Time Present and Time Past Paul Barlow, 2017-07-05 John Everett Millais (1829-1896) is undoubtedly among the most important of Victorian artists. In his day, and our own, he remains also the most controversial. While, during his lifetime, controversy centred around his early Pre-Raphaelite paintings, in particular *Christ in the house of his Parents* (1850), during the twentieth century the most intense criticism has been directed towards Millais's later works, such as *Bubbles* (1886), which has been widely condemned as sentimental 'kitsch'. These later paintings have been held up as the epitome of the degradation of art, against which avant-garde and Modernist pioneers struggled. None of the existing literature on Millais addresses the fundamental problem that this double-identity reveals. While there is extensive material on the Pre-Raphaelite movement in general, Millais's own work after the 1850s is rarely discussed in detail, despite the fact that he lived and worked for another 30 years after his abandonment of the Pre-Raphaelite style. *Time Present and Time Past: The Art of John Everett Millais* presents the first comprehensive account of Millais's artistic career from beginning to end. The book considers the question of 'high' and 'low' cultural status in debates during Millais's own day, and in subsequent critical thinking, situating Millais's art as a whole within this cultural framework.

Contemporary Cases in U.S. Foreign Policy Ralph Carter, 2021-03-12 The sixth edition begins with a brief introduction into foreign policymaking and the case study approach. Thirteen original case studies written expressly for this edited volume then follow. The cases deal with a wide range of policy areas: national security, homeland security, diplomacy, trade, immigration, epidemics, climate change, and Russian interference in the 2016 presidential election--

How Do I Tax Thee? Kristin Tate, 2018-03-20 We all know the government taxes our income. Federal, state, and local taxes are withheld by employers, as are Social Security payments. But what about the many other ways the government covertly drains money from our wallets? Have you studied your cell phone bill? Customers in New York State pay an average of 24.36% in combined taxes on their wireless bills. They're also charged for obscure services they didn't ask for and don't understand, like a universal service fund fee, an FCC compliance fee, a line service fee, and an emergency services fee. These aren't taxes, strictly speaking. The government imposes these administrative and regulatory costs, and your wireless provider passes them along to you. What about your cable bill? Your power bill? Your trash bill? The cost of groceries, a gallon of gas, a cab ride, a hotel stay, and a movie ticket are all inflated by hidden fees. How much of what you pay at the grocery store, pump, airport, or the box office is really an indirect tax? In a series of short, pointed, fact-laden, humorous chapters, Kristin Tate exposes how up to half of your income is siphoned straight into federal, state, and city government coffers--and also where these hidden taxes and fees come from.--Dust jacket.

Media Relations and the Modern First Lady Lisa M Burns, 2020-02-15 *Media Relations and the Modern First Lady: From Jacqueline Kennedy to Melania Trump* examines the communication strategies first ladies and their teams have used to manage press and public interest in their private lives, to promote causes close to their hearts, and to shape their public image. Starting with Jacqueline Kennedy, who was the first to have a staffer with the title press secretary, each chapter explores the relationship between a first lady and the media, the role played by her press secretary and communication staff in cultivating this relationship, and the first lady's media coverage. Contributors exploring the following questions: How effective were the media relations and communication strategies of this first lady and her team? What worked and what did not? Was the first lady a communication asset to her husband's administration? And what can we learn from their media relations strategies? Along with contributing to the scholarship on

presidential spouses, the contributions to this volume also highlight the important role media relations plays in strategic political communication. Scholars of communication, media studies, gender and women's studies, political science, and public relations will find this book particularly useful.

The Cult of Trump Steven Hassan, 2020-09-01 A masterful and eye-opening examination of Trump and the coercive control tactics he uses to build a fanatical devotion in his supporters written by “an authority on breaking away from cults...an argument that...bears consideration as the next election cycle heats up” (Kirkus Reviews). Since the 2016 election, Donald Trump’s behavior has become both more disturbing and yet increasingly familiar. He relies on phrases like, “fake news,” “build the wall,” and continues to spread the divisive mentality of us-vs.-them. He lies constantly, has no conscience, never admits when he is wrong, and projects all of his shortcomings on to others. He has become more authoritarian, more outrageous, and yet many of his followers remain blindly devoted. Scott Adams, the creator of Dilbert and a major Trump supporter, calls him one of the most persuasive people living. His need to squash alternate information and his insistence of constant ego stroking are all characteristics of other famous leaders—cult leaders. In *The Cult of Trump*, mind control and licensed mental health expert Steven Hassan draws parallels between our current president and people like Jim Jones, David Koresh, Ron Hubbard, and Sun Myung Moon, arguing that this presidency is in many ways like a destructive cult. He specifically details the ways in which people are influenced through an array of social psychology methods and how they become fiercely loyal and obedient. Hassan was a former “Moonie” himself, and he presents a “thoughtful and well-researched analysis of some of the most puzzling aspects of the current presidency, including the remarkable passivity of fellow Republicans [and] the gross pandering of many members of the press” (Thomas G. Gutheil, MD and professor of psychiatry, Harvard Medical School). *The Cult of Trump* is an accessible and in-depth analysis of the president, showing that under the right circumstances, even sane, rational, well-adjusted people can be persuaded to believe the most outrageous ideas. “This book is a must for anyone who wants to understand the current political climate” (Judith Stevens-Long, PhD and author of *Living Well, Dying Well*).

Power and Gender Rosemarie Skaine, 1996-01-01 Most Americans were shocked when Anita Hill charged U.S. Supreme Court nominee Clarence Thomas with sexual harassment. Not surprisingly, the nation was divided on the Senate hearings on the matter--some believed Hill, others, Thomas. Perhaps the most important result of the hearings was to open the eyes of a majority of the public to the issue of sexual harassment and to begin a dialog on the issue. This work first defines sexual harassment, including operational, sociological and legal definitions, and then provides a history of the issue in the United States and a theoretical framework of why harassment occurs. This is followed by a look at the legal dimension of the problem, with a discussion of pertinent federal and state laws and Equal Employment Opportunity Commission (EEOC) decisions. The incidence and settings (e.g., workplace, housing, religious institutions) are next examined, followed by chapters on sexual harassment in the government, the military, and in education. The book concludes with discussions of strategies for the victims and for employers.

Teacher Education in the Trump Era and Beyond Laura Baecher, Megan Blumenreich, Shira Eve Epstein, Julie Horwitz, 2018-12-21 This book aims to start the conversation about how the consequences of the historic 2016 election can be addressed in the teacher education classroom. Taking as its starting point the Trump administration’s dramatic influence on education, educational policy, the culture in schools, and the safety of children, contributors demonstrate how teacher educators across the United States are adapting their curriculum. The chapters represent a variety of aspects of teacher support and preparation, and

address practices such as rejecting xenophobia, developing critical thinking, and responding to children's emotional lives. The issues addressed in this volume are a continuation of conflicts and challenges with which educators have long grappled, and the contributors' insights will be valuable under a range of future political circumstances.

The Trump Effect in Contemporary Art and Visual Culture Kit Messham-Muir, Uroš Cvor, 2022-12-29 The 2021 Capitol Hill Riot marked a watershed moment when the 'old world' of factbased systems of representation was briefly overwhelmed by the emerging hyper-individual politics of aestheticized emotion. In *The Trump Effect in Contemporary Art and Visual Culture*, Kit Messham-Muir and Uroš Cvor analyse the aesthetics that have emerged at the core of 21st-century politics, and which erupted at the US Capitol in January 2021. Looking at this event's aesthetic dimensions through such aspects as QAnon, white resentment and strongman authoritarianism, they examine the world-wide historical trends towards ethno-nationalism and populism that emerged following the end of the Cold War in 1989 and the dawning of the current post-ideological age. Building on their ground-breaking research into how trauma, emotion and empathy have become well-worn tropes in contemporary art informed by conflict, Messham-Muir and Cvor go further by highlighting the ways in which art can actively disrupt an underlying drift in society towards white supremacy and ultranationalism. Utilising their outsiders' perspective on a so-called American phenomenon, and rejecting American exceptionalism, their theorising of the 'Trump Effect' rejects the idea of Trump as a political aberration, but as a symptom of deeper and longer-term philosophical shifts in global politics and society. As theorists of contemporary art and visual culture, Messham-Muir and Cvor explore the ways in which these features of the Trump Effect operate through aesthetics, in the intersection of politics and contemporary art, and provide valuable insight into the current political context.

Free Radicals in Biology William Pryor, 2012-12-02 *Free Radicals in Biology*, Volume VI covers the significant biological implications of arachidonic acid chemistry in free radical biology. This 11-chapter volume explores the biochemistry of the prostaglandins, leukotrienes, and other products from arachidonic acid. The introductory chapters describe the chemistry of the eicosanoids; the structures of prostaglandin and leukotriene compounds; the role of lipid hydroperoxides in controlling prostaglandin biosynthesis; and the oxidation of xenobiotics during prostaglandin H biosynthesis. The discussion then shifts to the effects of the so-called fatty acid paradoxes on cell proliferation, tumorigenesis, and metastasis, followed by chapters on arachidonic acid cascade process; the causes of lung injury conditions, such as hyperoxia; and the origin of low-level chemiluminescence in cells. This volume further deals with the oxy-radical involvement in parasitic diseases and the mechanisms for activation of aromatic amine carcinogens. The concluding chapters examine the controversial one- and two-electron mechanisms for activation of polynuclear hydrocarbon carcinogens and a hypothesis to rationalize the effects of radicals on the life span of mammals. These chapters propose that aging results from toxic by-products of metabolism, and longevity is determined by the ability of an organism to deal with these products. This book will be of great benefit to biochemists, biologists, and physicists.

The Last Leonardo Ben Lewis, 2019-06-25 An epic quest exposes hidden truths about Leonardo da Vinci's *Salvator Mundi*, the recently discovered masterpiece that sold for \$450 million—and might not be the real thing. In 2017, Leonardo da Vinci's small oil painting the *Salvator Mundi* was sold at auction. In the words of its discoverer, the image of Christ as savior of the world is "the rarest thing on the planet." Its \$450 million sale price also makes it the world's most expensive painting. For two centuries, art dealers had searched in vain for the Holy Grail of art history: a portrait of Christ as the *Salvator Mundi* by Leonardo da

Vinci. Many similar paintings of greatly varying quality had been executed by Leonardo's assistants in the early sixteenth century. But where was the original by the master himself? In November 2017, Christie's auction house announced they had it. But did they? The Last Leonardo tells a thrilling tale of a spellbinding icon invested with the power to make or break the reputations of scholars, billionaires, kings, and sheikhs. Ben Lewis takes us to Leonardo's studio in Renaissance Italy; to the court of Charles I and the English Civil War; to Amsterdam, Moscow, and New Orleans; to the galleries, salerooms, and restorer's workshop as the painting slowly, painstakingly emerged from obscurity. The vicissitudes of the highly secretive art market are charted across six centuries. It is a twisting tale of geniuses and oligarchs, double-crossings and disappearances, in which we're never quite certain what to believe. Above all, it is an adventure story about the search for lost treasure, and a quest for the truth. Praise for *The Last Leonardo* "The story of the world's most expensive painting is narrated with great gusto and formidably researched detail in Ben Lewis's book. . . . Lewis's probings of the Salvator's backstory raise questions about its historical status and visibility, and these lead in turn to the fundamental question of whether the painting is really an autograph work by Leonardo."—Charles Nicholl, *The Guardian* "As the art historian and critic Ben Lewis shows in his forensically detailed and gripping investigation into the history, discovery and sales of the painting, establishing the truth is like nailing down jelly."—Michael Prodger, *The Sunday Times*

The Trumps Gwenda Blair, 2015-10-06 The definitive family biography of President Donald Trump. The revealing story of the Trumps mirrors America's transformation from a land of striving immigrants to a world in which the aura of wealth alone can guarantee a fortune. The Trumps begins with a portrait of President Trump's immigrant grandfather, who as a young man built hotels for miners in Alaska during the Klondike gold rush. His son, Fred, took advantage of the New Deal, using government subsidies and loopholes to construct hugely successful housing developments in the 1940s and 1950s. The profits from Fred's enterprises paved the way for President Trump's roller-coaster ride through the 1980s and 1990s into the new century. With his talent for extravagant exaggeration—he calls it "truthful hyperbole"—President Trump turned the deal-making know-how of his forebears into an art form. By placing this much-publicized life within the context of family, Gwenda Blair adds a new dimension to the larger-than-life figure who ascended to the American Presidency.

Drug Wars Claudia Martin, 2017-12-15 The violence that surrounds drug dealing and drug trafficking has decimated whole communities, and, in some cases, reshaped daily life in entire countries. This volume takes a closer look at the people affected by the drug trade and the efforts being made to combat it. The book includes firsthand stories, critical thinking questions, and a summative activity, all with the aim of showing the human toll of the drug economy.

The Lost Education of Horace Tate Vanessa Siddle Walker, 2018-07-31 A Publishers Weekly Best Book of 2018 "An important contribution to our understanding of how ordinary people found the strength to fight for equality for schoolchildren and their teachers." —Wall Street Journal In the epic tradition of *Eyes on the Prize* and with the cultural significance of John Lewis's *March* trilogy, an ambitious and harrowing account of the devoted black educators who battled southern school segregation and inequality For two years an aging Dr. Horace Tate—a former teacher, principal, and state senator—told Emory University professor Vanessa Siddle Walker about his clandestine travels on unpaved roads under the cover of night, meeting with other educators and with Dr. King, Georgia politicians, and even U.S. presidents. Sometimes he and Walker spoke by phone, sometimes in his office, sometimes in his home; always Tate shared fascinating stories of the times leading up to and following *Brown v. Board of Education*. Dramatically, on his deathbed, he asked Walker to return to his office in Atlanta, in a building that was once the

headquarters of another kind of southern strategy, one driven by integrity and equality. Just days after Dr. Tate's passing in 2002, Walker honored his wish. Up a dusty, rickety staircase, locked in a concealed attic, she found the collection: a massive archive documenting the underground actors and covert strategies behind the most significant era of the fight for educational justice. Thus began Walker's sixteen-year project to uncover the network of educators behind countless battles—in courtrooms, schools, and communities—for the education of black children. Until now, the courageous story of how black Americans in the South won so much and subsequently fell so far has been incomplete. *The Lost Education of Horace Tate* is a monumental work that offers fresh insight into the southern struggle for human rights, revealing little-known accounts of leaders such as W.E.B. Du Bois and James Weldon Johnson, as well as hidden provocateurs like Horace Tate.

Tate and Allied Families of Robertson County, Tennessee Evelyn Yates Carpenter, 1987 The name of Tait, Taite, Taitt, Taitte, Tate, Tatte, Tayt, Tayte, Teat, Teate, Teit and Teite has its origin in Norway where it was used as a personal name. It is an Anglo-Saxon name meaning cheerful. The family was found in England in the ninth century. John Tate, born ca 1687 in St. Petersburg parish, New Kent, Virginia, is the first proven ancestor. His wife's name was Lucy. He married secondly, Mary, but all children were by the first wife. John died by November 1768. James Tate, born 1618 came from St. Katherine, near London on 27 April 1635. This appears to be the emigrant ancestor. He settled in Virginia.
