*Managing Metadata in Web-scale Discovery Systems* Louise F Spiteri,2016-05-27 This book shows you how to harness the power of linked data and web-scale discovery systems to manage and link widely varied content across your library collection. Libraries are increasingly using web-scale discovery systems to help clients find a wide assortment of library materials, including books, journal articles, special collections, archival collections, videos, music and open access collections. Depending on the library material catalogued, the discovery system might need to negotiate different metadata standards, such as AACR, RDA, RAD, FOAF, VRA Core, METS, MODS, RDF and more. In *Managing Metadata in Web-Scale Discovery Systems*, editor Louise Spiteri and a range of international experts show you how to: - maximize the effectiveness of web-scale discovery systems - provide a smooth and seamless discovery experience to your users - help users conduct searches that yield relevant results - manage the sheer volume of items to which you can provide access, so your users can actually find what they need - maintain shared records that reflect the needs, languages, and identities of culturally and ethnically varied communities - manage metadata both within, across, and outside, library discovery tools by converting your library metadata to linked open data that all systems can access - manage user generated metadata from external services such as Goodreads and LibraryThing - mine user generated metadata to better serve your users in areas such as collection development or readers' advisory. The book will be essential reading for cataloguers, technical services and systems librarians and library and information science students studying modules on metadata, cataloguing, systems design, data management, and digital libraries. The book will also be of interest to those managing metadata in archives, museums and other cultural heritage institutions.

Digital Culture & Society (DCS) Ramón Reichert,Annika Richterich,Pablo Abend,Mathias Fuchs,Karin Wenz,2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

**Strategic Social Media Management** Karen E. Sutherland,2020-12-21 This textbook provides a lively introduction to the fast-paced and multi-faceted discipline of social media management with international examples and perspectives. Aside from focusing on practical application of marketing strategy, the textbook also takes students through the process of strategy development, ethical and accurate content curation, and strategy

implementation, through detailed explanations of content creation. Combining theory and practice, Strategic Social Media Management teaches students how to take a strategic approach to social media from an organisational and business perspective, and how to measure results. Richly supported by robust and engaging pedagogy and cases in each chapter, it integrates perspectives from public relations, marketing and advertising, and examines key topics such as risk, ethics, privacy, consent, copyright issues, and crises management. It also provides dedicated coverage of content strategy and campaign planning and execution. Reflecting the demands of contemporary practice, advice on self-care for social media management is also offered, helping to protect people in this emerging profession from the negativity that they can experience online when managing an organisation's social media presence. After reading this textbook, students will be able to develop a social media strategy, curate accurate and relevant content, and create engaging social media content that tells compelling stories, connects with target audiences and supports strategic goals and objectives. This is an ideal textbook for students studying social media strategy, marketing and management at undergraduate level. It will also be essential reading for marketing, public relations, advertising and communications professionals looking to hone their social media skills and strategies.

**Career Management for Artists** Stacy Miller,2020-05-12 Both pragmatic and motivational, this book addresses what it means to have a successful long-term career in the arts, taking stock of the current landscape of the art world, introducing new venues in the field, reflecting on issues of social media and exhibition, and ultimately encouraging artists to take control of their professional lives. Weaving conversations from a range of internationally based artists who have negotiated alternative paths to success, lauded artist and teacher Stacy Miller provides a practical, lively reflection on what it takes to be an artist in our new global landscape. This book covers practical needs, different approaches, and philosophical ways of creating a life and career in the arts. It lays out conventional and nonconventional means to representation, describes being an entrepreneur versus funding independent creative projects, and examines social media for the potential powerhouse it is. Most importantly, it gives artists a way to think about being a professional and the different paths to a successful career in the arts. Perfect for emerging, mid-career, and experienced artists, this book encourages readers to redefine personal success and to act locally, nationally, and internationally in an expanding art world.

**THE IMPACT OF THE DIGITAL WORLD ON MANAGEMENT AND MARKETING** Grzegorz Mazurek,Jolanta Tkaczyk,2016-08-31 The book aims to give an insight into the multifacetedness of changes the Internet – referred to here as the digital world – triggers in both theory and practice of marketing and management. The book has been divided into 5 subject areas, i.e. management, strategy, communications, brand, and consumer, all of which act as the main themes of subsequent chapters.
