Startup Success Gordon Daugherty, 2019-10-22 You've got yourself a startup! But now where's the funding going to come from? In this day and age, creating a startup seems to be an easy process. After some meetings with an equally passionate cofounder, you discover you have a creative idea, the outline of a business plan, and a willingness to spend nights and weekends doing really hard work. But most startup founders have never run a company—much less had to secure funding to reach crucial milestones. If you don't get the funding you need, you may either make progress at a snail's pace, or you may have to give up altogether. With stakes this high, improving a startup founder's odds of fundraising successfully—even just a little—can make a huge

difference in the outcome of a venture. In this informative and enlightening book, Gordon Daugherty demystifies the fundraising process that takes place during the early phases of a startup's evolution. Every founder cares about the valuation they will be able to negotiate with investors, and anyone who has attempted fundraising has encountered numerous debates about the valuation they're asking for. Startup Success dedicates a whole chapter to negotiating valuation, which, in the end, involves a serious combination of art and science to execute effectively. Daugherty's book serves as a valuable educational and planning tool for use before the fundraising campaign begins and a reference guide for interacting and negotiating with investors after things get underway. Startup Success is written in a logical sequence that follows the general life cycle of planning and executing a successful fundraising campaign. Actionable tips, tricks, and aha realizations will have readers dog-earing pages and highlighting passages for future reference. The author's own words tell it all: "I decided to write something different that best exploits the gray in my hair and the hard lessons I've learned." Any startup founder, advisor, or angel investor—regardless of their experience level—will come away with improved skills and an increased knowledge base. Gordon Daugherty is a seasoned business executive, entrepreneur, startup advisor, and investor. He has made more than 200 investments in early-stage companies as a venture fund manager and angel investor, and he has been involved in raising more than \$80 million in growth and venture capital.

Channel of Peace Kevin Tuerff, 2018-02-06 One of the inspirations for the smash hit Broadway musical *Come From Away*, *Channel of Peace* is an unforgettable memoir of the extraordinary kindness afforded to passengers whose flights were re-routed to Gander, Newfoundland, on September 11, 2001. When Kevin Tuerff and his partner boarded their flight from France to New York City on September 11, 2001, they had no idea that a few hours later the world – and their lives – would change forever. After U.S. airspace closed following the terrorist attacks, Kevin, who had been experiencing doubts about organized religion, found himself in the small town of Gander, Newfoundland, with thousands of other refugees or “come from aways.” *Channel of Peace* is a beautiful account of how the people of Gander rallied with boundless acts of generosity and compassion for the “plane people,” renewing Kevin’s spirituality and inspiring him to organize an annual and growing “giving back” day. His unforgettable and uplifting story, along with others, has reached

thousands of people when it was incorporated into the Broadway musical *Come From Away*.

Overlapping Worlds Olivia Grace Barnes, 2021-12-17 While athletes carry the persona of being big, strong, competitive, and fierce, the burn of mental illness does not exclude them. Approximately 35 percent of all athletes struggle with mental health issues and the stigmas that surround mental health. Olivia Grace Barnes' *Overlapping Worlds* explores nature's role in strengthening, reinforcing, and maintaining strong mental health in elite athletes. After experiencing mental health struggles as a competitive athlete, author Barnes felt inspired to share the wondrous powers that nature can have on the mind, connecting the worlds of mental health, sports, and nature into a powerful overlap. Through research and interviews, Barnes provides insight into how nature can positively affect the mind, including: The thought process of

Olympic track star Michael Marsh during one of his most memorable races. Mental health advocate Victoria Garrick's journey through her athletic mental struggles that eventually gave way to her widely viewed TED Talk. Nature expert Ronna Schneberger's insight into the power of being nature-wise. Overlapping Worlds will help you discover how to embrace the subject of mental illness within your community and learn how to appreciate and experience being in nature more fully.

Swim Team Johnnie Christmas, 2022-05-17 "Combines wonderful characters and history to create a story that will make you want to dive right in!" JERRY CRAFT, author of the Newbery Medal-winning *New Kid* A splashy, contemporary middle grade graphic novel from bestselling comics creator Johnnie Christmas! Bree can't wait for her first day at her new middle school, Enith Brigitha, home to the Mighty Manatees—until she's stuck with the only elective that fits her schedule, the dreaded Swim 101. The thought of swimming makes Bree more than a little queasy, yet she's forced to dive headfirst into one of her greatest fears. Lucky for her, Etta, an elderly occupant of her apartment building and former swim team captain, is willing to help. With Etta's training and a lot of hard work, Bree suddenly finds her swim-crazed community counting on her to turn the school's failing team around. But that's easier said than done, especially when their rival, the prestigious Holyoke Prep, has everything they need to leave the Mighty Manatees in their wake. Can Bree defy the odds and guide her team to a state championship, or have the

Illuminating The Dark Side of Occupation Rebecca Twinley, 2020-10-18 This innovative volume introduces Twinley's concept of 'The Dark Side of Occupation'. Focused on less explored and under-addressed occupations, it is an idea which challenges traditional assumptions around the positive, beneficial, health-promoting relationship between occupation and health. Emphasising that people's individual experiences of occupations are not always addressed and may not always be legal, socially acceptable, or conducive to good health, the book investigates how these experiences can be explored theoretically, in practice and research, and in curriculum content for those learning about occupation. Beginning with a discussion of some assumptions and misunderstandings that have been made about the concept, the substantive chapters present and analyse tangible examples of the concept's applicability. This ground-breaking and

practice-changing text provides ideas for future research and highlights contemporary, internationally relevant issues and concerns, such as the coronavirus pandemic. This book is an essential purchase for students in occupational therapy and science, and valuable supplementary reading for practitioners. It is also relevant to a wide interdisciplinary audience with an interest in human occupation, encompassing anthropologists, councillors, criminologists, nurses, and human geographers.

Doing Business by the Good Book David Steward,Robert L. Shook,2012-04-24 An indispensable volume that shows how to succeed in business by using the Bible and its lessons as a source of inspiration and guidance n 1990, David L. Steward founded his company, Worldwide Technology, Inc., on a shoestring budget and borrowed money, well aware of the high-risk nature of the venture he was undertaking. Despite the fact that he was a novice entrepreneur, he was certain he would succeed. Steward believed intensely that God wouldn't let him down. Doing Business by the Good Book shares the inspiring lessons culled straight from the Bible, that Steward used to build his privately held billion-dollar company into a global information

technology enterprise.

A Guide to the Formulation of Plans and Goals in Occupational Therapy Sue Parkinson, Rob Brooks, 2020-11-29 This practical guide for occupational therapists introduces a tried and tested method for moving from assessment to intervention, by formulating plans and measurable goals using the influential Model of Human Occupation (MOHO). Section 1 introduces the concept of formulation – where it comes from, what it involves, why it is important, and how assessment information can be guided by theoretical frameworks and organised into a flowing narrative. Section 2 provides specific instructions for constructing occupational formulations using the Model of Human Occupation. In addition, a radically new way for creating aspirational goals is introduced - based on a simple acronym - which will enable occupational therapists to measure sustained changes rather than single actions. Section 3 presents 20 example occupational formulations and goals, from a wide range of mental health, physical health and learning disability settings, as well as a prison service, and services for homeless people and asylum seekers. Designed for practising occupational therapists and occupational students, this is an essential introduction for all those who are looking for an effective way to formulate plans and goals based on the Model of Human Occupation.

MBTI Manual Isabel Briggs Myers, 1998 One consequence of the popularity of the MBTI is that it has become increasingly detached from

psychological type theory - often to the detriment of the individuals whom it is intended to benefit. Reconnecting the MBTI to type theory has critical practical implications and applications. In this regard, the overall goal of this edition is identical to that of the two editions that preceded it, and indeed to that of the Indicator itself: to make the theory of psychological types described by Jung understandable and useful in people's lives.
