Rhs Garden Finder 2006-2007 Charles Quest-Ritson,2006-04 Garden lovers will have to own this leading, fully updated guide! Produced by the Royal Horticultural Society, it reveals where to see plants growing in more than 1,000 British gardens--including 150 nurseries and demonstration gardens--that are open to the public. Each entry, which is listed alphabetically by country or region, includes a description, with highlights and key features; full contact details, including opening times, admission fees, and coded facilities; and brief directions. In addition, there are comprehensive regional maps at the back, and an alphabetical listing to help visitors choose the gardens with the very finest displays.

Directory of Museums, Galleries and Buildings of Historic Interest in the UK Keith W. Reynard,2004-03-01 This unique and important directory incorporates some 3,200 entries. It covers all types and sizes of museums; galleries of paintings, sculpture and photography; and buildings and sites of particular historic interest. It also provides an extensive index listing over 3,200 subjects. The directory covers national collections and major buildings, but also the more unusual, less well-known and local exhibits and sites. The Directory of Museums, Galleries and Buildings of Historic Interest in the United Kingdom is an indispensable reference source for any library, an ideal companion for researcher and enthusiast alike, and an essential purchase for anyone with an interest in the cultural and historical collections of the UK. Features include: * Alphabetically listed entries, which are also indexed by subject for ease of reference * Entries include the name and address of the organization, telephone and fax numbers, email and internet addresses, a point of contact, times of opening and facilities for visitors * A breakdown of the collections held by each organization, giving a broad overview of the main collection as a whole * Details of special collections are provided and include the period covered as well as the number of items held.

Report to the Committee on the Budget United States. Congress. House. Committee on the Budget,1982

The Atchafalaya River Basin Bryan P. Piazza,2014-03-01 In this comprehensive, one-volume reference, Nature Conservancy scientist Bryan P. Piazza poses five key questions: —What is the Atchafalaya River Basin? —Why is it important? —How have its hydrology and natural habitats been managed? —What is its current state? —How do we ensure its survival? For more than five centuries, the Atchafalaya River Basin has captured the flow of the Mississippi River, becoming its main tributary as it reaches the Gulf of Mexico in south Louisiana. This dynamic environment, comprising almost a million acres of the lower Mississippi Alluvial Valley and Mississippi River Deltaic Plain, is perhaps best known for its expansive swamp environments dominated by baldcypress, water tupelo, and alligators. But the Atchafalaya River Basin contains a wide range of

habitats and one of the highest levels of biodiversity on the North American continent. Piazza has compiled and synthesized the body of scientific knowledge for the Atchafalaya River Basin, documenting the ecological state of the basin and providing a baseline of understanding. His research provides a crucial resource for future planning. He evaluates some common themes that have emerged from the research and identifies important scientific questions that remain unexplored.
