An Embarrassment of Critch's Mark Critch,2021-10-05 NATIONAL BESTSELLER The heartfelt and hilarious story of beloved Canadian comedian Mark Critch's journey from Newfoundland to the national stage--and back home again. One of Mark Critch's earliest acting gigs was in a Newfoundland tourist production alongside a cast of displaced fishery workers. Since, he's found increasing opportunities to take his show on the road. In *An Embarrassment of Critch's*, the star of CBC's *This Hour Has 22 Minutes* revisits some of his career's--and the country's--biggest moments, revealing all the things you might not know happened along the way: A wishful rumour spread by Mark's father results in his big break; two bottles of Scotch nearly get him kicked out of a secret Canadian airbase in the United Arab Emirates; and for anyone wondering how to get an interview with the Prime Minister and Bono (yes, that Bono) on the same evening, Critch might recommend a journey to the 2003 Liberal Convention. Critch's top-secret access to all of the funniest behind-the-scenes moments involve many of the charismatic and notorious politicians we love to see blush, including fearless leaders Justin Trudeau, Stephen Harper, Paul Martin, and Jean Chrétien, celebrities such as Pamela Anderson and Robin Williams, and other colourful figures he's met over years of pulling off daring skits at home and abroad. Remember when MP Carolyn Parrish took her boot to George W. Bush's head in an interview? Or when Critch asked Justin Trudeau where the best place to smoke pot on Parliament Hill was before pulling out a joint for them to share? There's more to each of those stories than you know. Though Critch has spent years crisscrossing the country--and the globe--with the explicit aim of causing trouble everywhere he goes, like the best journeys, this one takes him right back home.

The Angry Therapist John Kim,2017-04-18 Tackling relationships, career, and family issues, John Kim, LMFT, thinks of himself as a life-styledesigner, not a therapist. His radical new approach, that he sometimes calls “self-help in a shot glass” is easy, real, and to the point. He helps people make changes to their lives so that personal growth happens organically, just by living. Let's face it, therapy is a luxury. Few of us have the time or money to devote to going to an office every week. With anecdotes illustrating principles in action (in relatable and sometimes irreverent fashion) and stand-alone practices and exercises, Kim gives readers the tools and directions to focus on what's right with them instead of what's wrong. When John Kim was going through the end of a relationship, he began blogging as *The Angry Therapist*, documenting his personal journey post-divorce. Traditional therapists avoid transparency, but Kim preferred the language of me too as opposed to you should. He blogged about his own shortcomings, revelations, views on relationships, and the world. He spoke a different therapeutic language –open, raw, and at times subversive – and people responded. *The Angry Therapist* blog, that inspired this book, has been featured in *The Atlantic Monthly* and on NPR.

The High Blood Pressure Solution Richard D. Moore,2001-05-01 • Proves that the majority of cases of stroke, heart attack, and hypertension can easily be prevented by maintaining the proper ratio of potassium to sodium in the diet. • Updated with scientific evidence from a recent Finnish study showing a 60 percent decline in deaths attributed to strokes and heart attacks. • Provides a comprehensive program for balancing body chemistry at the cellular level. High blood pressure is entirely preventable, without reliance on synthetic drugs. Dr. Moore's approach is simple: by maintaining the proper ratio of potassium to sodium in the diet, blood pressure can be regulated at the cellular level, preventing the development of hypertension and the high incidence of strokes and

heart attacks associated with it. Dr. Moore updates this edition with a new preface reporting on the latest scientific research in support of his program. The most striking results come from Finland, where for several decades sodium chloride has been replaced nationwide with a commercial sodium/potassium mixture, resulting in a 60 percent decline nationwide in deaths attributed to strokes and heart attacks. Extrapolated to America, the Finnish statistics would mean 360,000 strokes prevented and 96,000 lives saved every year. Dr. Moore makes it clear that high blood pressure is only one symptom of an entire systemic imbalance. He outlines a safe, effective program that focuses on nutrition, weight loss, and exercise to bring the entire body chemistry into balance. For those currently taking blood pressure medications, he includes a chapter on working with your physician to ensure that any reduction in hypertension drugs can be effected gradually and safely.
