The City Becomes a Symbol William Stivers, Donald A. Carter, 2017 This book covers the U.S.
 Army's occupation of Berlin from 1945 to 1949. This time includes the end of WWII up to the end of
 the Berlin Airlift. Talks about the set up of occupation by four-power rule.--Provided by publisher
Memoir, Letters, and Remains of Alexis de Tocqueville Alexis de Tocqueville, 1861

Hitler and Spain Robert H. Whealey, 2021-05-11 "An imperative starting point of any future inquiry concerning Nazi Germany's incursion into and manipulation of Spain's civil strife."
—International History Review The Spanish Civil War, begun in July 1936, was a preliminary round of World War II. Hitler's and Mussolini's cooperation with General Franco resulted in the Axis agreement of October 1936 and the subsequent Pact of Steel of May 1939, immediately following the end of the Civil War. This study presents comprehensive documentation of Hitler's use of the upheaval in Spain to strengthen the Third Reich diplomatically, ideologically, economically, and militarily. While the last great cause drew all eyes to Western Europe and divided the British and especially the French internally, Hitler could pursue territorial gains in Eastern Europe. This book, based on little-known German records and recently opened Spanish archives, fills a major gap in our understanding of one of the twentieth century's most significant conflicts. Its comprehensive treatment of German-Spanish relations from 1936 through 1939, bringing together diplomatic, economic, military, and naval aspects, will be of great value to specialists in European diplomacy and the political economy of Nazi imperialism, as well as to all students of the Spanish Civil War. "A major contribution to understanding not only the Spanish conflict, but also the history of the thirties and, in particular, the failure of Britain, France and the Soviet Union to make common cause against fascist powers." —History Workshop Journal

Black Elk Speaks Black Elk, John G. Neihardt, 2014-03-01 Reveals the life of Lakota healer Nicholas Black Elk as he led his tribe's battle against white settlers who threatened their homes and buffalo herds, and describes the victories and tragedies at Little Bighorn and Wounded Knee. Reprint.

The Theory of the State Johann Caspar Bluntschli, David George Ritchie, Percy Ewing

Matheson, Sir Richard Lodge, 1885

Literary Skinheads? Jay Rosellini, 2000 These two phenomena can be seen as manifestations of a general malaise, a disorientation that may last for quite some time, and Jay Rosellini approaches his subject with the belief that it would be irresponsible to ignore these disquieting trends. This account is recommended for the general reader interested in international issues as well as for students and scholars of German, intellectual history, political science, and comparative sociology.--BOOK JACKET.

How to Read a Book Mortimer J. Adler, Charles Van Doren, 2014-09-30 Investigates the art of reading by examining each aspect of reading, problems encountered, and tells how to combat them.

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert, Erma Hermens, Marja Peek, 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape

painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Wealth, Poverty and Politics Thomas Sowell, 2016-09-06 In *Wealth, Poverty, and Politics*, Thomas Sowell, one of the foremost conservative public intellectuals in this country, argues that political and ideological struggles have led to dangerous confusion about income inequality in America. Pundits and politically motivated economists trumpet ambiguous statistics and sensational theories while ignoring the true determinant of income inequality: the production of wealth. We cannot properly understand inequality if we focus exclusively on the distribution of wealth and ignore wealth production factors such as geography, demography, and culture. Sowell contends that liberals have a particular interest in misreading the data and chastises them for using income inequality as an argument for the welfare state. Refuting Thomas Piketty, Paul Krugman, and others on the left, Sowell draws on accurate empirical data to show that the inequality is not nearly as extreme or sensational as we have been led to believe. Transcending partisanship through a careful examination of data, *Wealth, Poverty, and Politics* reveals the truth about the most explosive political issue of our time.

Quiet Susan Cain, 2013-01-29 #1 NEW YORK TIMES BESTSELLER • Experience the book that started the Quiet Movement and revolutionized how the world sees introverts—and how introverts see themselves—by offering validation, inclusion, and inspiration “Superbly researched, deeply insightful, and a fascinating read, *Quiet* is an indispensable resource for anyone who wants to understand the gifts of the introverted half of the population.”—Gretchen Rubin, author of *The Happiness Project* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY People • O: The Oprah

Magazine • Christian Science Monitor • Inc. • Library Journal • Kirkus Reviews At least one-third of the people we know are introverts. They are the ones who prefer listening to speaking; who innovate and create but dislike self-promotion; who favor working on their own over working in teams. It is to introverts—Rosa Parks, Chopin, Dr. Seuss, Steve Wozniak—that we owe many of the great contributions to society. In *Quiet*, Susan Cain argues that we dramatically undervalue introverts and shows how much we lose in doing so. She charts the rise of the Extrovert Ideal throughout the twentieth century and explores how deeply it has come to permeate our culture. She also introduces us to successful introverts—from a witty, high-octane public speaker who recharges in solitude after his talks, to a record-breaking salesman who quietly taps into the power of questions. Passionately argued, impeccably researched, and filled with indelible stories of real people, *Quiet* has the power to permanently change how we see introverts and, equally important, how they see themselves. Now with Extra Libris material, including a reader's guide and bonus content

Edhina Ekogidho - Names as Links Minna Saarelma-Maunumaa, 2003-10-17 What are the most popular names of the Ambo people in Namibia? Why do so many Ambos have Finnish first names? What do the African names of these people mean? Why is the namesake so important in Ambo culture? How did the long independence struggle affect personal naming, and what are the latest name-giving trends in Namibia? This study analyses the changes in the personal naming system of the Ambo people in Namibia over the last 120 years, starting from the year 1883 when the first Ambos received biblical and European names at baptism. The central factors in this process were the German and South African colonisation and European missionary work on the one hand, and the rise of African nationalism on the other hand. Eventually, this clash between African and European naming practices led to a new and dynamic naming system which includes elements of both African

and European origin.

A New International History of the Spanish Civil War Michael Alpert, 1994-06-28 '...a lucid and scholarly account of an important and immensely complex subject...Dr. Alpert's command of a broad range of archival material, printed documents and secondary works in six languages is extremely impressive.' - P. Preston, London School of Economics and Political Science It is now twenty years since a study was dedicated to the international aspects of the Spanish Civil War and this new synthesis covering the whole of the era and setting it against major events of the late 1930s is well overdue. Michael Alpert takes full advantage of newly accessible archival sources to disentangle the intricacies of this complex issue.

The Making of Tocqueville's Democracy in America James T. Schleifer, 2000 It is impossible fully to understand the American experience apart from Alexis de Tocqueville's *Democracy in America*. Moreover, it is impossible fully to appreciate Tocqueville by assuming that he brought to his visitation to America, or to the writing of his great work, a fixed philosophical doctrine. James T. Schleifer documents where, when, and under what influences Tocqueville wrote different sections of his work. In doing so, Schleifer discloses the mental processes through which Tocqueville passed in reflecting on his experiences in America and transforming these reflections into the most original and revealing book ever written about Americans. For the first time the evolution of a number of Tocqueville's central themes--democracy, individualism, centralization, despotism--emerges into clear relief. As Russell B. Nye has observed, Schleifer's study is a model of intellectual history, an account of the intertwining of a man, a set of ideas, and the final product, a book. The Liberty Fund second edition includes a new preface by the author and an epilogue, *The Problem of the Two Democracies*. James T. Schleifer is Professor of History and Director of the Gill Library at the

College of New Rochelle

Democracy in America Alexis de Tocqueville, 2008-08-08 This new edition of *Democracy in America* makes Tocqueville's classic nineteenth-century study of American politics, society, and culture available — finally! — in a brief and accessible version. Designed for instructors who are eager to teach the work but reluctant to assign all 700 plus pages, Kammen's careful abridgment features the most well-known chapters that by scholarly consensus are most representative of Tocqueville's thinking on a wide variety of issues. A comprehensive introduction provides historical and intellectual background, traces the author's journey in America, helps students unpack the meaning behind key Tocquevillian concepts like individualism, equality, and tyranny of the majority, and discusses the work's reception and legacy. Newly translated, this edition offers instructors a convenient and affordable option for exploring this essential work with their students. Useful pedagogic features include a chronology, questions for consideration, a selected bibliography, illustrations, and an index.

Philosophical Fragments Friedrich von Schlegel, 1991 *Philosophical Fragments* was first published in 1991. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. At a time when the function of criticism is again coming under close skeptical scrutiny, Schlegel's unorthodox, highly original mind, as revealed in these foundational fragments, provides the critical framework for reflecting on contemporary experimental texts.

Books in Series , 1982 Vols. for 1980- issued in three parts: Series, Authors, and Titles.
