Talking with Children and Young People about Death and Dying Mary

Turner,Bob Thomas,2006-09-15 This photocopiable workbook is a popular resource designed to help adults talk to bereaved children, in which Mary Turner offers useful insights into the concerns of children experiencing grief. It will equip adults to encourage bereaved children to communicate their pain and understand the emotions aroused by the death of someone close to them.

Straight Talk for Crooked Church Dr. Rahsaan A. Armand,2013-06-06 A father once taught his son that the two things he should avoid debating are faith and politics. He was adamant that his son avoids political arguments, citing that no one ever wins them because people are passionately stubborn about the powers that represent them. Concerning matters of faith, his father offered the same counsel, claiming people are equally as passionate about the "higher power(s)" they represent. In *Straight Talk*, against his father's advice, the author dives into both arguments. Within is a conversation for theocracy over democracy and God's Will over man's way. In *Straight Talk For Crooked Church*, Pastor Armand arms the reader with an awareness of the Divine Design for Church. This read will undoubtedly tear down obstacles that hinder churches from being and functioning as God's intended Bride. This book is not a vaccination against the challenges of Church leadership or Church scandal. It serves, however, as a kind of blueprint churches need to stand upright and be strong. While critics of the Church are leery of so-called "Jesus freaks," *Straight Talk* seeks to correct any misinterpretations about the Church by painting an accurate picture of the Body of Christ, along with its functions, as they were originally intended by its Architect, the Lord Jesus Christ.

Handbook of Australian Languages R.M.W. Dixon,Barry J. Blake,1981-12-31 This handbook makes available short grammatical sketches of Australian languages. Each grammar is written in a standard format, following guidelines provided by the editors, and includes a sample text and vocabulary text. The contributions to this volume are salvage studies, giving all the information that is available on four languages which are on the point of extinction, and an assessment of what linguistic impressions can be inferred from the scant material that is available on the extinct languages of Tasmania.

Language and Superdiversity Karel Arnaut, Jan Blommaert, Ben

Rampton, Massimiliano Spotti, 2015-12-22 A first synthesis of work done in sociolinguistic superdiversity, this volume offers a substantial introduction to the field and the issues and state-of-the-art research papers organized around three themes: Sketching the paradigm, Sociolinguistic complexity, Policing complexity. The focus is to show how complexity rather than plurality can serve as a lens through which an equally vast range of topics, sites, and issues can be tied together. Superdiversity captures the acceleration and intensification of processes of social 'mixing' and 'fragmentation' since the early 1990s, as an outcome of two different but related processes: new post-Cold War migration flows, and the advent and spread of the Internet and mobile technologies. The confluence of these forces have created entirely new sociolinguistic environments, leading to research in the past decade that has brought a mixture of new empirical terrain-extreme diversity in language and literacy resources, complex repertoires and practices of participants in interaction-and conceptual challenges. Language and Superdiversity is a landmark volume bringing together the work of the scholars and researchers who spearhead the development of the sociolinguistics of superdiversity.
