 [Contemporary Issues in Strategic Management](#) Paul Phillips,Luiz Moutinho, 2018-03-19 Traditional narratives on strategic management no longer fulfil the needs of students, practitioners, consultants and business owners operating within contemporary society. This textbook provides a differentiated approach to the topic, highlighting the dichotomy between theory and practice, and guiding readers towards an understanding of the future of strategic management. Moving beyond the short-sighted goal of profit maximization, Contemporary Issues in Strategic Management shines a light on measures that really matter, such as value. A wealth of global examples provide an illustration of competitive advantage from market-based and state-based perspectives, giving an insight into the activities that lead to the formation of successful and unsuccessful strategies. Written by two distinguished scholars in the field, this global textbook is essential reading for postgraduate students of strategic management worldwide.

 [Neuro-Immuno-Gastroenterology](#) Cris S. Constantinescu,R [Z](#) van I. Arsenescu,Violeta Arsenescu, 2016-05-24 This book addresses important issues regarding the interaction between the nervous system, the immune system, and the digestive system. Gut flora has a profound influence on the shaping of the immune response, not only in the gastrointestinal system but also in the nervous system. Fascinatingly, manipulation of intestinal immune responses can be used to modulate neurological disease. Conversely, the nervous system and the psyche have significant effects on the functioning of the gut and liver. After introductory chapters on the neurology, the immunology and microbiology of the gut, the effects of the gut immune system and gut flora and its manipulation on neurological disease are discussed, followed by molecular mimicry and immune tolerance in neuroimmune diseases. Additionally, several chapters deal with gastrointestinal manifestations of neurological diseases. Neuro-Immuno-Gastroenterology is aimed at neurologists, gastroenterologists, and immunologists.
