**A Guide to the SCC Arbitration Rules** Jakob Ragnwaldh,Fredrik Andersson,Celeste E. Salinas Quero,2019-12-11 The Stockholm Chamber of Commerce (SCC) is one of the world’s leading arbitral institutions, registering about 200 new cases each year, approximately half of them being international cases in commercial and investment treaty disputes. True to the SCC tradition of offering a cost-efficient and flexible procedure, the SCC’s current Arbitration Rules, which came into force in 2017, introduced important new mechanisms enhancing the efficiency of the proceedings. This guide to the SCC Arbitration Rules, the first and only available commentary in English, addresses the Rules and their appendices article by article in the order in which they appear in the Rules. Focusing primarily on how the Rules are applied in practice, the authors bring together their combined extensive experience of conducting SCC arbitrations as counsel, arbitrators and members of the SCC Board and Secretariat, to provide thorough and user-friendly guidance on the SCC proceedings from start to finish, including the new features introduced in 2017 such as summary procedure, joinder and multiple-contract arbitrations, as well as the new appendix addressing certain aspects specific to investment treaty arbitration. Covering all the general issues such as appointment and removal of arbitrators, the proceedings before the arbitral tribunal, making of awards and decisions, the following issues are also addressed: emergency arbitrator proceedings; consolidation of cases; the appointment of an administrative secretary; particular characteristics of investment treaty disputes; and costs of the arbitration. This guide is sure to appeal to arbitrators, external counsel and party representatives who choose to adopt the SCC Arbitration Rules, whether they are based in Sweden or elsewhere. Practitioners will confidently approach any case under the SCC Arbitration Rules with full awareness of applicable rules of procedure and practice.

*Language, Citizenship, and Sámi Education in the Nordic North, 1900-1940* Otso Kortekangas,2021-03-17 In the making of the modern Nordic states in the first half of the twentieth century, elementary education was paramount in creating a notion of citizenship that was universal and equal for all citizens. Yet these elementary education policies ignored, in most cases, the language, culture, wishes, and needs of minorities such as the indigenous Sámi. Presenting the Sámi as an active, transnational population in early twentieth-century northern Europe, Otso Kortekangas examines how educational policies affected the Sámi people residing in the northern parts of Norway, Sweden, and Finland. In this detailed study, Kortekangas explores what the arguments were for the lack of Sámi language in schools, how Sámi teachers have promoted the use of their mother tongue within the school systems, and how the history of the Sámi compares to other indigenous and minority populations globally. Timely in its focus on educational policies in multiethnic societies, and ambitious in its scope, the book provides essential information for educators, policy-makers, and academics, as well as anyone interested in the history of education, and the relationship between large-scale government policies and indigenous peoples.

**Bilingual Higher Education in the Legal Context** Xabier Arzoz,2012-02-17 The aim of this book is to document the experiences of institutions and states that are implementing bilingual higher education policies in the legal context, to identify the different approaches and to suggest some of the likely areas for future theoretical development. It examines the role of higher education language policies (medium-of-instruction policies in higher education) in mediating the tension between on the one hand the centralizing forces of stated-mandated policies and globalisation and demands for language rights by ethnic and linguistic minorities on the other.

**Higher Education, Language and New Nationalism in Finland** Taina Saarinen,2020-11-16 The book discusses recycled discourses of language and nationalism in Finnish higher education, demonstrating the need to look beyond language in the study of language policies of higher education. It analyses the historical and political layeredness of language policies as well as the intertwined nature of national and international developments in understanding new nationalism. Finnish higher education language policies were fuelled by the dynamics and tensions between the national languages Finnish and Swedish until the 2000s, when English begins to catalyse post nationalist discourses of economy and competitiveness. In the 2010s, English begins to be seen as a threat to Finnish. Educational, economic and epistemic nationalism emerge as the main cycles of new nationalist language policies in Finnish higher education. The book will be of interest to language policy and higher education scholars and practitioners, as well as graduate students language policy and higher education.
