📖 **Open Talent** John Winsor, Jin H. Paik, 2024-01-16 In the new world of hybrid work and AI, one thing is clear: the war for talent is over—and talent won. With sparsely populated offices and people working from wherever they are, and with AI emerging everywhere in business and dominating headlines, our work lives have undergone a remarkable transformation, seemingly overnight. But the reality is that for years the ever-growing digital wave has been breaking down organizational boundaries and increasing the adoption of open innovation, including the use of crowdsourcing platforms as a talent solution. Now the imperative is clear: adapt to and leverage this new, digitally enabled world of open talent—or get left behind. In this eye-opening, essential guidebook, John Winsor and Jin Paik, with their work at the Laboratory for Innovation Science at Harvard, show how the massive reset of the pandemic allowed talented workers everywhere to exit their jobs without leaving the workforce. Now many are freelancing for multiple companies or are starting small businesses, challenging hiring managers as never before amidst a transformed workforce. What’s more, talent has more power than ever using platforms such as Freelancer.com, Fiverr, and Upwork, setting their own terms for work: what, where, when, and at what price. How can companies adapt? The key, the authors argue, is shifting to a more distributed idea and structure of collaborative work. The authors call this a networked organization, where talent is culled from both inside and outside the organization and viewed through a single lens—as a global ecosystem that can be tapped as needed. With rich stories, keen insights, and an abundance of practical advice, Winsor and Paik provide a new framework and operating model for transforming your organization into a talent-orchestrating, problem-solving machine.

📖 **Dealstorming** Tim Sanders, 2016-02-23 Sales genius is a team sport. As a B2B sales leader, you know that by Murphy’s Law, despite your team’s best efforts, some deals will inevitably get stuck or key relationships will go sour. And too often, it’s the most important ones—the last thing you need when millions of dollars are on the line. Dealstorming is Tim Sanders’s term for a structured, scalable, repeatable process that can break through any sales deadlock. He calls it “a Swiss Army knife for today’s toughest sales challenges.” It fixes the broken parts of the brainstorming process and reinvigorates account management for today’s increasingly complicated sales environment. Dealstorming drives sales innovation by combining the wisdom and creativity of everyone who has a stake in the sale. You may think you are applying teamwork to your challenges, but don’t be so sure. There’s a good chance you’re operating inside a sales silo, not building a truly collaborative team across your whole company. The more disciplines you bring into the process, the more unlikely (but effective!) solutions the team can come up with. Sanders explains his seven-step Dealstorming process and shows how it has helped drive results for companies as diverse as Yahoo!, CareerBuilder, Regus, and Condé Nast. You’ll learn how to get the right team on board for a new dealstorm, relative to the size of the sales opportunity and its degree of difficulty. The key is adding people from non-sales areas of your company, making them collaborators early in the process. That will help them own the execution and delivery after the deal is done. The book includes real world examples from major companies like Oracle and Skillsoft, along with problem finding exercises, innovation templates, and implementation strategies you can apply to your unique situation. It’s based on Sanders’ many years as a sales executive and consultant, personally leading dozens of sales collaboration projects. It also features the results of interviews with nearly two hundred B2B sales leaders at companies such as LinkedIn, Altera and Novell. The strategies laid out in Dealstorming have led to a stunning 70% average closing ratio for teams across all major industries, leading to game-changing deals and long-term B2B relationships. Now you can learn how to make Dealstorming work for you.

📖 **Global Business** Yongsun Paik, Jong-Wook Kwon, Dong Chen, 2017-05-08 This textbook is designed to help students understand the key issues of global business by connecting theory with reality. Divided into three parts, it covers critical issues of international business, introducing readers to topics they will connect with, and discussing core concepts. With a user-friendly pedagogy and a host of helpful visuals, the authors offer a practitioner’s perspective on global business knowledge, examining familiar theory on trade, direct investment, and political environment alongside fresh topics, like geopolitical conflicts, emerging markets, and sustainability. Over sixty case studies are included to illustrate the magnitude and complexity of global business involving different stakeholders. Undergraduate students looking for an introduction to international business and graduate students looking to apply their knowledge will find Global Business stimulating, since it demonstrates how theories and concepts work in real-world business settings.

📖 **Love Is the Killer App** Tim Sanders, 2003-07-22 Are you wondering what the next killer app will be? Do you want to know how you can maintain and add to your value during these rapidly changing times? Are you wondering how the word love can even be used in the context of business? Instead of wondering, read this book and find out how to become a lovecat—a nice, smart person who succeeds in business and in life. How do you become a lovecat? By sharing your intangibles. By that I mean: Your knowledge: everything that comes from all the books that I’ll encourage you to devour. Your network: the collection of friends and contacts you now have, which I’ll teach you how to grow and nurture. Your compassion: that human warmth you already possess—in these pages I’ll convince you that you can show it freely at the office. What happens when you do all this? * You become a rich source of information to all around you. * You are seen as a person with valuable insight. * You are perceived as generous to a fault, producing surprise and delight. * You double your business intelligence in one year. * You triple your network of personal relationships in two years. * You quadruple the number of colleagues in your life who love you like family. In short, you become one of those amazing, outstanding people to whom everyone turns, who leads rather than follows, who never runs out of ideas, contacts, or friendship. Here’s the real scoop: Nice guys don’t finish last. They rule!
