**Peter Read Miller on Sports Photography** Peter Read Miller,2013-08-31 In Peter Read Miller on Sports Photography, the 30-year Sports Illustrated veteran photographer takes you into the action of many of his most iconic shots, relating the stories behind the photos of some of the world's greatest athletic events, including the Olympics and the Super Bowl. Discussing the circumstances surrounding particular shots, Peter shares observations of the athletes themselves, and provides tips and techniques for sports photographers of all levels looking to capture great photos of football, track and field, gymnastics, and swimming, as well as dynamic portraits of athletes. Unlike photo collections by other greats of sports photography, this book seamlessly interweaves the images and the fascinating stories behind them with photographic instruction, while giving you an inside look at what it's like to work at the nation's leading sports publication. Beautifully illustrated with images from the Olympics, football, and portrait sessions with professional athletes, this book offers a rich and inspiring experience for sports photographers, sports fans, and Sports Illustrated readers.

**The Streets Are Talking to Me** Maria Frederika Malmström,2019-11-12 This sophisticated book presents new theoretical and analytical insights into the momentous events in the Arab world that began in 2011 and, more importantly, into life and politics in the aftermath of these events. Focusing on the qualities of the sensory world, Maria Frederika Malmström explores the dramatic differences after the Egyptian revolution and their implications for society—the lack of sound in the floating landscape of Cairo after the ouster of President Mohamed Morsi, the role of material things in the sit-ins of 2013, the military evocation of masculinities (and the destruction of alternative ones), and how people experience pain, rage, disgust, euphoria, and passion in the body. While focused primarily on changes unfolding in Egypt, this study also investigates how materiality and affect provide new possibilities for examining societies in transition. A book of rare honesty and vulnerability, *The Streets Are Talking to Me* is a brilliant, unconventional, and self-conscious ethnography of the space where affect, material life, violence, political crisis, and masculinities meet one another.

**Talking from the Third Side** Trudy Morgado Phillips,2016-10-14 This compilation has been a labor of love. For the past two years, I have poured my heart and soul out on paper through my blog. I have enhanced my favorite posts and turned it into this, my first book. It is truly like sending your child off to school, hoping that your daughter will make friends. It is one thing to control your blog site, but it is certainly another to send your baby out into the world where you can no longer protect her. No matter how she adapts, I will continue to write. Her youngest sister is already in the works, a novel this time. My hope is that this family continues to grow. As I always ended my posts, much love.

**Tracking the 101st Cavalry** Melaney Moisan,2011-08 The 101st Cavalry was a New York National Guard unit that spent the final months of World War II doing reconnaissance for the U.S. 7th Army. They crossed the Saar River in March, and were closing in on Innsbruck, Austria, when the war ended. Attached at various times to, among others, the 4th Infantry Division, the 63rd Infantry Division, the 12th Armored Division, and the 101st Airborne, the 101st Cavalry found a series of concentration camps in the woods near Landsberg and liberated Oflag VIIA, a prisoner of war camp for Polish officers near Murnau. When Melaney Welch Moisan set out in 2004 to find out what her father had done in World War II, she discovered that many other men in the 101st had stories of their own to tell. This book is the story of her journey to connect with her father's past. It is also the story the men who served in the 101st Cavalry, and others whose lives they touched during those few months of the war. More than 100 photos and 17 maps.

**Images of Silence** D. S. Kirchen,2011-07 Amy Stuart is running away from her past, convinced that if she can put some distance between herself and the events that nearly destroyed her, she'll be okay. Distracted mid-flight, she falls into the middle of a family saga between a man and his young son. Now employed as their governess, Amy diverts her attention to uncovering the reasons for the strange dynamics in the Wilde household. But there are obstacles: rigid rules, fiercely guarded secrets, and a dangerous sense of evil that pervades the household. Previously betrayed by her instincts, Amy wavers just long enough to let her quest for answers lead her to a point of no return. The more information she learns, the farther she actually gets from the truth. And yet, the people around her and their facades begin to crumble and expose themselves. Suddenly, her life is in as much danger as Dean and Bryson Wilde's, and she has no choice but to see it through to the terrifying and deadly end.

Not the teenage experience promoted by Hollywood, but the true stories and experiences of teen girls around the world. Five years and numerous interviews later, this one-of-a-kind documentary creatively combines handwritten testimonies, photographs by Anna Leung, and transcripts of recorded interviews of the subjects. **Talk to Me in Pictures** Darlene Dranda,2018-02-15 Washington Square Park was just a few blocks from my apartment. One of my favorite photos of all time was taken in that park. The School of Visual Arts was nearby. I was buying books and reading other books about Eastern culture and religion. When I lived on Jones Street so many exciting things took place just from shopping and decorating the apartment. Within a short time, it was filled with books and musical instruments from around the world. I took guitar lessons. I met a photographer who lived in the building. Unexpected events happened that changed the course of my life forever. The pictures contained in this book help describe these stories.

**Talking to the Girls** Edvige Giunta,Mary Anne Trasciatti,2022-03-22 Candid and intimate accounts of the factory-worker tragedy that shaped American labor rights. On March 25, 1911, a fire broke out on the eighth floor

The top three floors housed the Triangle Waist Company, a factory where approximately 500 workers, mostly young immigrant women and girls, labored to produce fashionable cotton blouses, known as waists. The fire killed 146 workers in a mere 15 minutes but pierced the perpetual conscience of citizens everywhere. The tragedy of the fire, and the resulting movements for change, were pivotal in shaping workers' rights and unions. This book is a collection of stories from writers, artists, activists, scholars, and family members of the Triangle workers. Leadership 101 Denise Van Eck, 2005 How do you define leadership? What kind of leader are you? What kind of leader can you be? Can you be both a leader and a follower? You can get a handle on these and other crucial questions by wrapping your brain around Leadership 101. It focuses on the nuts and bolts of solid Christian leadership (prayer, service, communication, conflict management, mentoring, etc.) but also goes deep into the soul of leadership. In these pages you'll find out why leading isn't always what we expect---and how leaders aren't always who we expect them to be. You'll learn to integrate your heart with the skills of leadership. And you'll discover how Jesus, David, and others journeyed on the leadership path---so you can join them, too. This interactive guide also includes checklists, surveys, fill-in-the-blank questions, and journal exercises so you can take your own leadership pulse, identify the traits you want to live out, and record your thoughts and prayers right on the pages---which helps you put leadership into practice more quickly and effectively. Just remember: Leadership isn't a job...it's a journey.

**Photo Poetics** Shengqing Wu, 2020-12-08 Chinese poetry has a long history of interaction with the visual arts. Classical aesthetic thought held that painting, calligraphy, and poetry were cross-fertilizing and mutually enriching. What happened when the Chinese poetic tradition encountered photography, a transformative technology and presumably realistic medium that reshaped seeing and representing the world? Shengqing Wu explores how the new medium of photography was transformed by Chinese aesthetic culture. She details the complex negotiations between poetry and photography in the late Qing and early Republican eras, examining the ways traditional textual forms collaborated with the new visual culture. Drawing on extensive archival research into illustrated magazines, poetry collections, and vintage photographs, Photo Poetics analyzes a wide range of practices and genres, including self-representation in portrait photography; gifts of inscribed photographs; mass-media circulation of images of beautiful women; and photography of ghosts, immortals, and imagined landscapes. Wu argues that the Chinese lyrical tradition provided rich resources for artistic creativity, self-expression, and embodied experience in the face of an increasingly technological and image-oriented society. An interdisciplinary study spanning literary studies, visual culture, and media history, Photo Poetics is an original account of media culture in early twentieth-century China and the formation of Chinese literary and visual modernities.

Talking with the Children of God Gordon Shepherd, Gary Shepherd, 2024-04-22 Grounded in direct, systematic observation by neutral observers, Talking with the Children of God is a unique study of the radical religious movement now known as The Family International. The book draws on extraordinarily candid interviews with the group's leaders and administrative staff. In revealing new information about the organization's history, beliefs, and use of prophecy, Gordon Shepherd and Gary Shepherd offer a highly detailed case study that is both an antidote to sensationalized coverage of the group and a means for understanding the transformational practices of new religious movements in general. One of the most controversial groups emerging from the Jesus People movement of the 1960s, the Family originally was known as The Children of God. Under leader David Berg, members proclaimed an apocalyptic Endtime, shunned secular occupations, lived communally, and adopted unusual sexual practices that led to abuse scandals in the 1970s and 1980s. Following Berg's death in 1994, the organization began to dramatically alter its evangelization efforts and decision-making processes. Talking with the Children of God builds a picture of a complex organization with ten thousand core members worldwide, including details on the lives, careers, and responsibilities of the second generation and their efforts to defend their faith. The authors summarize the Family's history and beliefs as well as its controversial past. In particular, they analyze the organization's use of prophecy--or channeled revelations from Jesus and other spiritual beings--for making decisions and setting policy, revealing how this essentially democratic process works and how it shapes Family life and culture. These remarkable insights are the result of sixteen years of surveys and field observations conducted in Family member homes in sixteen countries, plus four days of face-to-face interviews with Family leaders and organizational staff. The volume also includes condensed transcripts of the interviews with analysis by Shepherd and Shepherd.

Talking Pictures Marvin Heiferman, Carole Kismaric, 1994 Images flash across the screen. Photographs appear on walls, on cans, on the sides of buses, in magazines, books, newspapers, computers. We are bombarded with thousands of photographs each day: they are perhaps our major source of information, inspiration, and irritation. But what if you had to choose a single image out of that avalanche - one photograph that you couldn't stop thinking about, that changed your ideas, your aesthetics, your perception of reality? Seventy of the most interesting people of our era - both famous and unknown - were asked to choose that one image for Talking Pictures. The results are startling, profound, funny, and deeply revealing about our psychology and our times. From glossy fashion photography to devastating portraits of the Holocaust, from family snapshots to the shimmering artwork of master photographers such as Irving Penn, Andre Kertesz, and Imogen Cunningham, from Life magazine photo essays to a five-hundred-times magnification of the adhesive on a Post-it, the range of images in Talking Pictures reveals not only the strength of individual obsession and the power of history and imagination, but, more importantly, the peculiar truths about ourselves and our times that can be seen only in photographs.
