No Dream Is Too High Buzz Aldrin,Ken Abraham,2016-04-05 Beloved American hero and astronaut Buzz Aldrin reflects on the wisdom, guiding principles, and irreverent anecdotes he's gathered—both in outer space and on earth—through his event-filled life, in this inspiring guide-to-life for the next generation. Everywhere he goes, crowds gather to meet Buzz Aldrin. He is a world-class hero, a larger-than-life figurehead, best known of a generation of astronauts whose achievements surged in just a few years from first man in space to first men on the moon. Now he pauses to reflect and share what he has learned, from the vantage point not only of outer space but also of time: still a non-stop traveler and impassioned advocate for space exploration, Aldrin will be 86 in 2016. *No Dream Is Too High* whittles down Buzz Aldrin's event-filled life into a short list of principles he values, each illustrated by fascinating anecdotes and memories, such as: · Second comes right after first. NASA protocol should have meant he was first on the moon, but rules changed just before the mission. How he learned to be proud of being the second man on the moon. · Look for opportunities, not obstacles. Buzz was rejected the first time he applied to be an astronaut. Failure is an opportunity to learn to do better. · Always maintain your spirit of adventure. For his 80th birthday, Buzz went diving in the Galapagos and hitched a ride on a whale shark. He stays fit, energetic, and fascinated with life. *No Dream Is Too High* is a beautiful memento, a thought-provoking set of ideas, and a new opportunity for Buzz Aldrin to connect with the masses of people who recognize his unique place in human history.

Carrie Soto Is Back Taylor Jenkins Reid,2022-08-30 #1 NEW YORK TIMES BESTSELLER • “An epic adventure about a female athlete perhaps past her prime, brought back to the tennis court for one last grand slam” (Elle), from the author of *Malibu Rising*, *Daisy Jones & The Six*, and *The Seven Husbands of Evelyn Hugo* “A heart-filled novel about an iconic and persevering father and daughter.”—Time “Gorgeous. The kind of sharp, smart, potent book you have to set aside every few pages just to catch your breath. I’ll take a piece of *Carrie Soto* forward with me in life and be a little better for it.”—Emily Henry, author of *Book Lovers* and *Beach Read* ONE OF THE BEST BOOKS OF THE YEAR: Time, NPR, PopSugar, Glamour, Reader’s Digest *Carrie Soto* is fierce, and her determination to win at any cost has not made her popular. But by the time she retires from tennis, she is the best player the world has ever seen. She has shattered every record and claimed twenty Grand Slam titles. And if you ask Carrie, she is entitled to every one. She sacrificed nearly everything to become the best, with her father, Javier, as her coach. A former champion himself, Javier has trained her since the age of two. But six years after her retirement, Carrie finds herself sitting in the stands of the 1994 US Open, watching her record be taken from her by a brutal, stunning player named Nicki Chan. At thirty-seven years old, Carrie makes the monumental decision to come out of retirement and be coached by her father for one last year in an attempt to reclaim her record. Even if the sports media says that they never liked “the Battle-Axe” anyway. Even if her body doesn’t move as fast as it did. And even if it means swallowing her pride to train with a man she once almost opened her heart to: Bowe Huntley. Like her, he has something to prove before he gives up the game forever. In spite of it all, *Carrie Soto* is back, for one epic final season. In this riveting and unforgettable novel, Taylor Jenkins Reid tells her most vulnerable, emotional story yet.

Merchants of Truth Jill Abramson,2020-02-11 Former executive editor of The New York Times and one of our most eminent journalists Jill Abramson provides a “valuable and insightful” (The Boston Globe) report on the disruption of the news media over the last decade, as shown via two legacy (The New York Times and The Washington Post) and two upstart (BuzzFeed and VICE) companies as they plow through a revolution that pits

old vs. new media. “A marvelous book” (The New York Times Book Review), *Merchants of Truth* is the groundbreaking and gripping story of the precarious state of the news business. The new digital reality nearly kills two venerable newspapers with an aging readership while creating two media behemoths with a ballooning and fickle audience of millennials. “Abramson provides this deeply reported insider account of an industry fighting for survival. With a keen eye for detail and a willingness to interrogate her own profession, Abramson takes readers into the newsrooms and boardrooms of the legacy newspapers and the digital upstarts that seek to challenge their dominance” (Vanity Fair). We get to know the defenders of the legacy presses as well as the outsized characters who are creating the new speed-driven media competitors. The players include Jeff Bezos and Marty Baron (The Washington Post), Arthur Sulzberger and Dean Baquet (The New York Times), Jonah Peretti (BuzzFeed), and Shane Smith (VICE) as well as their reporters and anxious readers. *Merchants of Truth* raises crucial questions that concern the well-being of our society. We are facing a crisis in trust that threatens the free press. “One of the best takes yet on journalism’s changing fortunes” (Publishers Weekly, starred review), Abramson’s book points us to the future.

Buzz Emanuel Rosen, 2010-10-01 Buzz is the most valuable marketing tool there is - and yet it's under-researched and overlooked as a method of reaching customers. The groundbreaking *The Anatomy of Buzz* told us why buzz matters: studies and real-life phenomena from the iMac to Cold Mountain prove that consumer recommendations are the best form of advertising or marketing. Now Rosen, who has spent years studying buzz, has added findings from cutting-edge research and 100 new interviews with field-leaders to show you how to create it. The result, with tips on subjects from seeding the market to accelerating natural contagion, is essential reading not only for marketers, but for anyone who wants to spread their message.

Talk's Cheap, Action's Expensive - The Films of Robert L. Lippert Mark Thomas McGee, *Superman and the Mole-Men* (1951) with George Reeves. *The Fly* (1958) with Vincent Price. *The Last Man on Earth* (1964). These low-budget films earned big-profit bonanzas, and the man behind the yields was Robert L. Lippert. When Spyros Skouras was forced to resign as commander in chief of 20th Century Fox, Darryl F. Zanuck was persuaded to return to the studio to take charge. As the studio was on the brink of disaster, Zanuck put the brakes on every project in the works and fired just about everyone on the lot, except for one man, the only one working for the studio who made their bread-and-butter pictures which, at this point in time, was the only kind of movies the studio could afford to make—and he was Robert L. Lippert. Lippert produced over 200 movies tailored to the small town exhibitors that had to change their program two or three times a week. They loved him for it. Kansas theater owner Bill Leonard told his fellow exhibitors to “. . . just line up with these Lippert pictures and you and your patrons will be happy.” James Clavell—author of *Shogun*, Andrew McLaglen—director of *McLintock*, and Sam Fuller—director of *Pickup on South Street*, got their first breaks in the business from Lippert. Read about his battle with the Screen Actors Guild, his stormy marriage, and, of course, his movies. Compelling, a good read. I found it hard to put down. - *Western Clippings* McGee has performed an invaluable service in rounding up RL's wild celluloid herd into a single corral. - *Videoscope*

Halftime in America Dan S. Wible,2012-09-25 The United States of America finds itself in a political halftime show, and if something doesn't change soon, the second half could see a continuation of disorganized policies that stifle liberty. Author Dan S. Wible, an aerospace engineer, applies engineering principles to seek solutions to prevent the country's problems from escalating; his thought provoking application of common logic reveals how •free trade without balance of trade has resulted in a loss of manufacturing capability and undermined America's infrastructure; •the Federal Reserve has been completely irrational in its attempt to manipulate the world economy, creating an economy that is now fundamentally unstable; •a return to a limited federal government would enable the free market to once again flourish; •free-market capitalism—with the federal and state governments doing only what the people have authorized—is the best way to allow all people to excel. It's Halftime in America, and the United States is at risk of becoming a European-style socialist nation, which is the very style of government the country's patriots sought to extract themselves from more than two centuries ago. Wible offers insights to how and why this is happening—and what can be done to prevent it.

Product Research N. R. Srinivasa Raghavan,John A. Cafeo,2010-03-11 7. 1. 1 Background Uncertainty can be considered as the lack of adequate information to make a decision. It is important to quantify uncertainties in mathematical models used for design and optimization of nondeterministic engineering systems. In general, - certainty can be broadly classi?ed into three types (Bae et al. 2004; Ha-Rok 2004; Klir and Wierman 1998; Oberkampff and Helton 2002; Sentz 2002). The ?rst one is aleatory uncertainty (also referred to as stochastic uncertainty or inherent - certainty) - it results from the fact that a system can behave in random ways. For example, the failure of an engine can be modeled as an aleatory uncertaintybecause the failure can occur at a random time. One cannot predict exactly when the engine will fail even if a large quantity of failure data is gathered (available). The second one is epistemic uncertainty (also known as subjective uncertainty or reducible - certainty) - it is the uncertainty of the outcome of some random event due to lack of knowledge or information in any phase or activity of the modeling process. By

gaining information about the system or environmental factors, one can reduce the epistemic uncertainty. For example, a lack of experimental data to characterize new materials and processes leads to epistemic uncertainty.

Buzz Marian Salzman,Ira Matathia,Ann O'Reilly,2003-04-25 How to master the power of buzz Trendspotters and bestselling authors Marian Salzman and Ira Matathia demystify buzz and show how marketers can create and leverage it for the success of their products and services. The world we inhabit is in constant flux, and the captive audience on which advertisers relied for years no longer exists. Branding today requires a flexibility and creativity that have thus far eluded many traditional practitioners. When there is no clear forum for communicating your brand message to the audience, you must have your audience do it for you. The authors show how and why buzz works, examining case studies like Kate Spade, Madonna, Bulgari, Ford, Nokia, and French Connection. They explore the role specific consumer groups play in setting trends, show how influence works, reveal the efficacy of shock ads, and explain how to manage brand momentum. This book is a dynamic guide that sheds new light on the topic of buzz using real-world examples and case studies that show how marketers can manufacture the seemingly authentic word-of-mouth to which today's cynical consumer responds.

The Anatomy of Buzz Revisited Emanuel Rosen,2009-02-24 A new edition of the definitive handbook on word-of-mouth marketing, completely revised and updated for today's online world With two-thirds new material and scores of current examples from today's most successful companies, The Anatomy of Buzz Revisited takes readers inside the world of word-of-mouth marketing and explains how and why it works. Smart, surprising, and filled with cutting-edge strategies and insights, The Anatomy of Buzz Revisited is essential for anyone who wants to get attention for a product, message, or idea in today's message-cluttered world.

Connected Parenting Jai Mackenzie,2023-02-23 Changing practices and perceptions of parenthood and family life have long been the subject of intense public, political and academic attention. Recent years have seen growing interest in the role digital media and technologies can play in these shifts, yet this topic has been under-explored from a discourse analytical perspective. In response, this book's investigation of everyday parenting, family practices and digital media offers a new and innovative exploration of the relationship between parenting, family practices, and digitally mediated connection. This investigation is based on extensive digital and interview data from research with nine UK-based single and/or lesbian, gay or bisexual parents who brought children into their lives in non-traditional ways, for example through donor conception, surrogacy or adoption. Through a novel approach that combines constructivist grounded theory with mediated discourse analysis, this book examines connected family lives and practices in a way that transcends the limiting social, biological and legal structures that still dominate concepts of family in contemporary society.
