Developing a sales strategy for the 'T-Mobile International' account in the Siemens Mobile Network business unit
Daniel Weber, 2006-10-08 Diploma Thesis from the year 2006 in the subject Information Management, grade: 1,7,
Cologne University of Applied Sciences, 124 entries in the bibliography, language: English, abstract: This document deals with the development of a sales strategy for a key account customer conducting business across domestic boundaries. The idea of key account management and the geographic distinction of it as well as the process of strategic management in this context are discussed. The focus lays on the adaptation of the strategic management process to the particularities of international key account management. In the course of this paper it is illustrated how key account management, with the key account customer as the core element, affects the strategic management process by using it with focus on a single customer instead for a whole industry. For the purpose of taking key account management on an international level, different levels of internationalisation are described and applied to the concept of key account management. As a result of this description the expanded concept of key account management to a global level – global account management – is presented. After describing the essentials of strategy, key account management and strategic management, these elements are merged and the different underlying analytical concepts are presented. The main analytical concept is based on Michael E. Porter's 'competitive strategy' and the five competitive forces. Following the description and the merging of the models, the theoretical framework is applied to the practical case of the 'T-Mobile International' account at Siemens Mobile Networks. The practical case includes the analysis of the business relationship and leads to a final strategy. Keywords: Global account management Key account management Strategic management Strategy development Geographical distinction

Rest in Power Sybrina Fulton,Tracy Martin,2018-05-01 Trayvon Martin's parents take readers beyond the news cycle with an account only they could give: the intimate story of a tragically foreshortened life and the rise of a movement. "A reminder—not only of Trayvon's life and death but of the vulnerability of black lives in a country that still needs to be reminded they matter."—USA Today Now a docuseries on the Paramount Network produced by Shawn Carter Years after his tragic death, Trayvon Martin's name is still evoked every day. He has become a symbol of social justice activism, as has his hauntingly familiar image: the photo of a child still in the process of becoming a young man, wearing a hoodie and gazing silently at the camera. But who was Trayvon Martin, before he became, in death, an icon? And how did one black child's death on a dark, rainy street in a small Florida town become the match that lit a civil rights crusade? *Rest in Power*, told through the compelling alternating narratives of his parents, Sybrina Fulton and Tracy Martin, answers those questions from the most intimate of sources. The book takes us beyond the news cycle and familiar images to give the account that only his parents can offer: the story of the beautiful and complex child they lost, the cruel unresponsiveness of the police and the hostility of the legal system, and an inspiring journey from grief and pain to power, and from tragedy and senselessness to purpose.
