The Imago Dei John T. Swann, 2017-07-07 The creation of humankind in the Image of God is perhaps the most foundational tenet of theological anthropology, yet it is rarely understood in the fullness of what it represents. Too often, focus is placed on the divine image as a condition. A study of the Scriptures suggests that it is better understood not as a condition, but rather as a commission of humanity to a role, specifically a priestly role. This book delves into the recognition that the Image of God is nothing less than a divine commission over all of humanity to serve as priests within the temple of creation. It examines not only the creation of humankind as a priesthood in the opening chapters of Genesis, but also the echoes of this anthropological interpretation throughout the Scriptures and the resulting ramifications for future biblical and theological studies.

Reading in Proust's *A la recherche* Adam Watt, 2009-06-18 Adam Watt's critical study of Proust's *A la recherche du temps perdu*, focuses on the role of the acts of reading depicted in the seminal novel. Black Men, Invisibility and Crime Martin Glynn, 2013-12-04 Past studies have suggested that offenders desist from crime due to a range of factors, such as familial pressures, faith based interventions or financial incentives. To date, little has been written about the relationship between desistance and racialisation. This book seeks to bring much needed attention to this under-researched area of criminological inquiry. Martin Glynn builds on recent empirical research in the UK and the USA and uses Critical Race Theory as a framework for developing a fresh perspective about black men's desistance. This book posits that the voices and collective narrative of black men offers a unique opportunity to refine current understandings of desistance. It also demonstrates how new insights can be gained by studying the ways in which elements of the desistance trajectory are racialised. This book will be of interest both to criminologists and sociologists engaged with race, racialisation, ethnicity, and criminal justice.

Rogue Investigation Isadora Brown, 2022-03-01 There's a traitor at Godslayer Academy but no one knows who it is The only thing Lara Darling can think to do is hire an unstable but skilled private investigator in order to discover who amongst her peers is betraying the school to the gods. Robert adamantly refuses. He knows the PI and doesn't trust him, especially not around Lara. When a body is discovered just outside the tech building, Lara realizes the gods have not only discovered the academy exists, but the traitor has already begun to betray them. She must decide if it's worth going behind Robert's back and taking matters into her own hands so no one else dies or settle into the fact that if nothing is done, death will spread across campus like a plague. Fans of *The Avengers* and *A Court of Thorns & Roses* are devouring this fictive paranormal academy romance saga by a USA Today Best Selling Author.

Social Justice in the Liberal State Bruce Ackerman, 1981-09-10 An original and compelling vision of a just society "A 'new view' of the theoretical foundations of liberalism that will 'challenge us to clarify our own implicit notions of liberal democracy.'"—The New York Times Book Review Winner of a Certificate of Merit for the American Bar Association's 1981 Gavel Award for outstanding public service First published in 1980 and continuously in print ever since, Bruce Ackerman's classic *Social Justice in the Liberal State* offers a new foundation for liberal political theory— a world in which each of us may live his or her own life in his or her own way, without denying the same right to others. Full of provocative discussions of issues ranging from education to abortion, it makes fascinating reading for anyone concerned with the future of the liberal democratic state. "Professor Ackerman has tackled age-old problems of social justice with the refreshing technique of a series of dialogues in which the proponent of a position must either confront his opponent with an answer, constrained by the three principles of rationality, consistency, and neutrality, or submit to a checkmate. The author's ability to combine earthiness with extreme subtlety in framing the dialogues has

produced a novel, mind-stretching book.”—Henry J. Friendly, Senior Judge, U.S. Court of Appeals for the Second Circuit “What limits should we place on genetic manipulation? How many children should we have? How should we regulate abortions and adoptions? What rights does the community have, what rights do parents have in the education of children? What rights do children have? What resources must we leave to future generations? To see all these as questions of distributive justice is to connect them in a new way (and to make) a significant contribution.”—Michael Walzer, *The New Republic* “The breadth of the attack on the fundamental issues of man and society is impressive.”—*Foreign Affairs*

Obsessive-Compulsive Disorder Christopher Pittenger, 2017 Obsessive-compulsive disorder (OCD) affects one person in 40 and can cause great suffering. This volume provides the first comprehensive summary of our understanding of this enigmatic condition, summarizing current work ranging from genetics and neurobiology through cognitive psychology, treatment, personal experiences, and societal implications

This is a must for horror addicts who like a bit of contrast to set the evil of human nature in contrast with the overwhelming magnificence of the natural world. A bizarre collection of modern poetic tales which resonate with the reader long after the final page is turned. This anthology contains three of Valkyrie Kerry's Chapbooks; 'Darkest Matter,' 'Epidemonology' and 'Beautiful World: Meditations Chapbook.' The contrasts reflect the contrasting nature of Valkyrie Kerry's own personal journey as a bipolar survivor. Unforgettable words by The Duchess of Darkness

A Theory of African American Offending James D. Unnever, Shaun L. Gabbidon, 2011-03 This book argues that a theory of crime specific to the African American experience is justified by qualitative and quantitative data, not just because of the disproportionately higher percentage of African Americans (in the U.S. population) who are offenders, but also because of the vastly higher percentage of Black Americans who are non-offenders.

Opening Minds Simeon Hein, 2002 New discoveries in physics combined with a greater awareness of extra-ordinary phenomena all around us challenge our traditional beliefs. Research into resonant viewing crop circles and extraterrestrials shows our world to be vibrant, multidimensional, and full of mystery.

Design Noir Anthony Dunne, Fiona Raby, 2021-06-03 The first book to be published on the work of their partnership (in 2001), Design Noir is the essential primary source for understanding the theoretical and conceptual underpinnings for Dunne & Raby's work. Consisting of three elements - a 'manifesto' on the possibilities of designing with and for the 'secret life' of electronic objects; notes for an embryonic network of critical designers and, most famously, the presentation of the Placebo Project – a prototype for a critical design poetics enacted around electronic furniture-objects – Design Noir offers an in-depth exploration of one of the most seminal design projects of the last two decades, one that arguably initiated speculating through design in its contemporary forms. By detailing the logic and character of the objects that were constructed; the involvement of users with these objects over-time, and in the creation of a new kinds of spatially and temporally distributed moments of critique and engagement with things, Design Noir presents the case-study of the Placebo project as a far more complex and subtler project than is often thought. As a bold and in many ways unprecedented experiment in design writing and book designing, Design Noir is itself an instance of the speculative propositional design it expounds.
