Authorship, Activism and Celebrity Sandra Mayer,Ruth Scobie,2023-06-15 Since long before the age of celebrity activism, literary authors have used their public profiles and cultural capital to draw attention to a wide range of socio-political concerns. This book is the first to explore – through history, criticism and creative interventions – the relationship between authorship, political activism and celebrity culture across historical periods, cultures, literatures and media. It brings together scholars, industry stakeholders and prominent writer-activists to engage in a conversation on literary fame and public authority. These scholarly essays, interviews, conversations and opinion pieces interrogate the topos of the artist as prophet and acute critic of the zeitgeist; analyse the ideological dimension of literary celebrity; and highlight the fault lines between public and private authorial selves, 'pure' art, political commitment and marketplace imperatives. In case studies ranging from the 18th century to present-day controversies, authors illuminate the complex relationship between literature, politics, celebrity culture and market activism, bringing together vivid current debates on the function and responsibility of literature in increasingly fractured societies.

Stars and Keys Lee Haring,2007-07-19 In *Stars and Keys: Folktales and Creolization in the Southwest Indian Ocean*, Lee Haring introduces readers to the rich folklore traditions of the islands of the southwest Indian Ocean. The culture of Madagascar, Mauritius, Seychelles, Réunion, and the Comoros is a unique blend of traditions that have been brought from Africa, South Asia, Europe, and the Middle East. The folktales from these islands reflect the diversity of this culture and provide a rare opportunity to observe the fluidity of traditions and the process of creolization. Haring presents the tales in a uniquely innovative style: he interrupts the text as if he were reading aloud and directly addresses the reader. His words and those of the storytellers are clearly distinguished, making this folktale collection useful to a wide range of readers and scholars.

History of Indigenous Pharmaceutical Companies in Colonial Calcutta (1855–1947) Malika Basu,2021-01-29 In the context of life and civilization, the pharmaceutical industry is as old as human existence. Since time immemorial India had its own enriched indigenous tradition of medicine. The development of alchemy and its application for human welfare was also an important step in Indian scientific tradition. The present monograph is an innovative attempt to understand the history of the indigenous pharmaceutical companies in Calcutta during the colonial times. Here pharmaceutical companies have been viewed as an illuminating lens to understand the interconnectedness between Indian traditions of thought and Western science and subsequent development of pharmaceutical industry in colonial India. The entire gamut of discussion centres around the issues of medical education, medical services, public health, pharmaceutical profession and politico-economic contexts of the development of pharmaceutical industry in colonial India. Three indigenous pharmaceuticals namely – Butto Krishna Paul & Co., Bengal Chemical & Pharmaceutical Works Limited, and East India Pharmaceutical Works Limited have been studied. The study not only portrays the politico-economic background to the emergence of the pharmaceutical industry in colonial India but links it to the economic nationalism and the quest for self-sufficiency among Indian nationalists and entrepreneurs. The pharmaceutical industry in India can be symbolic of a cultural response to modern science which was to pave the subsequent trajectory of national scientific endeavours in India.
