Urban Transport XXIII C.A. Brebbia, S. Ricci, 2017-12-11 Forming the 23rd addition to a successful series, this book contains papers presented by an extensive selection of international delegates at the 23rd International Conference on Urban Transport and the Environment. Due to its continued success and multiplicity of topics, the series is considered to be a leading source of new research in the area of transport engineering. Transportation in urban areas, with its related environmental and social impacts, is of significant concern for government policymakers and for the urban citizens who need efficient transport systems. Extensive reviews of these systems are required to devise and then safeguard their operational use, maintenance, safety and security. The continuing requirement for better and more efficient urban transport systems and the need for a healthier environment has added to the increasing international desire for new technologies and developments in this essential field. The variety of topics covered reflects the complex interaction of urban transport systems with their environment and the need to establish integrated strategies. These topics include: Public transport systems; Urban transport planning and management; Environmental impact; Economic and social impact; Safety and security; Transportation modelling and simulation; Intelligent and advanced transport systems; City logistics; Inter-modal transport systems; Mass transport strategies;

Freight transport; Railway systems; Port and city; Mobility and public space; Innovative electric transportation; Eco-mobility transport systems; Integrated network systems; Traditional and alternative fuels and energy; Public policies and governance.

Globalisation and the Politics of Forgetting Yong-Sook Lee,Brenda S.A. Yeoh,2018-10-24 In both academic scholarship and the popular imagination, the globality of modern society has been represented by global cities as the corporate and financial epicentres for capital accumulation, cosmopolitan cultures and innovative change. This has created an image of the globalised world as empty beyond cities which make it into the global league as paradigmatic 'celebrity' cities.

As a counterpoint this book give interpretive weight elsewhere, in 'other' places, cities and regions, drawing on a range of examples from both the developed and developing worlds. This book was previously published as a special issue of the journal Urban Studies.

Allis-Chalmers Farms Tractors and Crawlers Data Book Terry Dean,2000 Beginning in 1914 and continuing through all major Allis-Chalmers farm tractors and crawlers built as late as 1963, this pocket-size compendium offers specifications and ratings for more than 60 models and their variants. The listings, accompanied by a selection of archival photos illustrating the tractors, include all the vital facts and figures an owner or prospective buyer needs. And the handy trim size makes it an ideal take-along reference for auctions and sales.

Making Wood Trucks & Construction Vehicles Reg Martin,2006 An old favorite gets a fabulous freshening up, with full-color images throughout--but the projects remain as wonderful as ever, appealing to children of all ages. Bulldozers, dump trucks, loaders, and forklifts, each with a variety of moving parts: all these toy vehicles are included for the making, with plenty of diagrams, very detailed instructions that proceed logically and clearly from part to part, and images of the final product. Try a box trailer with a semi-cab, doors, axles, wheels (with simulated tread, if you like), and mud flaps. They're fun to craft and fun to receive.

The Yellow Cab Marcus Pfister,2013-02-01 Jack, the little yellow taxi, used to be the fastest, brightest taxi around and traveled the city as if he had wings. If only he could fly. But something magical happens when Jack sees a bus that says, "Come to Brazil." Before Jack knows it, he's flying over the Brazilian rainforest and his new customers are macaws and howler monkeys! Jack couldn't be happier, playing pass-the-coconut. But their fun comes to a halt when big

bulldozers and cranky cranes start chopping down the rainforest. Why don't you come back to the city and leave the forest alone? With a blink of an eye, Jack is back in the city. Could those be the same bulldozers he saw in the rainforest? Jack isn't sure until he spies a coconut on the park bench and smiles to himself...anything is still possible.
