Daodejing Laozi,2008-09-11 'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the Daodejing or Classic of the Way and Life-Force is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Lao Tzu and the Bible Yuan Zhiming, 2010 Lao Tzu and The Bible: A Meeting Transcending Time and Space Yuan Zhiming Translated by Chen Shangyu Has God's light ever shone on the vast land of China-Land of God, 'so named by her ancient ancestors? This book vividly recaptures God's universal light shown to the Chinese sage Lao Tzu 600 years before Jesus was born. By comparing Lao Tzu's Tao Te Ching with the Bible, Yuan Zhiming offers a ground-breaking interpretation of Lao Tzu's Tao in light of the Word, or Logos. Yuan Zhiming juxtaposes Lao Tzu's Holy One with Jesus Christ, systematically and thoroughly unveiling the nature and characteristics of the mysterious Tao in a concrete and understandable manner, resolving a riddle of 2,600 years. The text speaks to our time, because so many people believe that mere secular teaching of morality, such as Confucius taught, is sufficient, and because what we really need is a deep spiritual awakening, such as Lao Tzu announced. The profound teaching in Lao Tzu and the Bible enriches the spirit of not only the Chinese people but also the people of the West. -Dr. Paul de Vries, president of New York Divinity School and author of The Taming of the Shrewd Lao Tzu and the Bible offers not only a spiritual feast to the analytical minds about Tao/Word/Logos, illustrating Tao in a tangible form, the Holy One/Jesus Christ, but also provides helpful advice about how to follow and be united with Tao. A work of great erudition and wisdom, it contains deep insight, opening up the secrets of the Tao while also illuminating the Bible. This book will surely delight the hearts and minds of seekers of Tao.

Religion and Everyday Life and Culture [3 volumes] Vincent F. Biondo, Richard D. Hecht, 2010-03-25 This intriguing three-volume set explores the ways in which religion is bound to the practice of daily life and how daily life is bound to religion. In Religion and Everyday Life and Culture, 36 international scholars describe the impact of religious practices around the world, using rich examples drawn from personal observation. Instead of repeating generalizations about what religion should mean, these volumes examine how religions actually influence our public and private lives on the ground, on a day-to-day basis. Volume one introduces regional

histories of the world's religions and discusses major ritual practices, such as the Catholic Mass and the Islamic pilgrimage to Mecca. Volume two examines themes that will help readers understand how religions interact with the practices of public life, describing the ways religions influence government, education, criminal justice, economy, technology, and the environment. Volume three takes up themes that are central to how religions are realized in the practices of individuals. In these essays, readers meet a shaman healer in South Africa, laugh with Buddhist monks, sing with Bob Dylan, cheer for Australian rugby, and explore Chicana and Iranian art.

The Eminent Monk John Kieschnick, 1997-07-01 In an attempt to reconstruct an elusive aspect of the medieval Chinese imagination, The Eminent Monk examines biographies of Chinese Buddhist monks, from the uncompromising ascetic to the unfathomable wonder-worker. While analyzing images of the monk in medieval China, the author addresses some questions encountered along the way: What are we to make of accounts in "eminent monk" collections of deviant monks who violate monastic precepts? Who wrote biographies of monks and who read them? How did different segments of Chinese society contend for the image of the monk and which image prevailed? By placing biographies of monks in the context of Chinese political and religious rhetoric, The Eminent Monk explores both the role of Buddhist literature in Chinese history and the monastic imagination that inspired this literature.

Teachings of the Tao Eva Wong, 1996-12-17 The Tao that can be spoken of is not the real Way, reads a famous line from the Tao-te-ching. But although the Tao cannot be described by words, words can allow us to catch a fleeting glimpse of that mysterious energy of the universe which is the source of life. The readings in this book are a beginner's entrée into the vast treasury of writings from the sacred Chinese tradition, consisting of original translations of excerpts from the Taoist canon. Brief introductions and notes on the translation accompany the selections from the classics; books of devotional and mystical Taoism; texts of internal alchemy; stories of Taoist immortals, magicians, and sorcerers; ethical tracts; chants and rituals; and teachings on meditation and methods of longevity.

The Complete Works of Zhuangzi ,2013-11-26 Only by inhabiting Dao (the Way of Nature) and dwelling in its unity can humankind achieve true happiness and freedom, in both life and death. This is Daoist philosophy's central tenet, espoused by the person-or group of people-known as Zhuangzi (369?-286? B.C.E.) in a text by the same name. To be free, individuals must discard rigid distinctions between good and bad, right and wrong, and follow a course of action not motivated by gain or striving. When one ceases to judge events as good or bad, man-made suffering disappears and natural suffering is embraced as part of life. Zhuangzi elucidates this mystical philosophy through humor, parable, and anecdote, deploying non sequitur and even nonsense to illuminate a truth beyond the boundaries of ordinary logic. Boldly imaginative and inventively worded, the Zhuangzi floats free of its historical period and society, addressing the spiritual nourishment of all people across time. One of the most justly celebrated texts of the Chinese tradition, the Zhuangzi is read by thousands of English-language scholars each year, yet only in the Wade-Giles romanization. Burton Watson's pinyin romanization brings the text in line with how Chinese scholars, and an increasing number of other scholars, read it.

Mencius Mencius, 2004-10-28 Mencius was one of the great philosophers of ancient China, second only in influence to Confucius, whose teachings he defended and expanded. The Mencius, in which he recounts his dialogues with kings, dukes and military men, as well as other philosophers, is one of the Four Books that make up the essential Confucian corpus. It takes up Confucius's theories of jen, or goodness and yi, righteousness, explaining that the individual can achieve harmony with mankind and the universe by perfecting his innate moral nature and acting with benevolence and justice. Mencius' strikingly modern views on the duties of subjects and their rulers or the evils of war, created a Confucian orthodoxy that has remained intact since the third century BCE.
