**Los concursos conexos** María de las Nieves Jiménez López, 2015-05-05 El derecho concursal es,

actualmente, uno de los ámbitos jurídicos más importantes, al tratarse de una materia profundamente relacionada con la economía. De hecho, la innegable crisis económica, social y financiera que estamos viviendo desde hace tiempo, ha propiciado la reflexión sobre la estructura económica actual lo que ha llevado a que se produzcan numerosos cambios en los últimos años respecto de esta parcela del derecho. Una de esas novedades, fue introducida por el legislador español en la reforma de 2011, al incorporar el concepto de concursos conexos en el proceso concursal. Con este concepto, hace referencia el legislador a todos aquellos supuestos en que, por la especial relación que existe en varios sujetos, sus patrimonios presentan un cierto nivel de conexión, hasta el punto de tener que ofrecer una solución conjunta que alcance a todos para que ésta pueda ser efectiva, tanto para ellos como para sus acreedores. Así pues, representa el objetivo de estudio analizar los concursos conexos en toda su magnitud, desde los supuestos en que la Ley Concursal permite hablar de conexidad, hasta los efectos que esta conexidad va a conllevar en el proceso concursal, tanto procesales como materiales, pasando por estudiar los numerosos problemas que presenta la remisión a las normas

previstas para otro tipo de procesos.

El concurso directivo Claudio Ricardo Cisneros,2020-12-01 Los desafíos que hoy tienen las

distintas instituciones educativas es el de generar nuevas estrategias en los aprendizajes. Esto va a permitir mejorar no solo la enseñanza, sino también la gestión de los centros educativos. Este panorama provoca que docentes y directivos se conviertan en actores claves a la hora de desarrollar las políticas públicas educativas. Por ello, en esta obra se marca la necesidad de contar con material específico y general que acompañe estos procesos de cambios que se dan en la gestión de las escuelas. Como parte del rol de los profesionales en la educación, es necesario prepararse y capacitarse para la gestión institucional con el objetivo de ofrecer acciones administrativas pedagógicas. De esta manera, estos profesionales podrán transitar como un garante de los derechos y brindar las mejores condiciones de la enseñanza. El concurso directivo: estrategias para resultados exitosos, es una ilustración de la gestión escolar. Está dirigida a docentes, directivos, supervisores, y a quienes se interesen en mejorar y garantizar la institucionalidad educativa.
