Gardens Under Big Skies Noel Kingsbury, Maayke de Ridder, 2021-11 The Netherlands is steeped in horticultural history and its gardens have long been a place for innovation and progressive thinking, exemplified by iconic figures such as the landscape architect Mien Ruys and naturalistic plant pioneer Piet Oudolf. In this book, Noel Kingsbury explores how the particularities of landscape, history and culture in the Netherlands have given rise to distinctive gardens and demonstrates how a new generation of Dutch designers are reimagining outdoor space in such a revolutionary way. At the heart of the story is a people intimately engaged with their surroundings, as proud of the feats of engineering used to reclaim their land from the sea as they are passionate about nature and biodiversity. This creative tension is played out in their parks and gardens: a clean, pared-back aesthetic contrasts with billowing planting; water is managed and made accessible with boardwalks; and meandering paths lead to inviting outbuildings for work and relaxation. These inspiring examples of sustainable, modern, liveable outdoor spaces will appeal to forward-looking garden makers wherever they live.

New York Magazine, 1997-04-28 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Vegetables Love Flowers Lisa Mason Ziegler, 2018-03-27 Fight garden pests and increase your yields the natural way with this tried and true technique! Planting vegetables and flowers together is one of the oldest ways to create a healthy, bountiful garden; but there's more to the method than you might think. **Vegetables Love Flowers** walks you through the ins and outs of companion planting, from how it works to which plants go together and how to grow the best garden for your climate. Alongside gorgeous garden photography, you'll also learn about: Seed-starting, growing, and harvesting How to make garden flower bouquets, with recipes for various arrangements How to attract beneficial creatures to pollinate your garden and prey on its pests Pesticide-free pest-control measures Composting heaps and bins With the right information and some careful planning, you can help your plants thrive—and beautify your garden in the process.
