Use Spanish at Home Adelaide Olguin, 2017-12-16 Yes! This is the phrasebook that allows families to start talking in Spanish at home the same day they start! It's for families who realize learning colors and shapes in Spanish isn't speaking Spanish. To speak a language, you've got to be able to use it. This super cute book is laid out for you to find phrases you USE ALL THE TIME, WANT TO USE, and NEED TO USE. By starting with high-frequency sentences in your home, you'll be able to talk and understand each other faster and more naturally. After all, you learned your first language by being talked to as a baby--not by going to baby grammar school. With this book, every time you get in the car, you can be speaking Spanish: Put on your seatbelt. Ponte el cinturón. Every time your baby wants to be carried, s/he can be speaking Spanish: ¡Cárgame! And every time your children hand you a wrapper, thinking

you're a trash can, you can say: Tira la envoltura. With over 1700+ phrases, there are phrases for all ages. Plus, the book includes a digital download of the audio (by a native speaker!), so you can totally sound the part. All translations and audio are by native speakers to help you sound like you're from their country--not like you stepped out of a language class and are the awkward foreigner. This book is for beginners to Spanish majors who never learned to talk to their family. The Spanish in this book is for families wanting to speak with Spanish speakers in the Americas. It does lean towards Spanish spoken in Mexico. We are so excited for you to talk in your home in Spanish!!! ¿Por qué? 101 Questions About Spanish Judy

Hochberg, 2016-10-20 *¿Por qué? 101 Questions about Spanish* is for anyone who wants to understand how Spanish really works. Standard textbooks and grammars describe the what of Spanish - its vocabulary, grammar, spelling, and pronunciation - but *¿Por qué?* explains the why. Judy Hochberg draws on linguistic principles, Hispanic culture, and language history to answer questions such as: Why are so many Spanish verbs irregular? - Why does Spanish have different ways to say you? - Why is h silent? - Why doesn't Spanish use apostrophes? - Why does Castilian Spanish have the th sound? Packed with information, guidance, and links to further research, *¿Por qué?* is an accessible study guide that is suitable for

Spanish students, instructors, native speakers, and the general reader. It is a valuable supplementary text for serious students of Spanish at all levels, from beginning to advanced. ¿Por qué? also covers topics usually left to specialized books, including the evolution of Spanish, how children and adults learn Spanish, and the status of languages that co-exist with Spanish, from Catalan to Spanish sign language to the indigenous languages of Latin America.

Modern Electronics , 1989

Fluent Forever Gabriel Wyner, 2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
