Talking Up a Storm Gregory Lynn Morris, 2016-07 In interviews with fifteen contemporary writers of the American West, Gregory L. Morris demonstrates what these widely divergent talents have in common: they all redefine what it is to be a western writer. No longer enthralled (though sometimes inspired) by the literary traditions of openness, place, and rugged individualism, each of the writers has remained true to the demand for clarity, strength, and honesty, virtues sustained in their conversations. Morris talks with Ralph Beer, Mary Clearman Blew, Elizabeth Cook-Lynn, James Crumley, Ivan Doig, Gretel Ehrlich, Richard Ford, Molly Gloss, Ron Hansen, John Keeble, William Kittredge, David Long, Thomas McGuane, Amy Tan, and Douglas Unger. Their lives and fiction stretch from Montana to Texas, from ranches to universities, from sea level to mountain slopes.

Kids Across the Spectrums Meryl Alper, 2023-08-15 An ethnographic study of diverse children on the autism spectrum and the role of media and technology in their everyday lives. In spite of widespread assumptions that young people on the autism spectrum have a “natural” attraction to technology—a premise that leads to significant speculation about how media helps or harms them—relatively little research actually exists about their everyday tech use. In *Kids Across the Spectrums*, Meryl Alper fills this gap with the first book-length ethnography of the digital lives of autistic young people. Based on research with more than sixty neurodivergent children from an array of racial, ethnic, and socioeconomic backgrounds, *Kids Across the Spectrums* delves into three overlapping areas of their media usage: cultural belonging, social relationships, and physical embodiment. Alper’s work demonstrates that what autistic youth do with technology is not radically different from their non-autistic peers. However, significant social and health inequalities—including limited recreational programs, unsafe neighborhoods, and challenges obtaining appropriate therapeutic services—spill over into their media habits. With an emphasis on what autistic children bring to media as opposed to what they supposedly lack socially, Alper argues that their relationships do not exist outside of how communication technologies affect sociality, nor beyond the boundaries of stigmatization and society writ large. Finally, she offers practical suggestions for the education, healthcare, and technology sectors to promote equity, inclusion, access, and justice for autistic kids at home, at school, and in their communities.

Talking Animals in Children’s Fiction Catherine Elick, 2015-02-27 Talking-animal tales have conveyed anticruelty messages since the 18th-century beginnings of children’s literature. Yet only in the modern period have animal characters become true subjects rather than objects of human neglect or benevolence. Modern fantasies reflect the shift from animal welfare to animal rights in 20th-century public discourse. This revolution in literary animal-human relations began with Lewis Carroll’s *Alice’s Adventures in Wonderland* and continued with the work of Kenneth Grahame, Hugh Lofting, P.L. Travers and E. B. White. Beginning with the ideas of literary theorist Mikhail Mikhailovich Bakhtin, this book examines ways in which animal characters gain an aura of authority through using language and then participate in reversals of power. The author provides a close reading of 10 acclaimed British and American children’s fantasies or series published before 1975. Authors whose work has received little scholarly attention are also covered, including Robert Lawson, George Selden and Robert C. O’Brien.

Pet Projects Elizabeth Young, 2019-12-17 In *Pet Projects*, Elizabeth Young joins an analysis of the representation of animals in nineteenth-century fiction, taxidermy, and the visual arts with a first-person reflection on her own scholarly journey. Centering on Margaret Marshall Saunders, a Canadian woman writer once famous for her animal novels, and incorporating Young’s own experience of a beloved animal’s illness, this study highlights the personal and intellectual stakes of a “pet project” of cultural criticism. Young assembles a broad archive of materials, beginning with Saunders’s novels and widening outward to include fiction, nonfiction, photography, and taxidermy. She coins the term “first-dog voice” to describe the narrative technique of novels, such as Saunders’s *Beautiful Joe*, written in the first person from the perspective of an animal. She connects this voice to contemporary political issues, revealing how animal fiction such as Saunders’s reanimates nineteenth-century writing about both feminism and slavery. Highlighting the prominence of taxidermy in the late nineteenth century, she suggests that Saunders transforms taxidermic techniques in surprising ways that provide new forms of authority for women. Young adapts Freud to analyze literary representations of mourning by and for animals, and she examines how Canadian writers, including Saunders, use animals to explore race, ethnicity, and national identity. Her wide-ranging investigation incorporates twenty-first as well as nineteenth-century works of literature and culture, including recent art using taxidermy and contemporary film. Throughout, she reflects on the tools she uses to craft her analyses, examining the state of scholarly fields from feminist criticism to animal studies. With a lively, first-person voice that highlights experiences usually concealed in academic studies by scholarly discourse—such as detours, zigzags, roadblocks, and personal experience—this unique and innovative book will delight animal enthusiasts and academics in the fields of animal studies, gender studies, American studies, and Canadian studies.

The Author-cat Forrest Glen Robinson, 2007 Forrest G. Robinson argues that a strong autobiographical impulse infuses the whole of Clemens’s fiction. He shows how Clemens wrote out of an enduring need to come to terms with his remembered experiences—not to memorialize the past, but to transform it. Clemens’s special curse was guilt. He was unable to forgive himself for the deaths of those closest to him, especially members of his family—from his siblings’s death in childhood to the deaths of his own children. Nor could he reconcile himself to his role in the Civil War, his ignominious part in the duel that prompted his departure from Virginia City in 1864, and—worst of all—his sense of moral complicity in the crimes of slavery. Tracing the theme of bad faith in all of Clemens’s major writing, but with special attention to the late work, Robinson sheds new light on a tormented moral life, directing attention to what William Dean Howells describes as the depths of a nature whose tragical seriousness broke in the laughter which the unwise took for the whole of him.

Classical Reception and Children's Literature Owen Hodkinson,Helen Lovatt,2018-01-30 Reception studies have transformed the classics. Many more literary and cultural texts are now regarded as 'valid' for classical study. And within this process of widening, children's literature has in its turn emerged as being increasingly important. Books written for children now comprise one of the largest and most prominent bodies of texts to engage with the classical world, with an audience that constantly changes as it grows up. This innovative volume wrestles with that very characteristic of change which is so fundamental to children's literature, showing how significant the classics, as well as classically-inspired fiction and verse, have been in tackling the adolescent challenges posed by metamorphosis. Chapters address such themes as the use made by C S Lewis, in *The Horse and his Boy*, of Apuleius' *The Golden Ass*; how Ovidian myth frames the Narnia stories; classical 'nonsense' in Edward Lear; Pan as a powerful symbol of change in children's literature, for instance in *The Wind in the Willows*; the transformative power of the Orpheus myth; and how works for children have handled the teaching of the classics.

Led Zeppelin Bob Spitz,2024-03-05 “In this authoritative, unsparing history of the biggest rock group of the 1970s, Spitz delivers inside details and analysis with his well-known gift for storytelling.” —PEOPLE From the author of the iconic, bestselling history of The Beatles, the definitive account of arguable the greatest rock band of all time. Rock star. Whatever that term means to you, chances are it owes a debt to Led Zeppelin. No one before or since has lived the dream quite like Jimmy Page, Robert Plant, John Paul Jones, and John Bonham. In *Led Zeppelin*, Bob Spitz takes their full measure, separating myth from reality with his trademark connoisseurship and storytelling flair. From the opening notes of their first album, the band announced itself as something different, a collision of grand artistic ambition and brute primal force, of English folk music and African American blues. Spitz’s account of their artistic journey, amid the fascinating ecosystem of popular music, is irresistible. But the music is only part of the legend: *Led Zeppelin* is also the story of how the sixties became the seventies, of how innocence became decadence, of how rock took over. *Led Zeppelin* wasn’t the first band to let loose on the road, but as with everything else, they took it to an entirely new level. Not all the legends are true, but in Spitz’s careful accounting, what is true is astonishing and sometimes disturbing. *Led Zeppelin* gave no quarter, and neither has Bob Spitz. *Led Zeppelin* is the long-awaited full reckoning the band richly deserves.

Encyclopedia of American Short Films, 1926-1959 Graham Webb,2020-07-13 Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a filler in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound-on-film in the mid-to-late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War, and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s.
