**IRS Secrets Revealed: Racism, Waste, Incompetence** Alexander Gordon,2019-03-18 Alexander Gordon's life changed forever April 30, 2015, when investigators with the IRS Criminal Investigation Division and Tax Inspector General Tax Administration barged into his home waving guns. For someone who had received performance awards every year, it was a shocking turn of events. He discovered he'd been indicted in the Eastern District Brooklyn, New York, U.S. Court, on charges of filing false tax returns, identity theft, and perjury. In this eye-opening account of the egregious practices the IRS commits on a daily basis, the author reveals how the agency hurts law-abiding citizens. Just as important, he explains how individuals can protect themselves from unfair collection policies. The book also provides a shocking account of the racism within the agency and how it hurts hardworking people. Join the author as he shares a personal story of being abused by the IRS and why every taxpayer needs to be wary of the agency.

*The GREAT COUNCIL TAX RECOVERY SCAM APPROVED by MAGISTRATES and JUDGES* Paul PATTERSON,2020-09-10 BOOK REVIEW An appreciation by Elizabeth Robson Taylor MA of Richmond Green Chambers and Phillip Taylor MBE, Head of Chambers, Reviews Editor, The Barrister, and Mediator. Paul Patterson has undeniable courage in producing his personal critical survey on what he calls a costs scam involving council tax recovery processes. He is an angry man! And his anger is about the concept of the award of costs which are at the discretion of the court. There are always at least two sides if not more to a story, and costs are often as emotional as the judgment itself. Sadly, the way in which council tax payments are obtained from the local electorate has remained an area of concern for many since 1275 with the initial poll tax conflict, reignited with the modern council tax. In his earlier book, an historic forerunner entitled, My Council Tax Stance from October 2017, Paul wrote: This all started in January 2016 when my son Jay started to tell me how the council where investing in arms companies, if that wasn't immoral enough, it came apparent that the council are deceiving people who have fallen into arrears with their council tax. They are deceiving them in the summons they are sending out to them. He continues, declaring that a summons is nothing more than an invitation to the council's place of business, a room in the magistrates' court, nothing to do with the magistrates, just a way of putting fear into you. Hundreds of people all summons to appear at Bodmin Magistrates Court on a Friday afternoon at 1.20pm. With his new paperback, Paul has expanded his points to cover the pandemic and after. Paul then

sets the scene, stating that a council officer will be waiting to usher you into their place of business, get you into agreeing to paying by instalment and that way accepting liability without even seeing a magistrate. In his original book, he offers advice that many of the letters he cites can be used as templates for your own council tax stance. And Paul is back on the attack in 2020 with The Great Council Tax Recovery Scam. He updates his original work setting out how a Defendant might challenge costs in a practical way. There is an analogy here to the non-payment of the licence fee where those opposed to such fees were encouraged on mass to make a challenge and clog up the court system. With the sheer numbers of Defendants in both licence fee and council tax cases being so high. The court (and the Johnson government since 2019) have remained concerned at the numbers and chaos which can ensue. Bulk listing liability orders have been a matter of concern with the council tax and many other civil proceedings where the allegation is that the Claimant receives preferential treatment with their causes of action, and the inflated costs sought against mainly vulnerable people. There is only one conclusion: urgent reform. There is also a bigger issue about the extent of the powers of local government officials who are often considered to over-egg the costs they seek by doubling up the sums of money for work done. Sadly, it remains the position that costs so often out-strip any sums of money sought or issues in dispute resolved which makes a mockery of open justice which remains the preserve of the rich (except the council tax payer). It is clear this book will be highly unpopular with many officials, and it does not aim to replace professional legal advice which should be sought. It is feared that the only real solution is a root and branch reform which will occur with the post-Covid developing chaos to the justice system once tax arrears and costs claims return to the courts. You are very brave to take these people on, Paul.
