2012 Accountability Hearing with Monitor Great Britain: Parliament: House of Commons: Health Committee,2013-03-05 This is the second annual accountability hearing with Monitor from the Health Committee. The parallel roles of Monitor and CQC were criticised in the Francis report on the Mid Staffordshire Foundation Trust (HC 898, session 2012-13, ISBN 9780102981469) because they created significant opportunities for confusion. The Health Committee concurs and stresses that it needs to be addressed urgently to avoid the twin dangers of gaps in regulation and duplication of regulation. This report concludes that the proposal to use a combination of transitional powers and licensing provisions (designed to apply to all providers of NHS care) to provide the framework for the long-term regulation of Foundation Trusts is profoundly unsatisfactory. The role of Monitor in relation to competition in the NHS remains unclear, and the respective roles of Monitor and the Competition Commission in the market for health and care services need urgent clarification. Monitor's positive approach towards the commissioning of integrated care pathways is welcome. Monitor should use its role in setting the tariff paid for certain NHS services (alongside the NHS Commissioning Board) to encourage system redesign and the integration of service provision, as well as to discourage cherry-picking of the most economically attractive patients. The establishment of a provider failure regime is welcome, but a number of important elements in that regime are not yet fully developed and further progress is needed over the coming months.
