**The Lab Book** Darren Wershler,Lori Emerson,Jussi Parikka,2022-03-22 An important new approach to the study of laboratories, presenting a practical method for understanding labs in all walks of life From the “Big Science” of Bell Laboratories to the esoteric world of séance chambers to university media labs to neighborhood makerspaces, places we call “labs” are everywhere—but how exactly do we account for the wide variety of ways that they produce knowledge? More than imitations of science and engineering labs, many contemporary labs are hybrid forms that require a new methodological and theoretical toolkit to describe. The Lab Book investigates these vital, creative spaces, presenting readers with the concept of the “hybrid lab” and offering an extended—and rare—critical investigation of how labs have proliferated throughout culture. Organized by interpretive categories such as space, infrastructure, and imaginaries, The Lab Book uses both historical and contemporary examples to show how laboratories have become fundamentally connected to changes in the contemporary university. Its wide reach includes institutions like the MIT Media Lab, the Tuskegee Institute’s Jesup Wagon, ACTLab, and the Media Archaeological Fundus. The authors cover topics such as the evolution and delineation of lab-based communities, how labs’ tools and technologies contribute to defining their space, and a glossary of key hybrid lab techniques. Providing rich historical breadth and depth, The Lab Book brings into focus a critical, but often misunderstood, aspect of the contemporary arts and humanities.

**Actions Speak Louder Than Words** Celia Oyler,2012-03-22 How do educators engage students in community action projects without telling them what to think, how to think, or what to do? Is it possible to integrate social justice organizing into the curriculum without imposing one’s political views on students? In Actions Speak Louder than Words, longtime activist and teacher educator Celia Oyler delves into such questions through firsthand accounts of social action projects. By moving beyond charity work or volunteerism, she shows how community activism projects offer fertile ground for practicing democratic engagement as part of classroom work. Actions Speak Louder than Words is a systematic, qualitative study offering in-depth and detailed portraits of teachers who design social action projects as part of the regular classroom curriculum. Each case forms a chapter organized as a narrative that includes excerpts from classroom dialogues, and interviews with students, teachers, and parents describing their social action projects with sufficient detail to give educators guidance for designing such projects for their own classrooms. The final chapter examines power, pedagogy, and learning outcomes across the cases, providing specific guidance to educators wishing to take up such projects and offering instructional and procedural advice as well as cautions. A fresh new example of taking up the challenge to teach toward equity and social justice, Actions Speak Louder than Words is an invaluable resource for educators who are passionate about the possibility of integrating activism and advocacy into curriculum as a means to engage in strong democracy.

Speak of the Devil Rose Wilding, 2023-06-13 Seven women, inextricably linked by one man, must figure out which of them killed him in order to protect one another in this electrifying debut thriller. New Year's Eve, 1999. Seven women are gathered in a hotel room at midnight; a man's head sits in the center of the floor. They all had a motive to kill Jamie Spellman. They all swear they didn't. But in order to protect one another, they have to find out who did. The ex, who drowns her darkest secret in a hip flask as the woman she loves drifts further away. The wife, living out her fairytale marriage in a house tucked into woods so thick no one can hear a scream. The widow, praying to a past she no longer knows whether she can trust. The teenager, whose wide-eyed crush has trapped her in an unrecognizable future. The mother figure, battling nature versus nurture under the weight of her own guilt. The friend, forced to choose sides over and over, until she learns the price of choosing wrong. And the journalist, who brought them all together—but underestimated how far one of them would go to keep believing the story they'd been told. Against the ticking clock of a murder investigation, each woman's secret is brought to light as the connections between them converge to reveal a killer. Marking the debut of an extraordinary new talent, *Speak of the Devil* explores the roles into which women are cast in the lives of terrible men...and the fallout when they refuse to play pretend for one moment longer.

The Art of Conversation in Cancer Care Richard P. McQuellon, Michael A. Cowan, 2021-09-23 Every day, thousands of people are diagnosed with cancer or other life-threatening illnesses. Despite the best of intentions, it is not always easy to communicate well under these circumstances or find deep empathy for something one has never experienced. When is it best to speak, and when to be silent? How can someone provide real comfort, and how can relationships with loved ones facing serious illness be enhanced in this most difficult time? Written by a psychosocial oncologist and psychologist-theologian, *The Art of Conversation in Cancer Care: Lessons for Caregivers* offers practical suggestions for health professionals, families, and friends about talking to one who has cancer. This revised and updated second edition is organized around the themes of mortal time and healing conversation with cancer patients and their caregivers. Mortal time is not so much a specific period, but rather, the psychological experience encountering mortality that often accompanies the diagnosis of cancer. The first section of the book articulates the many ways people experience mortal time, including a range of adaptive and less adaptive methods. Next, the basic elements of healing conversation are delineated, with an emphasis on the hope that can spring from talking with a trusted companion. Empathy, listening carefully, and responding thoughtfully and compassionately are discussed. In the final section, the authors offer guidance for caregivers. This section includes material on the risks and costs of companionship as well as personal virtues that help a person navigate the demands of mortal time with their loved one. The authors discuss resilience and the consequences of absorbing suffering including empathy shift where the cancer caregiver becomes less empathic with minor illnesses in others. They conclude with the power of healing conversation in mortal time as a source of hope. Throughout, numerous patient vignettes illustrate the art of conversation in cancer medicine.
