Automobile Insurance Subrogation: In All 50 States Gary L. Wickert, 2012-01-01 *Automobile Insurance Subrogation: In All 50 States* is the most thorough, comprehensive, and ambitious anthology of subrogation-related legal information and insurance resources ever put to paper. It is the last and most anticipated of the subrogation trilogy, and a book which will serve as the "bible" for any insurance company writing personal lines or commercial auto policies. It is destined to become the standard work and reference for attorneys, insurance companies, and subrogation industry professionals. Every year there are more than 7 million auto accidents in the United States with a financial toll of more than \$300 billion. Nearly 3 million people are injured and 42,636 people are killed. In the overwhelming majority of these accidents there is at least one party at fault. For virtually every one of these accidents, a policy of automobile insurance provides some sort of claim payments or benefits. In the vast majority of those claims, one or more insurance policies and/or applicable state law grants the insurer a right of subrogation against a negligent third party whose carelessness caused the accident. This book is the bible on subrogating those claims. This book covers the nuts and bolts of auto subrogation in all 50 states, covering every topic imaginable -- including PIP, Med Pay, UM/UIM, property claims, deductible reimbursement, no-fault subrogation and more. It surveys the laws of every state and provides descriptions of every type of auto coverage imaginable, as well as the statutory, case law, and regulatory authority governing every aspect of auto subrogation. If you have subrogation responsibility involving auto claims, you need this book. It universally covers issues which are indelibly interwoven into the business of auto insurance, including a complete treatment of the laws of all 50 states and

the District of Columbia relating to: • Basic and Statutory Subrogation Rights • Mandatory vs. Optional Insurance Coverage • No-Fault Laws, PIP, Mini-Torts, and Loss Transfer Laws • Tort Limitations • Medical Payments Coverage and Subrogation • Uninsured/Underinsured Motorist Coverage and Subrogation • Collision/Property Subrogation • Release of Tortfeasor by Insured • Accord and Satisfaction: Accepting Partial Payments from Tortfeasor • Made Whole Doctrine • Common Fund Doctrine • Economic Loss Doctrine • Deductible Recovery and Reimbursement • Collateral Source Rule • Contributory Negligence/Comparative Fault • Seat Belt Laws and Defenses • Rental Cars, Loaner Vehicles, and Test Drivers • Bailment/Parking Lot Liability • Negligent Entrustment • Facing Multiple Claims In Excess of Liability Policy Limits • Conflict of Laws/Interstate Subrogation • Recovery of Attorney's Fees and Costs • Statutes of Limitations It is a complete treatment -- A to Z -- of virtually every issue which the insurance claims or subrogation professional will face in the area of automobile insurance. It is like no legal treatise ever written and promises to be the most used reference in any insurance company.

Good to Great Jim Collins, 2001-10-16 The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the verybeginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to

go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some

of the key concepts discerned in the study," comments Jim Collins, fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

Sole Survivor Holly Dunn,2017-11-07 A memoir of hope, healing, and survival, sure to resonate with fans of Jaycee Dugard's *A Stolen Life* and Elizabeth Smart's *My Story*. On August 28, 1997, just as she was starting her junior year at the University of Kentucky, Holly Dunn and her boyfriend, Chris Maier, were walking along railroad tracks on their way home from a party when they were attacked by notorious serial killer Angel Maturino Reséndiz, aka The Railroad Killer. After her boyfriend is beaten to death in front of her, Holly is stabbed, raped, and left for dead. In this memoir of survival and healing from a horrific true crime, Holly recounts how she lived through the vicious assault, helped bring her assailant to justice, and ultimately found meaning and purpose through service to victims of sexual assault and other violent crimes. She has worked as a motivational speaker

and activist and founded Holly's House, a safe and nurturing space in her hometown of Evansville, Indiana.
