detailed and clear instructions along with scores of pictures, charts, and illustrations at every step of the building process. All that is needed to begin creating surfboards are a good attitude and some readily available tools and materials. Drawing on decades of design evolution based on the work of scores of master shapers, the book guides the shaper in choosing the correct shape and measurements needed to tailor the surfboard to a given wave type and surfer. The shaping process is then detailed. Time honored techniques usually handed down from master to apprentice are exposed in

detail. It also details the steps needed to permanently seal a shaped surfboard using fiberglass and resin. After fins are added, the result is a complete, high-performance surfboard comparable in quality to even the most expensive brands.

Surfing Places, Surfboard Makers Andrew Warren, Chris Gibson, 2014-01-31 Over the last forty years, surfing has emerged from its Pacific islands origins to become a global industry. Since its beginnings more than a thousand years ago, surfing's icon has been the surfboard—its essential instrument, the point of physical connection between human and nature, body and wave. To a surfer, a board is more than a piece of equipment; it is a symbol, a physical emblem of cultural, social, and emotional meanings. Based on research in three important surfing locations—Hawai'i, southern California, and southeastern Australia—this is the first book to trace the surfboard from regional craft tradition to its key role in the billion-dollar surfing business. The surfboard workshops of Hawai'i, California, and Australia are much more than sites of surfboard manufacturing. They are hives of creativity where legacies of rich cultural heritage and the local environment combine to produce unique, bold board designs customized to suit prevailing waves. The globalization and corporatization of surfing have presented small, independent board makers with many challenges stemming from the wide availability of cheap, mass-produced boards and the influx of new surfers. The authors follow the story of board makers who have survived these

challenges and stayed true to their calling by keeping the mythology and creativity of board making alive. In addition, they explore the heritage of the craft, the secrets of custom board production, the role of local geography in shaping board styles, and the survival of hand-crafting skills. From the old boards of ancient Hawaiian kahuna to the high-tech designs that represent the current state of the industry, Surfing Places, Surfboard Makers offers an entrée into the world of surfboard making that will find an eager audience among researchers and students of Pacific culture, history, geography, and economics, as well as surfing enthusiasts.

**Surfing in South Carolina** Lilla O'Brien Folsom, Foster Folsom, 2016-03-14 For centuries, the ocean waters of the Atlantic have impacted the daily lives of those on the South Carolina coast. Beginning in the 1960s, those waves caught the imagination of young beachgoers who studied magazines and Super 8 films and refined their moves on rent-a-floats until the first surfboards became available in the area. The buildup to the Vietnam War brought GIs and their families from the West Coast and Hawaii to South Carolina, and their surfboards came along with them. Unbeknownst to each other, local surfers concentrated in the beach and military base areas of Beaufort/Hilton Head, Charleston, and Pawley's Island/Grand Strand began to conquer nearby surf

breaks. When contests finally brought these groups together, a statewide sport was born.

**The Ultimate Guide to Vintage Surfboards & Collectibles** Jim Winniman, 2013

How To Build The World's Most Incredible Wooden Surfboard Ted Salois, 2014  
This is a step-by-step, illustrated guide to make a solid, lightweight, wooden surfboard from scratch. It begins by showing readers how to design their own surfboard on a computer but offers a way to skip that by

downloading a complete template from the author's website. The remaining chapters give detailed instructions for cutting, assembling and coating with fiberglass all the parts necessary to make a classically elegant, high-performance surfboard whose immense beauty will turn heads. Each page provides plenty of timesaving tips the author has learned from carving numerous wooden surfboards over the last several years. The book also includes lists of tools and supplies, as well as other resources for additional information that might be of interest to the builder of a wooden surfboard. The wave-riding vehicles that result from following this tutorial are works of art that would be suitable for hanging on a museum wall. The author, however, strongly encourages builders to take their new masterpieces for many memory-making adventures in the surf.

Surfing Benjamin Marcus, 2013-03-05 Surfing enthusiast Ben Marcus takes you as close to the waves as you can get without hitting the beach. Surfing is more than just a sport; it is a cultural phenomenon. From its mystical beginnings in Polynesia, surfing has evolved into a worldwide passion, establishing its own roster of legends and seeping into our society—in movies, in fashion, in music, and in language. Hawaiian Duke Kahanamoku, the “father of surfing,” helped elevate the sport beyond its Pacific Islands origins more than a century ago, and his torch has been carried on by a long line of surf heroes: Woody Brown, Mickey Dora, Laird Hamilton, Kelly Slater, and many, many others. During the 1950s and 1960s, surf culture and fashion exploded into movies and music. “Gidget,” the Beach Boys, and even Elvis Presley exposed surfing to the masses, and decades later, the sport and its proponents remain fixtures in pop culture and the media. Yet, through the years, surfing has maintained its reputation as a refuge for non-conformists; its often below-the-radar individualistic lifestyle defies a dry chronicle neatly tied up with a bow. In this comprehensive history of surfing, author Ben Marcus captures the glamour and excitement of this extreme sport. If you are still in awe of that first surfboard, still stoked by hanging ten, or

still dreaming of that elusive wave, then this book is for you. **Surfing: An Illustrated History of the Coolest Sport of All Time** brings you up close and personal to the exciting world of surfing.

**Surfing, the Ultimate Pleasure** ,1984 The surfing experience recaptured - the sport, the triumph, the adventure - complete with anecdotes, historical information and more than 100 breathtaking photos.
