Boom Magazine 031 - July 2015 Boom Magazine Asia, 2015-07-09 July's arrived, and it bears gifts. This month, two of the world's biggest names in music land in our midst - on the same night! Electronic fans, book your tickets to Macau for Deadmau5 on the 22nd, who we introduce a little more to you in our A-Side (P14). Back in Hong Kong, influential Brit band Blur flies into the HKCEC. In our Special Feature (P22) we chat with drummer Dave Rowntree about new album *The Magic Whip*, which was recorded in our very own streets. Also recorded in Hong Kong is local dream pop band Thud's new *Floret E.P.*, and over in Macau, alt. trio Turtle Giant gear up to release their second full-length album, *Many Mansions I*, recorded in a local theatre. Check out our interviews with the bands, who both have strong opinions on the music scene in Asia (P18). Down in the underground scene, Oliver Clasper gets up close and personal with IDM innovator Lee Gamble in *On the Decks* (P26) after an exquisite set at The Empty Gallery. As always, flip over to Mixer (P48) for our new music recommendations. This month in *On the Rocks* (P44) we descend the Shin Hing Steps into brand new '80s themed hangout spot NEO, and in Boom's Kitchen (P42) we explore Hong Kong's sweet tooth - the everlasting love for Japanese desserts. The Periodic Table of Elements Coloring Book Teresa Bondora,2010-07-31 A coloring book to familiarize the user with the Primary elements in the Periodic Table. The Periodic Table Coloring Book (PTCB) was received worldwide with acclaim. It is based on solid, proven concepts. By creating a foundation that is applicable to all science (Oh yes, Hydrogen, I remember coloring it, part of water, it is also used as a fuel; I wonder how I could apply this to the vehicle engine I am studying...) and creating enjoyable memories associated with the elements science becomes accepted. These students will be interested in chemistry, engineering and other technical areas and will understand why those are important because they have colored those elements and what those elements do in a non-threatening environment earlier in life.

Modern Romance Aziz Ansari,Eric Klinenberg,2016-06-14 The #1 New York Times Bestseller "An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives." —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation's sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. "Why did this guy just text me an emoji of a pizza?" "Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!" "My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?" But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and

Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

Bossypants (Enhanced Edition) Tina Fey, 2011-04-05 Spirited and whip-smart, these laugh-out-loud autobiographical essays are a masterpiece from the Emmy Award-winning actress and comedy writer known for *30 Rock*, *Mean Girls*, and *SNL* (Sunday Telegraph). Before Liz Lemon, before *Weekend Update*, before Sarah Palin, Tina Fey was just a young girl with a dream: a recurring stress dream that she was being chased through a local airport by her middle-school gym teacher. She also had a dream that one day she would be a comedian on TV. She has seen both these dreams come true. At last, Tina Fey's story can be told. From her youthful days as a vicious nerd to her tour of duty on *Saturday Night Live*; from her passionately halfhearted pursuit of physical beauty to her life as a mother eating things off the floor; from her one-sided college romance to her nearly fatal honeymoon -- from the beginning of this paragraph to this final sentence. Tina Fey reveals all, and proves what we've always suspected: you're no one until someone calls you bossy. Includes Special, Never-Before-Solicited Opinions on Breastfeeding, Princesses, Photoshop, the Electoral Process, and Italian Rum Cake!

Liquid Horizon ,2021-02-16 Sensual, meditative, and powerfully evocative photographic studies of the ocean by professional surfer Danny Fuller. Danny Fuller's work as a photographer and artist is best understood through his thirty years as a professional surfer. Fuller who is known for riding the waves of North Shore Oahu's famous Pipeline and Maui's treacherous Jaws sees and experiences the ocean in ways intimate and infinite. Fuller's nocturnal seascapes of the worlds most savage and beautiful waves, all captured exclusively by moonlight with slow exposures, share the soulful beauty of the ocean, in meditative, painterly studies of subtle changes of light and color. In the tradition of artists drawn to the sea for inspiration, Fuller expresses a surfer's deep spiritual connection to the ocean and to the meaning of consequence in surfing. The sensual allure of blue mixed with the ominous presence of water, whose scale is epic, reminds us just how minuscule and insignificant we are relative to the powers of the sea.
