Media Ethics Clifford G. Christians, Mark Fackler, Kathy Richardson, Peggy Kreshel, Robert H.

Woods, 2015-07-17 *Media Ethics: Cases and Moral Reasoning*, Ninth Edition challenges students to think analytically about ethical situations in mass communication by using original case studies and commentaries about real-life media experiences. This market-leading text facilitates and enhances students' ethical awareness by providing a comprehensive introduction to the theoretical principles of ethical philosophies. *Media Ethics* introduces the Potter Box (which uses four dimensions of moral analysis: definitions, values, principles and loyalties) to provide a framework for exploring the important steps in moral reasoning and analyzing the cases that follow. Focusing on a wide spectrum of ethical issues facing media practitioners, the cases in this new Ninth Edition include the most recent issues in journalism, broadcasting, advertising, public relations and entertainment.

From News to Talk Kimberly Meltzer, 2019-03-25 Explores how journalists think and talk about changes in the news environment, with a focus on the increase in opinion and commentary. *From News to Talk* examines what journalists think about the movement toward often opinionated, sometimes uncivil, talk in news. It provides an important intervention in debates about the future of news by investigating what journalists themselves perceive as the forces affecting this movement, the effects of this shift on audiences and political culture, and how the movement from news to talk affects their roles and authority in society. Drawing on more than thirty interviews with journalists and other industry professionals and a decade of published journalistic materials, Kimberly Meltzer uncovers the technological, economic, cultural, and political forces affecting the movement toward opinion and commentary—or talk—in television, online, print, and radio news. From CNN's Brian Stelter, to Fox Business Network's Maria Bartiromo, the Washington Post's Paul Farhi, and many other journalists from CBS, USA Today, POLITICO, and HuffPost, the interviewees are key figures in journalism. Her analysis centers around several key case studies, including the increase in opinionated talking heads on television and the ushering in of a new era of talk and entertainment programs, the strategy by CNN to broaden its definition of news by adding non-news programs, and the bevy of star journalists starting their own self-branded sites. "This is an important work of journalistic scholarship that will influence future generations of journalists and teachers of journalism. It is grounded in historical and theoretical contexts while providing a novel approach to understanding an important issue through a practical lens—through the eyes of journalists." — Lea Hellmueller, author of *The Washington, DC Media Corps in the 21st Century: The Source-Correspondent Relationship*

Hunting Ghislaine John Sweeney, 2022-11-03 'A cracking read ... Ghislaine Maxwell's story has had endless column inches, but John gives such a great overview, and has mined so many sources that it still feels fresh and compelling.' Mail on Sunday Once upon a time there was a beautiful princess who suffered a tragedy, the death of her father, a war hero, a philanthropist, a good man, in suspicious circumstances. She fled to New York where she made a new life with a brilliant mathematician. Her name is Ghislaine Maxwell and her lover was Jeffrey Epstein. Through Jeffrey, and her family name, Ghislaine became friends with some of the most powerful people on earth, ex-President Bill Clinton and President-to-be Donald Trump and the second son of the Queen of England, Prince Andrew, the Duke of York. But this is no fairy tale. *HUNTING GHISLAINE* sets out the other side of the story, and it's one of the darkest you will ever read. Ghislaine's father, Robert Maxwell, was a sadist, a war criminal, a monster. His cruelty deformed Ghislaine Maxwell long before she met Jeffrey Epstein. Her one-time lover was convicted for being a paedophile. So Ghislaine's life has been spent serving not one monster but two. In *HUNTING GHISLAINE*, legendary investigative journalist John Sweeney uncovers the truth behind this fairy tale

story in reverse.

Ready, Set, Talk! Ellen Ratner, Kathie Scarrah, 2006 This complete handbook will help anyone--from the novice activist to the sophisticated public relations professional--develop a talk media message, prepare a campaign, and roll it out on talk radio, television, and talk Internet.

Radio After the Golden Age Jim Cox, 2013-09-16 What became of radio after its Golden Age ended about 1960? Not long ago Arbitron found that almost 93 percent of Americans age 12 and older are regular radio listeners, a higher percentage than those turning to television, magazines, newspapers, or the Internet. But the sounds they hear now barely resemble those of radio's heyday when it had little competition as a mass entertainment and information source. Much has transpired in the past fifty-plus years: a proliferation of disc jockeys, narrowcasting, the FM band, satellites, automation, talk, ethnicity, media empires, Internet streaming and gadgets galore... Deregulation, payola, HD radio, pirate radio, the fall of transcontinental networks, the rise of local stations, conglomerate ownership, and radio's future landscape are examined in detail. Radio has lost a bit of influence yet it continues to inspire stunning innovations.

Language and Media Rodney H. Jones, Sylvia Jaworska, Erhan Aslan, 2020-10-12 Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries, and key readings—all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections—introduction, development, exploration, and extension— which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. This revised second edition of *Language and Media*: Provides an accessible introduction and comprehensive overview of the major approaches and methodological tools used in the study of language and media. Focuses on a broad range of media and media content from more traditional print and broadcast media formats to more recent digital media formats. Incorporates practical examples using real data, including newspaper articles, press releases, television shows, advertisements (print, broadcast, and digital), blogs, social media content, internet memes, culture jamming, and protest signs. Includes key readings from leading scholars in the field, such as Jan Blommaert, Sonia Livingstone, David Machin, Martin Montgomery, Ruth Page, Ron Scollon, and Theo van Leeuwen. Offers a wide range of activities, questions, and points for further discussion. The book emphasises the increasingly creative ways ordinary people are engaging in media production. It also addresses a number of urgent current concerns around media and media production/reception, including fake news, clickbait, virality, and surveillance. Features of the new edition include: Special attention on 'new media' forms such as websites, podcasts, YouTube videos, social media sites, and mobile apps such as Snapchat and Instagram; Additional material on: mobility and materiality in media, memes and virality, discourse processes in media production, collaborative production and user created content, reality TV, fake news, the role of algorithms and bots in media production and circulation, and media and resistance; Discussion of media surveillance, privacy boundaries, and the so-called 'right to be forgotten' related to Internet archiving; Brand new readings from key scholars in the field including Piia Varis, Jan Blommaert, Monika Bednarek and Martin Montgomery; Updated examples and references throughout, to reflect more contemporary issues. Written by three experienced teachers and authors, this accessible textbook is an essential resource for all students of English language and linguistics.

Broadcast Announcing Worktext Alan Stephenson, David Reese, Mary Beadle, 2013-02-11 The Broadcast Announcing Worktext provides you with the skills, techniques, and procedures necessary to enter this highly competitive field of broadcast performance. In addition to the principles of good performance, this

book addresses the importance of audience and how to communicate effectively to various groups. Television and radio studio environments, announcer specializations and responsibilities, and developing a broadcast delivery style are just a few of the many topics covered. Factual information is presented in brief, easy-to-digest modules and is enhanced with self-study questions and projects. The self-study provides an immediate check on what you learn, and the projects allow for a practical hands-on application of key concepts in the material. The worktext format, with many real-life examples, combines both traditional teaching and practical experience. A companion CD illustrates techniques and concepts in each chapter with audio and visual examples. This third edition will give you knowledge of other non-traditional forms of announcing, such as online radio announcing, podcast announcing, and other forms of online announcing, such as online shows, clips, and news.

Reclaiming Conversation Sherry Turkle, 2015-10-06 “In a time in which the ways we communicate and connect are constantly changing, and not always for the better, Sherry Turkle provides a much needed voice of caution and reason to help explain what the f*** is going on.” —Aziz Ansari, author of *Modern Romance* Renowned media scholar Sherry Turkle investigates how a flight from conversation undermines our relationships, creativity, and productivity—and why reclaiming face-to-face conversation can help us regain lost ground. We live in a technological universe in which we are always communicating. And yet we have sacrificed conversation for mere connection. Preeminent author and researcher Sherry Turkle has been studying digital culture for over thirty years. Long an enthusiast for its possibilities, here she investigates a troubling consequence: at work, at home, in politics, and in love, we find ways around conversation, tempted by the possibilities of a text or an email in which we don’t have to look, listen, or reveal ourselves. We develop a taste for what mere connection offers. The dinner table falls silent as children compete with phones for their parents’ attention. Friends learn strategies to keep conversations going when only a few people are looking up from their phones. At work, we retreat to our screens although it is conversation at the water cooler that increases not only productivity but commitment to work. Online, we only want to share opinions that our followers will agree with – a politics that shies away from the real conflicts and solutions of the public square. The case for conversation begins with the necessary conversations of solitude and self-reflection. They are endangered: these days, always connected, we see loneliness as a problem that technology should solve. Afraid of being alone, we rely on other people to give us a sense of ourselves, and our capacity for empathy and relationship suffers. We see the costs of the flight from conversation everywhere: conversation is the cornerstone for democracy and in business it is good for the bottom line. In the private sphere, it builds empathy, friendship, love, learning, and productivity. But there is good news: we are resilient. Conversation cures. Based on five years of research and interviews in homes, schools, and the workplace, Turkle argues that we have come to a better understanding of where our technology can and cannot take us and that the time is right to reclaim conversation. The most human—and humanizing—thing that we do. The virtues of person-to-person conversation are timeless, and our most basic technology, talk, responds to our modern challenges. We have everything we need to start, we have each other. Turkle's latest book, *The Empathy Diaries* (3/2/21) is available now.

Alice in Transmedia Wonderland Anna Kérchy, 2016-08-16 Part of Alice's appeal is her ambiguity, which makes possible a range of interpretations in adapting Lewis Carroll's classic Wonderland stories to various media. Popular re-imaginings of Alice and her topsy-turvy world reveal many ways of eliciting enchantment and shaping make-believe. Late 20th century and 21st century adaptations interact with the source texts and with each other--providing readers with an elaborate fictional universe. This book fully

explores today's multi-media journey to Wonderland.

The Media and Religious Authority Stewart M. Hoover, 2016-09-01 As the availability and use of media platforms continue to expand, the cultural visibility of religion is on the rise, leading to questions about religious authority: Where does it come from? How is it established? What might be changing it? The contributors to *The Media and Religious Authority* examine the ways in which new centers of power and influence are emerging as religions seek to “brand” themselves in the media age. Putting their in-depth, incisive studies of particular instances of media production and reception in Asia, Africa, Latin America, and North America into conversation with one another, the volume explores how evolving mediations of religion in various places affect the prospects, aspirations, and durability of religious authority across the globe. An insightful combination of theoretical groundwork and individual case studies, *The Media and Religious Authority* invites us to rethink the relationships among the media, religion, and culture. The contributors are Karina Kosicki Bellotti, Alexandra Boutros, Pauline Hope Cheong, Peter Horsfield, Christine Hoff Kraemer, Joonseong Lee, Alf Linderman, Bahíyyah Maroon, Monré Aza Missouri, and Emily Zeamer, with an afterword by Lynn Schofield Clark.

Information Needs of Communities Steven Waldman, 2011-09 In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info. and commun. renaissance, local communities in particular are being unevenly served with critical info. about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend, and make recommendations on how the info. needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info. Needs of Communities addresses the rapidly changing media landscape in a broadband age. Contents: Media Landscape; The Policy and Regulatory Landscape; Recommendations. Charts and tables. This is a print on demand report.

Best iPad Apps Peter Meyers, 2010-12-08 What really wows iPad fans is when their touchscreen does what's impossible on other gadgets: the finger-painting app that turns a cross-country flight into a moving art class, the mini music studio (two-dozen instruments strong, each with motion-induced warble effects), and the portable fireworks display that you sculpt by swiping. Problem is, with tens of thousands of apps available for your iPad, who knows what to download? You can try to sort through a gazillion customer reviews with a mix of 5- and 1-star ratings, but that's a head-hurting time-waster. The stakes are getting higher, too: instead of freebies and 99-cent trinkets, the price of iPad apps is steadily creeping up and beyond their iPhone predecessors. *Best iPad Apps* guides you to the hidden treasures in the App Store's crowded aisles. Author Peter Meyers stress-tested thousands of options to put together this irresistible, page-turner of a catalog. Inside these pages, you'll find apps as magical as the iPad itself. Flip through the book for app suggestions, or head directly to one of several categories we've loaded up with best of selections to help you: Get work done Manipulate photos Make movies Create comics Browse the Web better Take notes Outline ideas Track your health Explore the world No matter how you use your iPad, *Best iPad Apps* will help you find the real gems among the rubble -- so you make the most of your glossy gadget.

High Yella Steve Majors, 2021-10-15 They called him “pale faced or mixed race.” They called him “light, bright, almost white.” But most of the time his family called him “high yella.” Steve Majors was the white passing, youngest son growing up in an all-Black family that struggled with poverty, abuse, and generational trauma. *High Yella* is the poignant account of how he tried to leave his troubled childhood and family behind to create a new identity, only to discover he ultimately needed to return home to truly find himself. And after he and his husband adopt two Black daughters, he must set them on their own path to

finding their place in the world by understanding the importance of where they come from. In his remarkable and moving memoir, Majors gathers the shards of a broken past to piece together a portrait of a man on an extraordinary journey toward Blackness, queerness, and parenthood. High Yella delivers its hard-won lessons on love, life, and family with exceptional grace.

Political Campaign Communication Judith S. Trent, Robert V. Friedenberg, Robert E. Denton Jr., 2011-08-16 Now in its seventh edition, *Political Campaign Communication* provides a realistic understanding of the strategic and tactical communication practices utilized in contemporary political campaigns. It draws on a wealth of examples from local to national political campaigns and communication theory to illustrate principles and practices of campaigns such as functions, stages, communicative styles, public speaking, debates, interpersonal communication, political advertising, and the use of the internet and new media. Trent, Friedenberg, and Denton's classic text has been updated to reflect recent election campaigns, including the 2010 congressional elections and the initial stages of the 2012 presidential election. Many sections now focus on the most recent presidential elections, and the campaigns of Barack Obama and John McCain. In addition, the authors have examined the expanding role of the internet in political campaigns. *Political Campaign Communication* continues to be a classroom favorite—a thoroughly researched, insightful, and reader-friendly text.

Showtime Jeff Pearlman, 2014-03-04 The New York Times bestselling author of *Sweetness* delivers the first all-encompassing account of the 1980s Los Angeles Lakers, one of professional sports' most-revered—and dominant—dynasties. The Los Angeles Lakers of the 1980s personified the flamboyance and excess of the decade over which they reigned. Beginning with the arrival of Earvin "Magic" Johnson as the number-one overall pick of the 1979 draft, the Lakers played basketball with gusto and pizzazz, unleashing their famed "Showtime" run-and-gun style on a league unprepared for their speed and ferocity—and became the most captivating show in sports and, arguably, in all-around American entertainment. The Lakers' roster overflowed with exciting all-star-caliber players, including center Kareem Abdul-Jabbar, and they were led by the incomparable Pat Riley, known for his slicked-back hair, his Armani suits, and his arrogant strut. Hollywood's biggest celebrities lined the court and gorgeous women flocked to the arena. Best of all, the team was a winner. Between 1980 and 1991, the Lakers played in an unmatched nine NBA championship series, capturing five of them. Bestselling sportswriter Jeff Pearlman draws from almost three hundred interviews to take the first full measure of the Lakers' epic Showtime era. A dazzling account of one of America's greatest sports sagas, *Showtime* is packed with indelible characters, vicious rivalries, and jaw-dropping, behind-the-scenes stories of the players' decadent Hollywood lifestyles. From the Showtime era's remarkable rise to its tragic end—marked by Magic Johnson's 1991 announcement that he had contracted HIV—*Showtime* is a gripping narrative of sports, celebrity, and 1980s-style excess.

The Mom Test Rob Fitzpatrick, 2013-10-09 *The Mom Test* is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little. As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right. Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to

screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

The Radio Station John Allen Hendricks, Bruce Mims, 2018-05-01 The Radio Station offers a concise and insightful guide to all aspects of radio broadcasting, streaming, and podcasting. This book's tenth edition continues its long tradition of guiding readers to a solid understanding of who does what, when, and why in a professionally managed station. This new edition explains what radio in America has been, where it is today, and where it is going, covering the basics of how programming is produced, financed, delivered and promoted via terrestrial and satellite broadcasting, streaming and podcasting. John Allen Hendricks and Bruce Mims examine radio and its future within a framework of existing and emerging technologies. The companion website is new revised with content for instructors, including an instructors' manual and test questions. Students will discover an expanded library of audio interviews with leading industry professionals in addition to practice quizzes and links to additional resources.

Digital Domesticity Jenny Kennedy, Michael Arnold, Martin Gibbs, Bjorn Nansen, Rowan Wilken, 2020-05-13 At the turn of the twenty-first century, typical households were equipped with a landline telephone, a desktop computer connected to a dial-up modem, and a shared television set. Television, radio and newspapers were the dominant mass media. Today, homes are now network hubs for all manner of digital technologies, from mobile devices littering lounge rooms to Bluetooth toothbrushes in bathrooms--and tomorrow, these too will be replaced with objects once inconceivable. Tracing the origins of these digital developments, Jenny Kennedy, Michael Arnold, Martin Gibbs, Bjorn Nansen, and Rowan Wilken advance media domestication research through an ecology-based approach to the abundance and materiality of media in the home. The book locates digital domesticity through phases of adoption and dwelling, to management and housekeeping, to obsolescence and disposal. The authors synthesize household interviews, technology tours, remote data collection via mobile applications, and more to offer readers groundbreaking insight into domestic media consumption. Chapters use original case studies to empirically trace the adoption, use, and disposal of technology by individuals and families within their homes. The book unearths social and material accounts of media technologies, offering insight into family negotiations regarding technology usage in such a way that puts technology in the context of recent developments of digital infrastructure, devices, and software--all of which are now woven into the domestic fabric of the modern household.
